Court Business is Brisk.

The municipal court has had rather more than the ordinary amount of criminal matters to consider the present week, the cases coming before the court being as follows:
Ed. Raymond, who lives near Pillsbury, was arraigned Monday on charge of having threatened to shoot Peter Kite. Raymond pled not guilty and his trial was set for Friday, Oct. 22.
Wm. Mattson pled not guilty on Tuesday to the charge of having appropriated a quantity of cord wood to his own use, the property of A. H. Johnson who lives seven miles west of Brainerd, and the trial was set for Friday, Oct. 22.
On Tuesday Jesse Winters was arraigned on complaint of Jessie Harris for assault, and the colored woman's face was in evidence that an assault had been committed. The Winters girl pleaded guilty on Wednesday morning and was fined \$10.
Peter Congdon was arraigned on complaint of Mrs. Monte Thorpe of Southeast Brainerd charged with grand larceny in the second degree. Mrs. Thorpe claims she had \$40 secreted in her collar and during a short absence from the house the money was taken. Congdon's trial was set for Monday, Oct. 18.
Wm. Smith was before the court Wednesday morning charged with petit larceny and plead guilty to the offense. Judge Alderman sentencing him to pay a fine of \$100 or serve 90 days in the county jail. The goods taken consisted of a coat, vest, pants and pipe which Smith abstracted from a safe at the Northern Pacific Hotel.
W. E. Thorp, charged with having killed two fawns deer out of season was arraigned on Monday and the case was continued until Saturday, Oct. 23, at which time a jury will decide as to his guilt or innocence. This is the case growing out of the arrest of C. O. Deener for the same offense and at the trial Deener stated that Thorp, who is a friend, killed the deer and allowed him to claim the glory.
James Cooney, Frank Howes and Charlie Roberts were arraigned charged with grand larceny in the second degree on Monday. Pat Hunt is the complainant witness and he states that when he went to his room over McCabe's restaurant he had \$40 in money and a certificate of deposit for \$75 on the First National bank in his possession, but when he woke up he found he had been robbed of the money and certificate and charged the men above named with having stolen the same. Bail was fixed at \$500 in each case, Roberts being the only one who could furnish it. The trial takes place on Monday.

Hunters and Their Luck.

W. H. Manton has been spending some days at the Backus camp this week hunting ducks.
Geo. A. Keene and Game Warden Atherton returned Monday from the rice beds on Pine river, having bagged a nice string of game on the trip. Auditor Thoms and J. P. Saunders returned Wednesday morning from Backus having spent several days among the mallards with good success.
J. O. Davis and a party spent a day at Pillager the first of the week duck hunting. Mr. Davis brought back three quail that he had killed in that vicinity, which are the first of that species of game birds known to have been killed in this section of country.
F. L. Smith and Dr. J. A. Steele of Minneapolis, accompanied by D. F. McIntosh and J. R. Smith, of this city, left Wednesday morning over the E. & N. W. for a week's sport with the ducks at the famous Backus camp. Mr. McIntosh will remain until after the close of season.
A. F. Ferris, S. H. Parker and Doc Holden leave next Wednesday afternoon for their deer camp on Daggett Brook north of Cross Lake. Several days will be spent in getting the camp ready for occupancy, and in duck hunting, and have a free day hunt for moose will be inaugurated in the Willow river country, when the party will return and put in the balance of the hunting season killing deer. The party will be joined by J. P. Saunders, George and J. J. Frost, J. C. Davis and others.
We make LOWER PRICES on GOOD SHOES than any house in the city.

Let us hope that the advent of cold weather will also put an end to the "yellow fever" that has recently been raging in New York journalism.

These adverse plagues should remarkably discretion in leading to the Indiana gas belt just at a time when other news was mighty scarce and the correspondents were starving.

Somewhat dropped \$3,000 in a Niagara Falls hotel the other day and forgot to return for it. Don't worry; some hound, if he notices his loss, will stroll in and claim the money one of these days when he isn't busy.

Weyler said some time ago that the case against Brumpting Curator was in its preliminary stage. At that time the young lady had been in jail twelve months the companion of various women, half starved, and subjected to the utmost degradation. There is enough in these facts to warrant the inference of every government and progressive looking man and woman having respect for common decency. Assassination and worse outrages are not war.

