**I. EDSTROM, - No. 6, Laurel St.**

**City Buys a New Dynamo.**  
 A special meeting of the city council was held on Wednesday evening for the purpose of considering matters relative to improving the electric lighting system. Some ten days ago the old armature which had been wound and re-wound many times and was of not much account at best, broke down. The armature which had been kept in reserve for occasions of this kind was put in its place and on Monday night during the storm it burned out, leaving the city, as far as incandescent lights were concerned, in darkness. This armature was not of modern type and as the expense of putting it in condition would be considerable the council felt that the situation demanded careful consideration and a full investigation by the entire body. Mr. Ferris, an expert electrician and representative of the General Electric Co. of Schenectady, N. Y., was present and gave the council the benefit of his experience and knowledge of the old machine, and explained the benefits the city would derive by placing up-to-date machinery in the city's plant. The subject was canvassed thoroughly, and after considering the matter in all its phases it was very wisely decided to purchase a 2400 light dynamo, including switch board and exciter, at a cost of \$2,000, and a contract was entered into. When the new machinery arrives and is placed in position the plant will be complete and in first-class condition. In the meantime the General Electric Co. has tendered the city the use of a dynamo which will be here and put in operation at once, probably by the first of the week, which will be operated until the new machinery arrives. The people of Brainerd will certainly commend the council in their action as it is an improvement which should have been made long ago and made doubly necessary by the recent unavoidable accidents to the plant.

**Fittingly Observed.**  
 Dewey day was observed in Brainerd on Monday in proper style, the programme as published in the Dispatch last week being carried out. The day was not all that could have been desired, the rain interfering to a considerable extent, but it did not dampen the ardor of the enthusiastic populace. Flags floated from all the public buildings and many private residences were decorated. Freshen's city band and the Northern Pacific band furnished music and after the parade interesting and patriotic speeches were delivered at the Y. M. C. A. park by Rev. G. W. Gallagher, Hon. H. C. Stivers, Fr. Lynch and Major Koop. Co. is lent enthusiasm to the occasion and at the close of the exercises fired a salute. The exercises were much enjoyed and will undoubtedly be repeated each May day in honor of one of the most brilliant naval victories in the history of the nation.

**Board of Education.**  
 On Monday evening the board met in regular session. Miss Fannie Newman was engaged as assistant teacher at the high school her salary being fixed at \$60 per month. The secretary was instructed to draw an order for \$1200 to pay interest on bonds. A resolution was offered by Dr. Groves requiring scholars to furnish evidence of successful vaccination or that they are immune to small pox before being admitted to the public schools at the beginning of the next school year, was lost by a tie vote. Trees were ordered planted on school grounds where needed.

On Thursday evening a special meeting was held at the request of the board of health in order to fully consider the matter of vaccination among school children and the resolution noted in the proceedings above and which was defeated at the Monday evening session was passed. The action was taken at the request of the board of health.

**The Best Wagon.**  
 Cook & Remmel are agents for the Clinton Spring Wagon, the best wagon for all round work made especially adapted for farmers and livestock. They are also agents for the best quality milk to produce. Farmers should call and look it over before purchasing.

**The New Bicycle Ordinance.**  
 The city council at its last meeting passed an ordinance, the full text of which will be found in the council proceedings on another page, that will certainly find favor among wheelmen and pedestrians alike. The terms of the ordinance require that whoever rides or uses a bicycle within the corporate limits of the city of Brainerd shall pay a license of one dollar for so doing. The fund created under this ordinance will be set apart and used exclusively for the purpose of building cycle paths within the city limits thereby making it possible for wheelmen to move about the city without using the sidewalks to the exclusion and inconvenience of pedestrians. Bicycles have come to stay and the question of providing for the comfort of those who do not ride, in cities where the walks present the most favorable place for riders to occupy, has become a serious one in many places and at the rate the number of wheels are multiplying in this city it is only a matter of a very short time when they must be built and maintained on the walks and the ordinance to that effect rigidly enforced in all parts of the city. Without paths and with the use of the walks forbidden to the wheelmen would be in a sorry plight in Brainerd. Taking this view of it there is not an owner of a bicycle in the city who should object to the tax imposed to provide a fund for the building of paths. The ordinance will go into effect as soon as officially published which will be tomorrow and the licenses and tags will be issued by the city clerk. Let every wheelman in the city provide himself with one of these tags at the earliest possible moment so that the paths contemplated may be pushed to an early completion.

