"Only the Scars Remain,"

Says HENRY HUDSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., who certifies as follows: "Among the many testimonials which I see in the newspapers daily, millions per year, relating to the wonderful cures of blood diseases, I think mine among the most remarkable. Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old

Mother Urged Me

to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

Something Good in Silverware;

we don't mean choice cakes or fruits, but the ware to hold them, all in solid silver, rich, elegant and beautiful. The whole range of table silver ware, including knives, forks, spoons, sugar bowls, water sets, etc., all in the most tasteful, novel and artistic designs. Silverware is costly because somewhat high in price, and cheap because you buy it for a lifetime. What wears so long should be bought with judgement and care. The fall in the value of silver places solid ware within the reach of all. We have a full line,

The first Monday in September, Labor day, is a national holiday.

The worst has happened—Madeline Pollard is to go on the stage.

The Prison Mirror, published by the inmates of the state penitentiary at Stillwater, is a populist sheet.

The Grand Rapids Magnet says D. M. Gunn is the choice of the people of that section for the legislature.

The democratic state central committee has elected a millionaire brewerman, Titus Mareck, as its chairman.

Free text books were voted for the entire system of public schools at Fergus Falls Thursday, only 12 negative votes being registered against it.

The Aitkin Republican says that J. N. True the eminent jurist of Grand Rapids, Minn., will canvass Crow Wing and other counties this fall in the interest of the populist party. Mr. True is a late acquisition to the party.

The Todd County Argus gives the following warning: "There is one thing which the nominees on the republican legislative ticket in this district must pledge themselves to and that is not to encourage in any way W. R. Merrian's senatorial aspirations."

"In the people who think times are mighty hard under the democratic administration desire to see the simon pure article, tough times without any frills, let them get the affairs of the government in the hands of the populists" remarks an exchange, and there is more truth than poetry in the item.

It now appears that the new State capitol can't be built until more money is forthcoming. Two millions were appropriated and a quarter of a million was paid for grounds. Of course more money is wanted, but would it not be better to hold the grounds and do no more until the people can better afford to be further taxed.

Non-Partisan Judicial Committee.—Chairman Craves, of the non partisan judicial committee, announces the following as the non-partisan judicial committee for the ensuing term, viz. Geo. T. Williams, Aitkin, chairman: T. J. Nary, Cass; Wade Blaker, Itasca; M. A. Kelley, Wadena; E. M. Horton, Hubbard; and Fred Wehrle, Crow Wing.—Aitkin Republican.

Coming Congressman.

After one of the most hotly contested but good natured fights ever witnessed in the seventh district, Hon. Frank M. Eddy, of Glenwood, Pope county, was nominated for congress by the republicans on the 11th ballot. The convention was one of the most enthusiastic ever held in the state and no wounds are left that cannot be healed by cooling the ardor with the ratification meeting. The convention was very large and it was composed of the representative men of the party.

Harkham a Candidate.

Hon. J. M. Markham, of Aitkin, is said to be a candidate for the state senate in the Aitkin-Carlton district. Mr. Markham made a good member of the house, where he proved himself wide awake on all matters concerning Northern Minnesota, and an able exponent of his district and of the people. He was one of the best friends Duluth had in the legislature, and his hundreds of friends here will rejoice if he receives the nomination of his party for the senate.—Duluth News Tribune.

Two Years of Democracy.

The Boston Traveller says: Democratic control has already cost this country more actual money than did the four years' war for the maintenance of the country.

Less than two years of Democratic control has reduced more men of former affluence to absolute poverty than any 20 years in the history of the United States.

These are startling statements but are absolutely true.

It has practically bankrupted most of the great railroads of the West, and crippled many in the south and East.

It has thrown out of heretofore profitable employment an army of men greater than was ever commanded by the invincible General Grant, and he commanded more than any other general in the history of the world.

It has converted honest and industrious mechanics into strikers and tramps all over the land.

It has pinched and starved tender women and little children, leaving them homeless and without hope.

