N. P. BANK SOLD.
C. N. Parker Sells His Interests to Dr. Hemstead and J. P. McClinton.

A most important business change occurred on Monday afternoon. On that day Mr. C. N. Parker, who organized and for several years as president has controlled this popular banking institution, sold his interests to Dr. W. W. Hemstead and J. P. McClinton. The sale included 228 shares of \$50 each owned by Mr. Parker and 15 shares owned by P. S. Wray, formerly of this city, and 15 shares belonging to F. S. Parker. This gives these two gentlemen a holding of 348 shares out of a total of 400. The stock was sold at par. As this leaves Mr. Parker without any interest in the bank, he will, of course, at once retire from the presidency of the institution. At the annual meeting held in January no directors or officers were elected as the change was then contemplated, so an adjourned meeting of the stock holders will be held Tuesday, April 24th, when new officers will be elected. Dr. Hemstead will probably be elected president and Mr. McClinton vice president. The present force of employees will undoubtedly be retained.

Messrs. Hemstead and McClinton are two of Brainerd's most substantial and enterprising citizens, and their connection with the institution cannot help but strengthen its credit and increase its favor with the business interests of this community and the northern part of the state.

Mr. Parker's object in disposing of his banking interest is to retire from active business as much as possible. He desires to feel free to come and go as he pleases, and to spend his winters in a warmer climate if he desires, which he could not do if he was actively interested in the bank. He expects, however, to make his home here in the future as in the past, and will always lend his aid and experience in forwarding any movement for the benefit of the city.

New Drug Store.
Henry Spalding has leased the store building at the corner of 6th and Front streets, now occupied by Beach & Son's grocery, and will put in a stock of drugs as soon as the room is vacated and suitably renovated and repaired. This is unquestionably one of the best points in the city for a drug store and Mr. Spalding is to be congratulated on securing so excellent a location. Mr. Spalding is not a druggist himself, but he has secured the services of Mr. E. M. Irish, for many years the popular and efficient prescription clerk for K. Swartz. Mr. Spalding never does anything by halves, hence will make the new store one of the best equipped and most complete drug stores in the state. He will give the business his personal attention, and will no doubt do a large share of the drug business of the city, as he is thoroughly acquainted not only in the city but throughout the county, and his friends are numbered by his acquaintances.

Important Business Changes.
Several very important business changes have occurred during the past week. On Saturday, M. E. Swartz sold his drug business to H. P. Dunn & Co. Mr. Dunn will have personal charge of the store. Mr. Swartz carried an enormous stock and did a fine business, and the new firm will no doubt be equally favored. The consideration was \$12,000 in cash. Mr. Swartz will devote his time in the future to his extensive real estate interests, and the driving park.

On the same day Johnson's Pharmacy was sold to C. D. Johnson, who is now in possession. The business will be conducted under the same name. Both stores, as well as the McFadden Drug Co's store, are among the finest drug stores in the state, and all have been doing a splendid business, which is constantly increasing.

BICYCLE ASSOCIATION MEETING.
New Officers Elected and Other Business Transacted.

A meeting of the Brainerd Cycle Path Association was held at the Y. M. C. A. rooms on Wednesday evening at 8 p. m., a large number of wheelmen attending. President H. W. Linneman called the meeting to order. The treasurer submitted a report for the past year. An auditing committee, composed of one member from each ward, was appointed, to report at the next meeting, as follows: 1st ward, Louis Homan; 2nd ward, C. A. Albright; 3rd ward, Henry White; 4th ward, John Mahler; 5th ward, Fred Greenbaum.

The following officers were elected: President—A. L. Ferris. Vice President—A. L. Mattes. Secretary—Henry White. Treasurer—Geo. Brown.

The following committee on construction and by-laws was elected: A. L. Hoffman, W. B. McClennahan, C. A. Albright, P. J. Murphy, G. D. LaBar, the committee to report at the next meeting.