**Lighting raised havoc with the St. Cloud telephones and street car systems on Sunday.**  
 James R. Kinler has been appointed postmaster at Pine River, Cass county, vice Edwin Coyne resigned. James H. Adams, of the Pergus Falls Journal, has been recommended for census supervisor of the 7th district.

The 200 pounds of sugar beet seed received by Auditor Mallum from the state has all been given out and much more of it could have been used to advantage.

A Washington telegram this morning says Private Geo. A. Gallagher has been ordered discharged from the 18th Minnesota. Mr. Gallagher is a son of Rev. G. W. Gallagher of this city.

After mature deliberation State Auditor Dunn has decided that the Argelinger bill does not repeat existing laws until the date upon which it takes effect, and the schools of the state will receive state aid this year as heretofore.

**Land Commissioner** Hermann has made an official statement regarding the expense of estimating the Chippewa pine in which he says the cost did not exceed 82-5 cents per acre, which is much less than timber was over estimated for under previous administrations.

**Oats For Sale.**  
 White Russian or New Zealand for seed.  
**A. L. HOFFMAN.**

**Card of Thanks.**

Report of auditor on the text book matter was read and accepted and the county attorney was directed to effect settlement with delinquent text book agents.

Board adjourned until Tuesday, May 8th, at 10 a. m.

A. M. MARBLE, County Auditor.

FROM TENNESSEE TO TEXAS

A Beautiful Woman

Rescued From Death in a Desperate Way.

John Alexander Deper was a queer fellow, known throughout the South from New Orleans, on the east, to Santa Fe and the borders of Old Mexico on the west.

For thirty years he had gone to bed every evening to rest the next day he had upon his early days in unbecomingly young, finally becoming discouraged, and engaging in the cattle raising business in Texas early in the sixties. But his turn came. Slowly but surely to the face of numerous vicissitudes, he accumulated a fortune of over a million dollars.

His now had money to burn. No longer was he on the shady side of a city, with his hair and beard long and his eyes dim, but he was a great success by the mothers of marriageable daughters.

On the day of a barber, a few Turkish boys, and a tailor, Mr. Deper was changed from the rough customer to a very respectable, fine-looking, elderly gentleman.

In this improved condition he returned to his old home in the east where, thirty years before, he had led a sweat-bath to whom he had vowed that he would never come back, and that he would never see his wife.

Never was there a happier man than this man, who had been a bridegroom, notwithstanding the fact that a dark cloud hung over him in the form of a warning from his physicians that he was going to decline and could not live long. He refused to believe it, and added to his happiness by having in his house a young girl, just out of her teens, the wealth of whose parents, and many of the leading physicians of the country, he had cured, but no one would agree to his terms.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

He was a man of a very peculiar nature, and with a very peculiar mind. He was a man of a very peculiar nature, and with a very peculiar mind.

BAPTISM IN A BARBER SHOP.

Minneapolis. Mrs. Mary Ann the wife of J. H. White, died last night.

The little colony of Mormons in Minneapolis was baptized in a barber shop the other day, and they had it, but not in the river, but that is from over. The ceremony was conducted in the basement of the Lumber Exchange, where there is a barber shop and bathroom. The proprietor is not a Mormon, and probably does not know when a man is baptized, but he was all accommodation when half a dozen earnest looking men stood in his barber shop and said they would like to use his bathroom if they could.

At the head of the party of visitors was John S. Bond, who is the apostle here of the Mormon colony in Minneapolis. The bond was to be baptized by the Rev. Mr. Baker, who is the pastor of the First Baptist church, and Mr. Baker retired to the dressing room, from which they emerged and were baptized in the water of the river. The little party gathered around the side of the river, and the ceremony began. After a short prayer, during which all succeeded, the minister descended into the water with the candidates. After the baptism was over Mr. Bond walked from the water and his work in Minneapolis. He admitted that it is the first baptism in Minneapolis—Special Chicago Inter-Com.

### DAIRY AND POULTRY.

#### INTERESTING CHAPTERS FOR OUR RURAL READERS.

**How Successful Farmers Operate the Experiment of the Farm-A-Pan State as in the Case of Live Stock and Poultry.**

**Notes From Kansas.**  
Alfalfa vs. Millet for Milk.—Mr. C. Carlson, a patron of the Manhattan Creamery, milks three cows. Up to the 25th of February he had been feeding these cows one ton of alfalfa every 30 days, and had been sending to the creamery an average of 14 lbs of milk per day, besides what was needed at home for the use of a large family. At this time, which was during the severe cold weather of February, his milk was testing 4.6 per cent and butter fat was worth 17 cents a pound. We will estimate the milk-milk at the low price of 14 cents per 100 pounds. For 30 days this would amount to \$14.84 or \$43.80 per cow per month. Having a chance to sell alfalfa at a good price Mr. Carlson thought he would feed millet. He tried it for two weeks with the result, that his cows gave an average of 42½ pounds of 4.1 per cent milk-value, about 200