It has paralyzed trade, stopped the beating of millions of industrious hammers and silenced the hum of countless looms and spindles in the South as well as in the North.

No one has profited by all this, unless he has speculated on the misfortune of his fellowmen, for it has been a destruction of property and the wiping out of values as with a sponge.

Any dictator, king or emperor could have oppressed a greater people as the Democratic party has done, he would have been sentenced to death a thousands times and the sentences summarily carried into effect.

Nothing that may or may not be done at Washington now can change the result.

The mischief has been wrought.

Confidence has been destroyed.

The people have been deceived and betrayed.

Amid all this financial chaos there is ray of hope.

On the 6th of November now only 86 days away, the people of this country will pronounce emphatic judgment upon an incompetent and unfaithful stewardship, and will entrust the control to other hands.

The mission, then, of the republican party is to bind up the nations wounds, and to bring back smiling peace and plenty again.

A Petition for Reinstatement.

The following petition will be presented to General Manager Kendrick of the Northern Pacific road, in St. Paul as soon as he returns from the Pacific coast.

PETITION

To General Manager J. W. Kendrick, of the Northern Pacific Railroad Company.

We, the undersigned merchants, business men and professional men of the city of Brainerd, wish to respectfully submit to you the following: We wish to state in a preliminary way that we have no desire to make any recommendations not in line with your policy as General Manager, and that the object of this petition is simply to place in your hands such information regarding the facts connected with the recent strike here on the road, and regarding the sentiments of the business element in Brainerd, as we believe you may desire to have; and we wish to say further that this petition is prepared, circulated and signed voluntarily by business and professional men, without any influence or pressure having been brought to bear upon the one by the recent employes of your company. The facts we wish to present are as follows:

1. During the strike there was in this city no violence, no destruction of property and no breach of the law, with one or two very trivial exceptions, and no arrests or attempted arrests.

2. The officers of the local A. R. U. insisted throughout the strike, and frequently instructed their men, that there should be no disorder and no infractions of the law, that the strike was a sympathetic one, and that there was no cause for complaint against the Northern Pacific Company.

3. By reason of the prevailing excitement some indiscreet language was used, but in no case, so far as we know, was the language so extreme as to encourage outbreak and actual disturbance.

4. The business men of Brainerd believed from the outset that the strike was a great mistake, and all the employes now admit that it was. The feeling among all classes here is such that another strike upon your road in this locality can never again occur as long as the company continues to follow the just, liberal and considerate policy that has always been prominent in its dealings with its employes.

In view of the foregoing we respectfully petition you in behalf of your recent employes here, and of their families and homes, and the children who sit around their tables, to reinstate in their employment all who were not guilty of violation of the law. We know these men, they are good citizens and many of them own their homes here, and we would earnestly advise a liberal and magnanimous policy that will allow them to remain in the employ of the road. We would, for the best interest of all concerned, so remain.

Very Respectfully Yours,

During the fiscal year ending June 30 there was withdrawn from the savings banks of New York and Brooklyn $135,312,174, or $22,842,145 more than the deposits. Such drawing upon savings is unprecedented, and is indicative to the last extent of how moderate means have had to draw on their savings throughout the country during the business and industrial depression since June, 1893. This is about the kind of clover which came with Grover, of which the democrats sang so lustily in 1892.—Minneapolis Journal.

WHY ARE THEY HERE!

Considerable Speculation as to What Hawaiian Commissioners Want.

WASHINGTON, Aug. 8.—There is some uncertainty manifested in congressional circles to know the exact purpose of the visit of Messrs. Parker, Cummings and Widdeman, the royalist envoys from Hawaii. While they talked with various members of congress, they have not confided to any one a definite expression of the ends which they hope to accomplish by their missions. In a general way they have received the various wrongs attending the overthrow of the monarchy from their standpoint, and they have accepted of the interference of Mr. Stevens, which they say brought about the downfall. They express that the present government cannot be considered a republic, and are not satisfied with the attitude of Mr. Willis, who is said to be as friendly to the American element as was his predecessor. But they do not ask the members to do anything in behalf of the deposed queen, nor do they state definitely why they are here. One of the two objects is suggested by members of congress to have brought the delegation to urge the administration to carry out its abandoned idea of the restoration of the queen, or to make arrangements for pecuniary redress for her.

