The Best Medicine.

J. O. Wilson, Contractor and Builder, Sulphur Springs, Texas. Says: "Ayer's Pills are the best medicine I ever used; in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employers for more than twenty years. In no certain knowledge, many cases of the following complaints have been cured by their use."

Permanently Cured. Constipation, biliousness, flatulency, indigestion, headache, neuralgia, rheumatism, and all ailments arising from a disordered action of the bowels.

BRainerd to RAINY LAKE.

The Brainerd and Northern Minnesota Road to be extended. The Minnesota Tribune says it proposed to make the Northern Minnesota railroad a new system which shall extend from Minneapolis north, passing through the counties of Chisago, Stearns, Sherburne, Mille Lacs, touching the great island sea of Lake Umbagog, and thence to Brainerd, and on to Rainy Lake. The proposed road is constructed nearly to Leech Lake, and is operated by the Northern Minnesota Railway. Heretofore the plan, as far as Governor Pillsbury is concerned, was to run west from Brainerd, and thence east to the head of Lake Umbagog. It is now proposed to turn to the east side of Leech Lake, and run to Grand Rapids, the county seat of Itasca, and thence northward to the Rainy Lake fields. There are four routes proposed, and the one that is now the subject of the present investigation is the one that is now the subject of the present investigation.

Mr. McKee has deeded the land of the land for some time but during the next six years he will have ample time to consider the matter before a political boss and a common voter. The fate that has overtaken him will be noted and all patriots will be glad to see the result.

The trouble of republicans there in Pennsylvania has nearly frightened the democrats to death. The tariff policy of the present administration is not a failure, but a success.

Another oddity in the matrimonial line is reported from New York. A German married couple, who had lived together for 27 years, applied to the city hall to be remarried. They said that they had had their marriage certificate and wanted another, which was granted.

The finest gold of modern times belonged to Emma Johnson, a woman who was called "The Birthing of Troy." Its fate is unknown, as it disappeared when the alliance was made.

The silver paper called uson paper was originally made to place between two sheets of gold or silver to prevent its fraying or tarnishing when used.

"Droppele" is a dreadful thing which a man fears as if he were dead and his monument was erected upon his grave. It is a disease of the eye which is cured by the use of the "Droppele" medicine.

The agricultural capital of Europe has doubled since 1840. That of the United States has increased over six fold.
