SPERMATOPHYTES NUMEROUS

The United States census in the West in the Matter of Jim Clark. That the compiler of the last census was the first to collect data on the spermatacytes and the proportion of the result; however, has furnished some interesting facts. It has been stated that Harper's Weekly thinks it safe to say that there are about 100,000 spermatacytes in the United States.

MR. STERLING, Ky., Feb. 13, 1889.

F. J. Cheney & Co., Toledo, O.

Gentlemen:—I desire to make a brief statement for the benefit of the suffering. I had been afflicted with catarrh of the head, throat and nose, and perhaps the bladder for fifty-twenty-five years. Having tried other remedies without success, I was led by an advertisement in the Sentinel-Democrat to try Hall's Catarrh Cure. I have just finished my fourth bottle, and I believe I am right when I say I am thoroughly restored. I don't believe there is a trace of the disease left. Respectfully,

WM. BRIDGES, Merchant Tailor.
