The Brainerd Dispatch.

Official Paper of Crow Wing County. Published at the First Office at Brainerd, Minn., on a second class matter.

Legal Notice. We, the undersigned, hereby give notice to publication in our respective newspapers during the month of January, 1908, of the following: In compliance with the laws of Minnesota...

FRIDAY, JANUARY 31, 1908.

It's rather a lame city that has not a Klondike party in the incubator.

The Cannon Falls crematory has been closed owing to disaffection among the farmer patrons, and they will start a co-operative institution.

Up at Grand Rapids County Commissioner Lydick and Logan have been indicted for falsifying and claiming against Itasca county and the trial of the cases are set for Feb. 10.

It is reported by a returned Canadian traveler that in the Peace River country where he spent a couple of years there are four herds of wild buffalo numbering altogether over 2000.

Romans, the red breasted variety, are reported to have arrived at St. Cloud and Duluth during the past week while snakes and gophers are expiring around over the ground at Grandville.

The theft of a sack of flour at Dawson is considered a capital crime while a touch of \$50,000 in gold dust is simply petty larceny. The law of supply and demand appears to regulate the economy of the office.

One thousand invitations will be issued for the wedding of Ignatius Donnelly to Miss Hanson which will take place in Minneapolis on Feb. 22. The Sage is so much pleased over the coming event that he desires all his friends to help him share his joy.

The Milnes Times in commenting on the letting of the contract for building the B. & N. M. says: Now by closing the Great Northern would have a short line to the Twin cities, and it is generally believed that this line will be built next summer.

Hevra admits what the public was well aware of when he says he needs the support of populists and other republicans. As the pope are not on the wave all come of the silver plaid republicans, the Nebraska statesman is liable to have a very hard road to travel.

The supreme court of the United States has handed down an opinion involving the question of whether the heirs of a man who committed suicide when in sound mind can recover an insurance policy. The court held that they could not as no company could undertake to insure against suicide, as it would be contrary to public policy.

A suit has been introduced in the United States senate for the purpose of regulating interstate traffic in wild game and making it unlawful for any railroad or other common carrier to ship game from one state to another contrary to the laws of the state from which shipped. The control of the traffic is placed in the hands of the interstate commerce commission.

Some weeks ago the Dispatch made mention of the fact that Hon. Leon E. Lum, of Duluth, was being urged to become a candidate for the republican nomination as judge of the supreme court and since that time some very flattering notices have appeared in various papers throughout this district regarding the matter. It is practically conceded that St. Louis county should have the judge and in the selection of Mr. Lum as a candidate the people of that section for the state will make no mistake. For many years the gentleman was a resident of Brainerd and nothing would please his friends in this county any greater degree than to see his name on the ticket and as our neighbor, the Journal remarks he would practically receive the solid vote, irrespective of party in this section.

There is a great activity in railroad building in Northern Minnesota. At Brainerd active operations in the construction of the Footen extension of the Great Northern are in progress, there being seven crews of engineers, in squads of five each at work between Deer River and Footen. Grade stakes have been set seven miles west of Brainerd and 300 men are at work clearing the right of way.

White Earth Indians Excited. A telegram from White Earth to the Minneapolis Times says: Considerable excitement prevails here among the Indians, who are highly incensed over reports lately brought in by several of their numbers who have been in and about the reservation logging camps, to the effect that green pine timber is being indiscriminately cut down, together with the dead and down timber. Several councils have lately been held, and at which times three of their members were selected to go out and make an investigation through the several logging camps on the reservation and to find out definitely if the reports of indiscriminate cutting are true, etc., before further action is taken in the matter.

The Indians are heartily disgusted with the whole manner in which their dead and down timber is being disposed of, and the value of which accrues to a few only under present conditions. They are also preparing a protest against the present system of examination, and of estimating their pine timber, and of which they have ample reason to consider are unjust and unfair, and the expense of which is extravagantly exorbitant and beyond all reasonable demands.

Two Plucky Young Ladies. A. A. White, the townsite proprietor and formerly partner of S. G. Comstock, of Moorhead, was in the city today from St. Paul. Mr. White was accompanied by his daughter, Miss Cecile White and by her sister, Miss Myrtle White, who is to be married to Mr. E. E. Tracy, of St. Paul. The young ladies, romantically inclined, and while in the city made entry at the United States land office each a five quarter section of land near Grandville, a portion of the projected northwest extension of the Brainerd & Northern railroad line. They will at once take possession of these sections which are valuable for their agricultural purposes and will improve them. Miss White will take her first to the homestead. St. Cloud Journal Press.

Miss White is a granddaughter of Hon. and Mrs. L. P. White, of this city.

Millie Lee Lake Items. W. Hardy is busily engaged in making a bandage, applying the loggins and stores in the forest. All is quiet at present on our side of the lake except that once in a while one of Gray's bay teams goes through the ice in Lake Lake near Dugdale's.

J. O. Cady, of Dulager, is working in the woods for Mr. Gray. His wife has gone to Anoka to spend the winter with her parents. Mr. and Mrs. Stevens.