The commissioners have expressly disclaimed either of those purposes, and their objects are veiled in mystery.

MILWAUKEE STREET RAILWAYS.

Aldermen Talk of Buying Them For the City.

MILWAUKEE, Aug. 9.—Alderman Rauschenburger introduced a resolution in the common council calling for the appointment of a committee to ascertain whether it is possible for the city at this time to purchase the street railway system. In the preamble of the resolution it is stated that the protest of the street railway company against the recent increase in assessments makes it appear as if this were a good time to purchase the street railway and the electric lighting system. The preamble further asserts that a large proportion of the taxpayers of the City of Milwaukee believe that the street railway system should be owned and operated by the municipality, and it is believed that the present time would be a favorable one to acquire said street railway system.

A Milwaukee Riot.

MILWAUKEE, Aug. 8.—The health officers attempted to move a child of Fred Kendler, on Antoine street, to the isolation hospital to be treated for smallpox. A riot ensued in which a mob of 5,000 men, women and boys took part. The police were called, but were powerless to cope with the mob, and all attempts to remove the child had to be abandoned temporarily. Four policemen were hit by stones. A child of the Kembler family died at the hospital of smallpox three weeks ago. The parents and neighbors broke all efforts to take this patient there.

Logging Train Ditched.

BRAINERD, Minn., Aug. 11.—Charles Frost, a Swede, was instantly killed and Jared in a railroad accident on the Cross Lake Logging company's road, a tree falling across the track ahead of the train, derailing it, ditching the engine and completely demolishing four cars. It is not known whether Frost is fatally hurt or not.

MINNESOTA State Normal Schools

—AT—

Winona, Mankato, St. Cloud and Moorhead.

These schools are organized for the training of teachers for the public schools of Minnesota.

ORGANIZATION—Each school comprises two departments—the Normal department and the Training Department of each school.

COURSES OF INSTRUCTION.

(a) An Elementary Course for teachers of rural districts and elementary grades.

(b) An Advanced Course for teachers of advanced grades.

(c) A Professional Course for teachers who have completed the required academic work elsewhere.

(d) A Kindergarten Training Course (at Winona, Mankato and St. Cloud).

ADMISSION—Applicants for admission must be at least fifteen years of age, of good moral character and teachers holding county normal or high school first and second grade certificates are admitted without examination. All others are required to pass an examination.

EXPENSES.—Tuition is free to all who pledge themselves to teach in Minnesota. Text books are furnished at a rental of $1 per year. Pupils in the Training Department are required to board in the model building at a cost of $3 per week. The Ladies' Home at St. Cloud offers board and furnished room and light at $2 per week. The new dormitory at Mankato will furnish accommodations at $2.50 per week.

DIPLOMAS.—By a recent act of the legislature a diploma becomes a state teachers' certificate of the first grade.

The next school year begins at Winona August 31; at Mankato September 4; at St. Cloud September 5; at Moorhead September 6.

HOW A PUZZLE WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you? Of course.

But how to determine which make is best is sometimes quite a puzzle.

And when the puzzle is solved for you, by authority which cannot be questioned, you are pleased, aren't you?

And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?

Well, we will tell you about that very puzzle, and its solution.

At the International Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.

This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest honor offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.

The French Government, as a further recognition of its superiority, decorated M. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.

That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in mechanical skill, and No. 12 is Wheeler & Wilson machines.

And the one, for family use, and the No. 12, for manufacturing use, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best, it will be your own fault.

Ask your sewing machine dealer for the No. 12 Wheeler & Wilson, and if he does not keep them, write to us for descriptive catalogue, prices and terms.

Agents wanted in all unoccupied territory.

A NEW TARIFF DEAL

THE HOUSE WINDS UP THE WORK IN SHORT ORDER.