tons. I know of towns where, in an open winter, it is almost impossible to get to them, and the towns that do not have creameries it is so now. The experiment has improved the towns in which they have been built, and the merchants in the towns favor the creameries because they bring about road improvement and thus make it easier for people to get to the stores. Dairying in southern Illinois has helped in the raising of both pigs and poultry.

**Best Age for Blood Sows.**  
There is one of the vexed questions among swine breeders as well as farmers. Our observation has been that to breed only from young and not fully mated sows is to lose size in the offspring, says Michigan Farmer. If the sow is a good one, the breeder is wise in retaining her so long as she gives him a fair-sized litter of good pigs each year. We believe that many breeders have lost size, bone, and consequently stamina, from relying entirely upon young stock for breeding animals. The farmer who raises hogs for market, however, stands in a different position from the breeder. His business is to furnish hogs for the block in the best finished and cheapest manner possible. Hence he must have large litters of pigs which will mature quickly, and when ready for market

### IOWA PEOPLE GO TO CANADA

Man Says a Farm with Proceeds from Two-thirds of One Crop.  
W. E. MUMFORD, John Holmes, M. H. Dager, E. L. Stinson, of Bonna Vista county, Iowa, report as follows of the Canadian North-West as to its suitability for farming, and the advantages it offers to the agricultural immigrant from the United States: "We came here 'only to look up improved farms and, if suitable, to see if we could not find a better one than we had at home. We have not visited the homestead districts at Hartney, Deloraine and towards the Souris River in Manitoba. Our impressions of all that region are in every way satisfactory, and we have decided to go back to Iowa at once, and, having disposed of our several interests there, to return to Manitoba in the month of March next, and, effecting our purchase of improved farms, which we find we can do at reasonable rates, immediately begin farming. We are greatly pleased with all that we have seen in that part of Western Canada. The soil we find to be more than equal to that of our own country for wheat-growing, and the other conditions of climate, soil, schools, markets, etc., are all that we could wish for. I want an energetic man can do we may mention that we found one such at Hartney who had rented a farm on shares, reaping two-thirds

### Rev. Defects.

One question which a woman desiring to become a trained nurse must answer is, "What are your physical disabilities?" In reply to this a girl recently wrote: "I have a cough and a corn."  
**Abolish the Death Penalty.**  
At Albany the law-makers are wrangling over the abolition of the death penalty. The man who succeeds will prove a great benefactor to the breaker of man's laws as Hostetter's Stomach Bitters has to the breaker of nature's laws. If you've neglected your stomach—until indigestion and constipation are upon you—try Hostetter's Stomach Bitters.

**A Certain Postal System.**  
In certain parts of Sweden, where the most absolute confidence is reposed in the honesty of the people, a very informal postal service is in vogue. As the mail steamer reaches a landing place, a man goes ashore with the letters, which he places in an unlocked box on the pier. Then the passenger who expects a letter opens the box, turns over the letter and selects his own, unquestioned by anybody.

**PATENTS.**  
List of Patents Issued Last Week to Northwestern Inventors.  
John Carlson, Mandan, N. D., Acetylene gas generator. Harry W. Wallace, St. Paul, Minn., Electric arc lamp.

**A CHARMING grandmother!**  
What a pleasant influence in the home is a delightful old lady in good health!  
Mrs. MOLLIE BARRETT, St. James, Mo., writes: "I took Lydia P. Pinkham's Vegetable Compound during change of life, and have passed through that critical period safely. I suffered for years with falling of the womb and female weakness. At times could hardly stand on my feet, also had leucorrhoea. I tried several good doctors, but instead of getting better, grew worse all the time. A friend advised me to try Mrs. Pinkham's Compound. I did so and after taking six bottles, was cured of both leucorrhoea and falling of womb. I am now enjoying good health and feel very grateful for the good your medicine has done me. I would recommend it to all women suffering as I was."

**HEALTHFUL OLD AGE**

Mrs. N. E. LACEY, Pearl, La., writes: "I have had leucorrhoea for about twenty years, falling of womb by spells for ten years, and my bladder was affected, had backache a great deal. I tried a number of doctors. They would relieve me for a little while, then I would be worse than ever. I