Word has reached this office through C. B. Rogers that Kagawon, the venerable chief of the Millie Lake Indians, is dead. His demise occurred on the night of Jan. 8, and his funeral took place Sunday. He was one of the oldest and best known Indians in Minnesota.

The Aitkin Republican says J. G. Taylor, of Bay Lake, Crow Wing county, a brother of Carl Taylor, was a victim of his father-in-law, and while there has had the misfortune of losing, all three of his children, by the same disease. The friends and acquaintances of Mr. Taylor and Mrs. Taylor in Aitkin county will extend their sincere sympathy when they learn of their bereavement.

Wm. Spencer and son Smith visited Duluth and Superior on Tuesday. Mr. Spencer brought home with him a large Newfoundland dog, which he purchased at the head of the lakes and which he will use in making up a dog team for transporting his supplies over the Chilkoot pass on the way to Klondike. Mr. Spencer defers his departure for the Yukon where they have money to burn about the first of March.

Digging Fishes With a Hoe.

The following is a voucher for by P. Makett, who lives in Leflore county, Minn., near Cass Lake. Mr. Makett went out a few mornings ago to a nearby place that had dried out on account of the continued dry weather to dig fish, bait and while digging with a grub hoe to his great surprise instead of finding fish bait he dug up a fine fish that weighed three pounds and upon examination he found that in the mud for 100 yards around there was a great quantity of trout, white perch and bass.

Mr. Makett carried home a half bushel of the fish, and now, instead of digging bait, he goes out every morning and digs a mass of fine fish. The fish are under the surface about ten inches—Memphis Commercial Appeal.

Roasted by a Big Terop. Recently a peculiar incident happened to the steamer Florida, which runs from Panama to South America. On her trip up the steamer had a lighter in tow and one loaded alongside, and in some mysterious way a tarpon, or olive fish, got fast between the steamer and the lighter which she had alongside, and in trying to free itself it jumped aboard the steamer. The monster weighed 175 pounds and measured 6 feet 4 inches in length. This is one of the greatest fish in northern waters when caught with a hook and line and is the first one that has been caught in this vicinity in 15 years.—Panola Star.

His father could not see the boy and concluded that the boy must have come up under the logs into the boat. He made a deep sweep with the log and the long logs came up on the boy. In an instant he had dragged the lad to the surface. He pulled him into the boat and after a few minutes' hard work restored the boy to consciousness.—New York Sun.

CANCER CURED

LIFE SAVED BY THE PERSISTENT USE OF Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore began to disappear and my general health improved. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems to me that I could not keep house without it."—Mrs. S. A. FIELDS, Bloomfield, Ia.

A beautiful and excelent supper was provided by Mrs. McFadden and pleasantly served by Madame Abrena, Keeco and McFadden, assisted by Miss Ella McFadden and Kitty Keeco. The gathering was in honor of Mr. McFadden's birthday which occurred on the 17th. After the supper a great surprise was given the gentleman was presented with a beautiful silver artian lined cuff receiver appropriately engraved with his name, age and a keystone, also three artian vases. The gifts were presented to Mr. McFadden in a unique speech by Companion Rev. G. W. Gallagher who said:

"Our Grand Master Hiram Abiff had among his workmen a celebrated pugilist, Pat Murphy. One day Murphy asked the privilege of being absent for that day. The request was granted. On the morning Murphy returned on his check and one on his chin. His ear also was broken and his nose was broken. Murphy replied that he was sorry to hear of his misfortune and that he would be glad to see him. Murphy then said to Mr. McFadden, 'I am a man of honor and I will not fight with you. I will fight with you if you will fight with me. I will fight with you if you will fight with me. I will fight with you if you will fight with me.'"

THE TALK OF EUROPE.
 Brief Reflections Upon Events of Current Interest Across the Ocean.

It is admirably announced from Germany that the Kaiser is "about" to permit his mother to be crowned Empress. The action of William in thus giving notice that he is "just about to begin," is presumably prompted by a desire to secure the approval of those who are not in favor of the coronation. The coronation of the Emperor's mother is a matter of some importance, especially in view of the fact that the Emperor's mother is a German Princess. is like a plant. What makes the plant fade and wither? Usually lack of necessary nourishment. The reason why Dr. Ayer's Hair Vigor restores gray or faded hair to its normal color, stops hair from falling, and makes it grow, is because it supplies the nourishment the hair needs.

FARM AND GARDEN.

MATTERS OF INTEREST TO AGRICULTURALIST.

Wash Up—Dishes, Glass, Etc.—Cultivate the Hygiene of the Kitchen, Washroom, and Dining Room.

Corn Culture.—The great increase in the number of acres of corn has greatly increased the acreage of corn and each succeeding year farmers who have never grown corn, for fodder before, will grow it to a greater or less extent, and those who have grown it for years will increase the amount of corn.

When to Plant.—To answer this question satisfactorily we must know the soil and the needs of the plant. We learn that it is a native weed of the United States. Thus it is seen that it is a tropical plant, and it gets it to grow to perfection only in a warm soil. To obtain this we must plant it in a warm soil, and not in a cold soil. The best soil is a rich soil, and it is best to plant it in a warm soil, and not in a cold soil.