It Recedes From Its Disagreement to the Senate Amendments and Then Passes Separate Bills Placing Coal, Barbed Wire and Sugar on the Free List.

Washington, Aug. 14—The long struggle over the tariff bill came to a close in the house this morning at 2 o'clock by a vote of 193 to 103 decided to discharge the house conferees from further consideration of the senate amendments, by concurring in the 634 senate amendments and agree to them. The vote was a complete victory for the senate. The house made an absolute surrender. The result grew directly out of the political and financial events at the senate and of the capital precipitated by Senator Hill on Friday. Up to that time the house conferees had stood firm against the senate amendments especially on the three disputed schedules of coal, iron ore and sugar, and the temporary vote of the house was for war—war to the end. But the indications that the Democrats in the senate would not be able to longer hold a majority of the votes in line for even the senate bill, and that Hill's desperate jeopardy forced the house Democrats to immediately consider the situation. A majority of the house at last admitted that they were beaten, and that another vote could not be taken. They realized that it must either be the senate bill or no bill. The whole question was reconsidered at the caucus held just before the house convened to-day, at which, after a protracted session of speaking and speeches in favor of receding by Speaker Crisp, Chairman Wilson and Mills, it was decided to take the senate bill and immediately afterward pass separate bills placing coal, iron ore, sugar and barbed wire on the free list, and by so doing place the senate in the position of having partially overcome the humiliation involved in its defeat. The programme agreed upon at the caucus was carried out to the letter in the house after an iron clad special order was adopted.

Washington, Aug. 14. — When the house met, its first order was that the conference committee be discharged. The anxious public, who thronged the corridors before the galleries were opened, crowded into the galleries in anticipation of the final scene in the long struggle. Every member was present and seated on the floor. Members were standing about in excited groups discussing the details of the general understanding being that resolutions to that effect would be introduced as soon as probably to consider the bills for free coal, iron, sugar and barbed wire. The conference report was then taken up, and the motion made to concur in the senate amendments and agree to them. Mr. Wilson, of West Virginia, then moved the previous question, which was carried by a vote of 193 to 103. The vote was then taken on the motion to concur in the senate amendments, and was carried by the same vote. Mr. Wilson, of West Virginia, then moved that the house recede from its disagreement to the senate amendments to the coal, iron ore and sugar schedules, and concur therein severally. Mr. Reed made a preliminary objection that the motion was not in order, but withdrew it on the statement that it was the intention of the mover to follow it with a motion to discharge the house conferees from further consideration of the senate amendments, and agree to them. The motion was carried by the same vote as the previous motion. Mr. Wilson, of West Virginia, then moved that the house recede from its disagreement to the senate amendment to the free list, and concur therein with an amendment placing coal on the free list. Mr. Reed made a point of order that the motion was not in order, but withdrew it on the statement that it was the intention of the mover to follow it with a motion to discharge the house conferees from further consideration of the senate amendments, and agree to them. The motion was carried by the same vote as the previous motion. Mrs. Dell Hains was fatally burned at Tracy by a gasoline explosion. She was building a fire in the stove and manufacturing gasoline.

The Minneapolis Brewing company lost twenty-seven cases and ten kegs of beer when a freight train left the road yards at Le Sueur. No clue to the robbers.

Frank Armstrong, Sr., one of the old and respected citizens of Two Rivers, died at his home on Saturday. Mr. Armstrong was born in Holland in 1818 and came to this country in 1851.

Some burglar took the screen off the bed room window of Postmaster H. M. Berkland, of St. Paul, and entered the house and took two gold watches and chains and about $3 in money.

C. B. Bell of the old Bank of Le Sueur, has again been convicted and sentenced to ninety days in jail for violating the liquor laws. He immediately arrested again on complaint of Truman Allen.

The Coliseum, connected with the state university at Minneapolis, was burned, with the state educational and forestry exhibits which were at the building for the fair, the quantity of arms belonging to the United States government. The loss is over $50,000.

