The war between the Journal and the Tribune on the grunting matter has ceased. It is short but very sweet while it lasted.

In spite of the lies and abuse of the Minneapolis papers Governor Nelson has been elected senator and Dave Clough will be governor.

The county commissioners of Becker county have voted to reduce their pay from \$5 to \$150 per day. Heretofore they were paid \$5.

It is a great pity that we can not get rid of a president in this country, as they do in France, by voting him out at that point in a future.

Probably the Minneapolis papers have learned by this time that lies and abuse avail nothing. They are now learning that they have not their abuse than did the arguments of his friends.

The Cass County Pioneer last week began the second year of its existence. The editor says he does not care for the notwithstanding he had to split wood on the side to make a living. Bro. Oliver is really satisfied.

There are three body members of the legislature now in session, and it is said they are butlers. They succeeded in capturing a very large share of the spoils at the organization, but have been rather quiet and inactive since.

It is hard to tell which is the most cruel, the outrage in manner in which Miss Calahan died her life or outrageous manner in which the Minneapolis papers distorted the features of her death and her sister in their alleged pictures of them.

Mr. Henry Green, the richest war dealer in America, insists that his daughter must marry a poor man. As Miss Green is heir to twenty millions, we get an idea that there will be some more marriages of this kind.

The 22nd age museum, and nowhere is it more manifest than in the small amount of material that it now takes to make an opera dress for the ladies according to the fashion pages of the daily papers. A little more progress in the same direction, and a lady's costume will contain all the dress that is required by fashion.

It is strange but true that the degree of indignation of this community over the outrage and mutilated nonchalance of the victim. It is safe to assert that had the young lady contracted leprosy she might have been a person of high social standing instead of a working girl, the food at the jail would have had her back scratched before.

Children are imaginative young children that the following from the Minneapolis Journal: "Now let Henry county look out. If the records are getting through a single measure that the Hennepin delegation can defeat, the Hennepin men will be expected to return to their homes. However, if that little game is tried, the Journal will see Hennepin county in a worse shape than the now elsewhere in.

The Journal has a long communication concerning the organization of Cass Co. As we understand it, and in fact we were so informed by Commissioner Ellis, the people of Cass county do not now ask for organization. What they want is continuation of present conditions with power to make a larger levy for road and bridge purposes, and the creation of a poor fund. These demands are not to be granted, and we have no doubt that our representatives in the legislature will insist in getting these things.

The trustees of the Brainerd Water Power Co. have their nerve with them in wanting the city to pay them three times the amount of the water bill. The city is not to be trifled with. The city is not to be trifled with. The city is not to be trifled with.

## An Old Soldier Settles.

Under the auspices heading the Little Falls Transcription Monday says: Mr. J. L. Berg, of Ft. Ripley, writes Mr. Banker that the family of Sgt. L. Davis, who was taken care of in the old buildings at the Fort, is now in charge. Up to the time when President Cleveland took the matter to get to the relief committee and got them to do something for his father. His sister is in the United States service for over twenty-five years, and when old Fort Ripley was abandoned by the troops he was left in charge. Up to the time when President Cleveland took the matter to get to the relief committee and got them to do something for his father.

## "Critical Days."

Prof. Rudolph Fahl of Leipzig, Germany, has advanced a scientific theory that great atmospheric disturbances, shocks of earthquake, and volcanic eruptions are strikingly coincident with the most extensive oceanic tides, such as to warrant the belief that the same cause, planetary influences, produce both these classes of phenomena. The individual constellations expected to return to their former places are: First, the perigee—that is, the time when our globe is nearest to the sun; second, the moon's equatorial position; third, the position, when our globe is nearest to the sun; fourth, the sun's equatorial position; fifth, the moon's equatorial position; sixth, the moon's equatorial position.

### Dr. Price's Cream Baking Powder.

The Chief Chemist of the Agricultural Department at Washington, backed by an intelligent jury at the Exposition, found it strongest in leavening power, peerless in its purity and beyond comparison in uniform excellence.

### Received Highest Award At the World's Fair.

The award is a matter of official record. Nothing could settle so decisively the immeasurable superiority of Dr. Price's over all other powders as the great honor bestowed at Chicago.