Three wheelmen from each ward were appointed as follows, to work in conjunction with the officers of the association, as a working board, to have control of the paths:

First ward—Roy Guthrie, L. Homan and A. E. Bennett.
Second ward—C. H. Paine, C. A. Albright and H. I. Cohen.
Third ward—Knut Nelson, W. H. Sadler and W. L. Benjamin.
Fourth ward—J. Towars, Jr., Sol Johnson and Chas. Fenton.
Fifth ward—Thomas Grant, Chas. Gerno and John Goodders.

A motion was made and carried that all monies derived from the sale of tags be used to build and improve paths in the city, and that the working committee devise ways and means to improve the Gull Lake and other country paths.

A motion was carried that it was the sense of the meeting that the law with reference to riding on the sidewalks be strictly enforced, and that the mayor be informed of the action of the meeting.

On motion the meeting adjourned for two weeks.

Naval Cadet Examination.
The competitive examination of candidates for appointments to the naval academy by Congressman Page Morris was held at the court house in this city last Saturday morning, twelve young men from the various parts of the district taking the examination. The examining board was composed of Judge D. B. Seares, of St. Cloud, Prof. Dunson, of Duluth, and Prof. Hanft, of this city. Prof. Hartley had been appointed on the board, but was unable to be in the city, and Prof. Hanft took his place. The following young men were present and took the examination: Salisbury Adams, Duluth, age 18; Fred Gallup O'Brien, Duluth, age 16; Walter Bannister Congdon, Duluth, age 18; Bruce Bonthron Ellis, Duluth, age 17; Thos. Canfield Gash, Wadena, age 17; Bryan Sewall Howard, Duluth, age 18; George Geoffrey Joerns, Duluth, age 17; Adolph Blaine Johnson, Brainerd, age 18; Leslie James McNair, Bemidji, age 19; Arthur Charles Murray, Wadena, age 17; Edgar Kay Parks, Brainerd, age 16; Chas. Edwin Taylor, Waldeck, Itkin county, age 18.

The result of the examination has not yet been determined, but a meeting of the board will be held in Minneapolis today, and the result ascertained. The board, however, decided not to announce the result, but will forward their decision to Congressman Morris, who will make it public and notify the winner.

Annual Meeting.
The annual meeting of the Evergreen Cemetery Association will be held at the office of L. P. White, Br., Tuesday, May 1st, at 8 p. m. As there is business of importance to be transacted, all interested in the association should not fail to attend.

BURNED TO DEATH.
Horrible Fate of a Young Lady Near Gull River.

Caroline Hanson, a young lady 17 years of age, and daughter of Ole Hanson, who lives on Sec. 8, town 185, range 20, near Gull River, met with a horrible death yesterday morning. Her father and brothers were out in the fields working, and she was left alone at the house. She was clearing up the yard and set fire to some rubbish which spread rapidly and soon threatened a stack of hay close by. She began to fight the flames when her dress caught fire, and being alone she was unable to extinguish them. Her clothes were entirely burned from her body except her shoes, and she fell to the ground unable to arise. W. W. Jones in riding past saw the smoke and went to assist in putting out the fire. He found her lying on the ground where she had fallen. He picked her up and carried her into the house and summoned her father and brothers, who came to town and procured the assistance of Dr. Thabes but she died in three hours after the accident in the greatest agony before the doctor arrived.

The funeral will occur at Gull River today.

Attempt to Escape.
An attempt has been made during the past week by the prisoners in the county jail to escape by sawing off the bars in the northwest window of the jail. The sheriff in examining the jail, made the discovery, and the window will be repaired today, and a search made for the saw and coal chisel which they apparently have to do the work with. An attempt was made about one-half off, and if not interrupted it would not take more than three or four hours to complete the job. The work has to be done in the day time when no one is around, as the prisoners are confined to their cells at night. There are at present six prisoners in the jail, two safe blowers from Bemidji, two from Cass Lake, one from Wadena and one from Mankato. The work was undoubtedly done by the Bemidji man, as they are professional safe blowers, and understand the work.

The commissioners should put screens on the windows. Several grand juries have recommended it, and it should be done. As the windows are at present it is impossible to prevent tools from being passed in by friends outside.