S. B. Swanson, a well-known farmer of Minneapolis, is now engaged in sinking a well on Section 1, Hennepin. He is in a good crop, averaging 20 bushels to the acre for spring, and about 30 bushels to the acre for winter. Corn is not one-third average and hay is very short. Potatoes are a failure.

Sunday, August 12.

Lightning struck the house of William Schaefer, east of Montevideo doing considerable damage.

The grand jury at Hastings indicted John Ivan for murder in the first degree for the killing of Policeman Albert Jacobson.

Alexander Yawinen, thirty-three years old, has mysteriously disappeared from Brainerd and his relatives are anxious as to his whereabouts.

A man named John Miller was struck by a train near Minnesota Lake throwing him from the train. He was badly injuring him. He is now under the doctor's care here.

The man who robbed Young's store and Hodgden & McDonald's saloon at Afton was held to the grand jury from that house, but the sheriff located the cache and caught him trying to escape to the city. He is now in the county jail.

An old employe of Hodgden & McDonald, of Afton, was arrested on Saturday, charged with rape. It is alleged that he outraged a young girl about 12 years old, aged 5 and 8, in the absence of the adult members of the family. The accused protested his innocence.

Mysterious Disappearance.

Alexander Tawkinen, a Finlander, 33 years of age, disappeared from his boarding house in Southeast Brainerd on August 8th under peculiar circumstances. At supper time the man went out of doors to wash his hands and face, leaving his coat in the house, and since that time nothing has been seen of him. He left all his effects including what money he had, the only thing missing that belonged to him being a razor, and the belief is prevalent that he took that instrument to end his life. The woods have been scoured in all directions and Mayor Hemstead has notified the police of neighboring cities to be on the watch for him. When last seen Tawkinen wore gray pants, blue shirt with white stripes and black hat! He has blue eyes, light brown hair and moustache only, and is slow in manners and mind.

A man bearing a close description to the above was seen late in the evening of the 8th inst. in the woods south of town with a grain sack over his neck and head and it is quite probable that it was the same person

Probably Drowned.

Olo Holme, suffering from typhoid fever and an inmate of the Lumberman's Hospital, disappeared from his room on Sunday morning, clad only in a night shirt, and no trace of him has been found although diligent search has been made. Holme was apparently in his right mind, and the theory is entertained that he has committed suicide. He was tracked to the river where he evidently went as soon as he got out of the building, but the use of dynamite and dragging the river bottom failed to find his body. Holme was employed on the extension of the Brainerd & Northern Road and was brought to the city by a friend some days previous to the disappearance. His home is in Benson, where his people live. His father, Paul Olson Holme, arrived in the city on Wednesday to assist in the search for his son's body, for it is practically certain that he has destroyed himself.

A Mass Meeting.

According to the call issued by A. F. Ludwig as chairman of the populist county committee, a meeting was held at the Olympic theatre on Saturday last for the purpose of electing delegates to the congressional convention at St. Cloud, Sept. 12. The meeting was called to order by the chairman and F. Wehrle moved that the present chairman act permantly during the meeting. This motion was supplemented by a motion from Charles Banks that A. F. Ludwig act as permanent chairman for two years, which was carried, as was also a motion from F. Wehrle that Geo. Herren act as permanent secretary for two years.

Carl E. Taylor, of Aitkin county, and a candidate for congress, was present and occupied a seat on the stage and at the request of those present the gentleman read the people's party platform which was accepted and adopted. A motion was then made that the meeting proceed to the election of delegates to the St. Cloud convention, the motion stating that he desired to see the county represented as well as the city and if the farmers did not take interest enough to come out that they would elect them delegates anyhow. The following were then named as delegates:

A. A. Miller, Bay Lake; H. C. Hughey, Long Lake; S. M. Dinwiddie, Garrison; A. F. Ludwig, Crow Wing; Chris Reese, Daggett Brook; J. A. Elliot, Brainerd; R. B. Coffin, Deerwood.