While the state legislatures of this country have been coping with military matters in the way of arms and feathers (trimmings the French government has recommended that its houses be put into commission) the attorney manufacturers have been doing a large business in the way of making a large mortality among horses has largely decreased. The announced awakened in the holder at his side gear is but an echo of that a century ago when men first appeared carrying umbrellas.

It is painful to read in the New York Evening Post (owned in England) after that the people of Europe look with unfeeling eyes upon ex-ecrating the people of the continent, themselves or through their representatives, and with effective actions and the more so because the only possible remedy is in the immediate use of immediately doing in the vain hope of immediately bettering the world.

According to reliable statisticians, since 1873 there have been cut in Michigan, Wisconsin and Minnesota about 15,000,000,000 bushels of lumber, board measure, besides \$2,000,000,000 shingles and in the last three-fourths of that period about 200,000,000 shingles, taking the whole country together. Now the three states just mentioned, large quantities of standing coniferous trees, and the amount left in the northern states is estimated at about 100,000,000,000 bushels, and as much as has been cut since about 1873, in the whole country, and yet there are persons who profess to see no reason for national forest protection and forest reserves.

A Russian journal that has recently come under our notice calls attention to the fact that for some twenty years past the inhabitants of a maritally island in the government of Rostov have used powdered crabs with great success in the case of fever. The powder is prepared in the following way: Live crabs are poured over with the ordinary whisky until they are saturated, then they are put on a bread pan in a hot oven, thoroughly dried and pulverized, and the powder passed through a fine sieve. One dose, a teaspoonful, is generally sufficient to cure the intermittent fever, is very obstinate cases a second dose is required. Each dose is (naturally) preceded by a glass of also brandy as a purgative. The powder is used in this locality in preference to quinine. So says the journal. We are not vouch for it.

In an address at Amherst, Massachusetts, Prof. Charles Eliot Norton of Harvard University considered the "village hoodlum" and the areas for his suppression. The "village hoodlum" makes himself more conspicuous than the "city tough." When he becomes suddenly depraved to enjoy his bad emotions he is a more demoralizing figure than his city cousin of the same denomination, and is more dangerous to society inasmuch as the officers of the law in rural communities are generally less efficient than in cities. As a means of suppressing the "village hoodlum," Professor Norton suggested the organization of a body of law-abiding citizens in each village to provide five definite support to the constituted authorities in suppressing lawlessness in all its stages. By this it is evident from other parts of the address the speaker meant particularly the suppression of petty acts of lawlessness by youngsters who are the children of neglected parents and who have in their materials of which to be "hugged" "village hoodlums" are made.

For the first time in the state's history Florida is shipping oranges to Europe, and is receiving in return all in which reach the London market. It is one of a number of southern products which ought to supply European markets right along.

We are informed from Madrid that "General Weyler" will be retained in command, out of respect for the dead. It seems to be a case where "the military ruler." Weyler will be backed up by more "dead" men than any other ruler in sight.

ROBBERS ARE BOLD

CROWDED PASSENGER TRAIN HELD UP NEAR AUSTIN, TEX.

Four men in the job dug in broad daylight and within twelve miles of the Austin, Tex. station, the south-bound Cannon Ball train on the International & Great Northern railway, consisting of mail, baggage and express cars and three coaches loaded with passengers, was held up by four men and robbers. The conductor of the train, Tom Hines, was shot by the robbers, while the passengers that had about carried away by a pistol ball that was aimed for the train, did not suffer a scratch. The bandits attempted to force the train to stop, but were not successful. They then started off the train, and the engine, with a moderate gait, left the engine, and the train, with a moderate gait, left the engine, and the train, with a moderate gait, left the engine.

TRAVEL BLOCKADED

FEVER SCARE CAUSES GENERAL TIRED-PATH TEXAS.

A Regular Train Prevents in the Lower Texas State and the People of Texas is the almost complete blockading of travel, owing to the yellow fever scare. Many trains on all the principal lines have been abandoned and local lines have stopped running entirely. Both divisions of Houston & Texas Central and the Southern Railway are tied up most effectively, not a single wheel moving save to the extreme north of the state. Every small town in the state is rapidly extending shortage of supplies, as trains cannot stop except at the principal stations, and the entire state is likely to suffer a famine if the application of the law is not made.
