ECONOMY

is the road to wealth, and where can you find a better place to practice economy than by buying for CASH and getting the advantage of a close margin. We ask you to carefully look over the following prices and compare them with what you have been paying and see if there is not at least a saving of 20 per cent. If you find it so and can save 20 per cent every month is it not worth your while to do so. There are no tricks in our trade. We guarantee all weights and all goods. A child can buy from us as well as a grown person. We use the Dayton Company Scale, the best scale on the market, and nobody ever pays for more than they get. Below you will find our prices for the following week which we trust will meet with your approval. Yours Respectfully,