A motion was then made that the delegates present at the convention cast the vote of the delegation. The question then came up as to whom the Crow Wing county populists were in favor of for congress and as Mr. Taylor was present he was asked to give the meeting a digest of his views in order that they might see where he stood. This he did and at the close of his remarks a motion was made instructing the delegates to vote for Mr. Taylor first, last and all the time, which carried.

Mr. Banks then made a motion to elect delegates to the populist judicial convention at Pillager on Sept. 12 and the following were chosen:

Charles Banks, Fred Wehrle, W. W. Winters, John Atkinson and Louis Goodell, from the city; J. Exmer Oaklawn; Geo. Thompson, Long Lake; Wm. Rosencrans, Pointon's.

Mr. Banks arose to his feet as soon as delegates were elected and made a motion that the delegates be instructed to vote for Judge Holland first, last and all the time which carried, one solitary "no" being heard.

Mr. Taylor was then asked to give his views on the money question, government ownership of railroads, etc., and he spoke in a rambling manner for three quarters of an hour the burden of his speech being "scrip" and the National Bankers Association. He stated that in case he was elected to congress that he would endeavor to assist the working classes, that he stood squarley on the platform of his party, was a "muddle of the road" candidate and if he didn't do what the populists advocated he would be willing to be kicked out of office, an ordeal which he will probably never have to go through.

The meeting agreed on a peoples party county convention to be held in Brainerd, Sept. 15, at 3 p. m., the place of holding same to be announced through the press.

The chairman was instructed to appoint a county committee consisting of one member from each township and ward and announce later.

The meeting then adjourned subject to the call of the chairman to elect delegates to the peoples party legislative convention.

Caught A Forger.

Pat Carey is a prisoner at the county jail charged with the serious offence of forgery. Some days ago Carey presented a certificate of deposit on the State Bank of Lisbon, N. D. for $220 to the First National Bank of this city for the purpose of getting it cashed where he was informed that they would take it for collection but would not cash it. Carey seemed anxious to get money and finding that he could get an advance on the paper by getting a responsible endorser procured the signature of Jerome Kelcher and was given $100. The certificate was sent to the bank at Lisdon and returned with the information that it was forgery. In the meantime Carey had gone to Hallock and after waiting a few days he wired the bank to find out if they had received the amount which he claimed was still due him, and the bank wired back asking if they should send it by express to that place. Carey probably thinking the certificate had been cashed and the job had worked all right replied "yes" and Sheriff Spalding went up and gathered the man in. He was brought before Judge Chipperfield yesterday and his examination set for Monday morning, bail being fixed at $500.

Two Tie Games.

Base ball has been quite a fad in Brainerd this season, and the local nine has been able by good playing to come out victorious in nearly every game played. On Saturday last the Stillwater nine, although there is nothing in a name for the players were from all parts of the state, came to this city and two games were played, The Saturday game resulted in 10 scores each at the end of the ninth inning, and in the tenth no runs were made, and the game was called leaving it a tie. This, of course, excited much interest in the Sunday game, which, as far as actual results were concerned, was exactly the same as the Saturday game, 10 to 10 at the end of the tenth inning. The Stillwaters went to bat in the eleventh inning, but not being satisfied by the decision of the umpire in calling one of their men out for cutting the second base, they refused to play further and left the diamond, and the game was given to Brainerd 9 to 0.

The result is that the battle will be fought out on the diamond at White Bear Lake, near St. Paul, on Sunday, and a good game is expected.

A Test of Civil ization.

One of the principal tests by which we may estimate the degree of civilization to which a nation has attained, is its treatment of woman. When man was a savage, woman was no more than a companion animal. When he attained to the stage of a barbarian and had enough intelligence to abandon caves and build for himself a dwelling, woman became the housedrudge, doing the heavy labor of the field also, and being a chattle, disposable at the pleasure of her lord and master. Among the Greeks, the Romans and Jews, her condition was somewhat improved, but polygamy was lawful. The Teutonic nations of the nineteenth century have placed her on a higher plane, and she is accorded a respect and deference that excites the astonishment of Orientals. In among many of whom woman is treated as a being without a mind to be cultivated or a soul to be saved. It is, however, in our own country that woman has attained the beloved and honored queen. In truth, it may be said that among the better classes, all things exist for woman. The railroads, especially, take every means to provide for her safety and her comfort, and if she is traveling alone, great pains are taken to insure her a pleasant journey. Wedded in Washington.

The Spokane (Wash.) Herald, of the 8th inst. contains the following wedding notice of a former Brainerdite, Mr. Hyde having been an employe of the N. P. company in this city for some time.

At eight o'clock this evening, at the residence of Mr. and Mrs. W. D. Evans, parents of the bride, Rev. M. Bankerville of the Congregational church will join in wedlock Mr. William DeForest Hyde and Miss Margaret Evans. Mr. Guy L. Lindsay will support the groom while Miss Anna Evans will perform a similar service for the bride. Only relatives of the contracting parties will be present. Upon the arrival of the 1.10 a. m. train tonight the happy pair will depart on a tour of the Sound cities and upon their return will at once commence keeping house in the residence formerly occupied by Mr. Wm. Moir. Miss Evens is one of the most highly respected young ladies in our city. For the past three or four years she has occupied a responsible position as teacher in our graded schools and is every way qualified to be a true helpmate to the gentleman with whom she will link her fortune. William DeForest Hyde has several years occupied the responsible position of chief clerk in Master Mechanic Moir's office. He is a Christian gentleman in the broadest sense that the writer ever used the term. He could not do a mean act if he wanted to, and he would not if he could.

THE VALUE OF A PUBLIC MARKET.

A Convenience the Farmers Will Not Be Slow to Appreciate.

The farmers who live near a town materially assist in its progress if they are accustomed to carry their produce to it every week. They are compelled to find a market somewhere, but the town that attracts them most is usually the town that has a good public market place, where they can unhitch and feed their horses and expose their wood, potatoes, fruits and other produce for sale.

A farmer naturally dislikes to unhitch on the street, where his team is in the way, where he may be moved on by the police and where he will attract little attention from passersby. Consequently the town that has a regular market place, where farmers can congregate, sell their produce and gossip while waiting for a customer, is the town whose merchants will see the color of the farmer's money.

The market place should be located in the center of the business portion of the town and should have a number of covered sheds, where the farmer may stable his horses when it rains or snows. Once established and well advertised the market will soon become popular both with the farmers and the public, especially if the town authorities see that the place is kept neat and clean and made reasonably comfortable and attractive. Where there are several rival towns in a good farming community the one that has a good market place will surely get the farmer's produce and the money he receives for it and will become more and more prosperous every year.

If You Wish to Help the Town—

Don't fail to sound its praises wherever you are.

Don't make your money out of its citizens and spend it somewhere else.

Don't frown on every public improvement merely because it will cost you a dollar or two.

Don't sneer at the efforts of your fellow citizens to build up the town, but lend a hand yourself.

Don't talk a great deal about what you will do for the town and remain on the back seat waiting for some one else to do it.

Don't say a board of trade is "no good at all" until you can prove it by statistics.

Don't say the public schools are a failure because your boy has been upsetting the school's discipline and has been punished for it.

Don't stay at home on election day, but get out and "hustle" for good men and good government.

Don't let a good local paper that is the town's untiring champion abandon the champion business because of lack of deserved patronage.

Don't forget to drop your dollars in the slot when the committee that is after a new enterprise comes around with the subscription list.

Don't forget that in building up the town hearty co-operation, united energy and a spirit of go there are what win the day. There is no pull like a long pull, a strong pull and a pull all together.

Business Men, Take Notice!

When you want to know about any business outside of the large cities, write to the local newspaper. If the firm is of any account, you will find the advertisement in the home paper.

A Multitude of Counsel.

The opinion is rapidly gaining ground that a remedy which has proved efficient in the hands of the skillful practioner, a remedy prepared by him as the result of years of observation and experience, for the treatment of disease in individual cases, may, if placed by the same practitioner within the reach of the reading public, be instrumental in curing many who otherwise have remained ignorant of its surprising cures.