W. E. Patterson, of Stillwater, was in the city on Wednesday. Mr. Patterson was a clerk at the City Hotel some time ago.

American Captain Writes of an Attack by Filipino Insurgents.

BUMBOLO'S MEN IN A HOT BATTLE.

Though Greatly Outnumbered, He
Saw His Little Band Fought Bravely
by Was His Favorite Trade Was
Assaulted—Corporal and Five Pri-
vates Fall—Unlucky's Thrilling
Escape.

Corporal Frank M. Bumbold, former
commander of Battery A, but now in
charge of a company in the Thirty-
second United States Infantry in the
Philippines, has sent to his father, Dr.
Thomas F. Bumbold of St. Louis, a
copy of the report made by him of an
engagement with the insurgents, in
which his company lost six men, says
the St. Louis Republic. The fight oc-
curred on Feb. 6, when Captain Bumbold
was stationed at Ormal, province of
Luzon. His report says: "My pro-
vision train, under escort of Sergeant
Wallace and ten men, was attacked
about 2 1/2 miles south of this place,
near Harioo Coda, by about 50 insur-
gents.

"A bridge located at the point of at-
tack had been evidently purposely
damaged so that the freight broke
through. Privates Umberger and Lane
were at the time about 100 yards in ad-
vance of the leading car. They had
been called to halt by Corporal Mur-
phy and about four men dismounted
and started to raise the car when
about 50 insurgents arose from be-
hind a hedge on a high rise and fired
at us as we were retreating. Several
of the men who had not dismounted
were shot off their horses. The remaining
men, who were considerably scattered,
returned the volley. Private Lane
was shot through the side after the
third or fourth shot, but kept on sit-
ting. Private Umberger, who was with
stand until he could see no one
alive and until more than 15 insur-
gents had advanced to within 20 feet
of him. He then ran east, pursued,
and finally hid, reporting to his com-
pany as we were returning from the
point after securing the provisions.

"Privates Moore and Klinton, who
were rear guard, were about 100 yards
to the rear. When the sudden volley
came and they saw the men fall, they
fled. After the second shot Private
Klinton's extractor failed to work in
spite of his efforts. Looking up, he
could see but one man alive, and he
started for Ormal. Private Moore, at-
tacked from the rear, was shot and
he had fired several times, could see
no one alive in front, and being fired
upon from the left and the rear, he
also started for Ormal, leading his
horse. Private Bumbold fired four or
five times and then retreated, leaving
his horse and being shot in the leg.
Private Umberger had not longer seen
any one alive in front of him. He hid
his horse until he had passed the hill,
still under fire, and later overtook
Klinton, taking the latter up behind
him on his horse. Sergeant Wallace
at the time the firing commenced was
between the advance guard and the
government car. He turned my horse,
which was riding, and started to
ride the train as he rode. My horse
and I were shot at several times, but
the horse sank dead under him. He
then started second, and seeing no one
alive (Private Umberger had got into
a ditch from which he was firing), he
started in a circle east of the road for
Ormal. Seeing a rideless horse, he
collected it and mounted. He soon after
overtook the other three men.

The report goes on to tell of the
capture of the bodies of the
men who had fallen. The train had
been plundered and the bodies of the
fallen men robbed and mangled.
Nearly all the bodies showed bullet or
shrapnel wounds which had been in-
flicted after death had come. The vic-
tims were Corporal Murphy and Pri-
vates Brown, Lane, Wash, Martin and
Presley.

Private Umberger had a most thrill-
ing escape from the insurgents. He had
run across the fields, pursued by the
Filipinos, who fired more than 100
shots at him without effect. He finally
secreted himself in a thicket close
to the river bank, where the natives
brought boats to carry their plunder
away. He heard them several times
mention the name of Captain Bumbold's
private servant, Isaacson, who had
suddenly disappeared several days
earlier. An examination of the scene
of the attack disclosed the fact that
the insurgents had waited several days
at least for the opportunity to shoot
at the Americans.

Mohammedan Revival in Africa.
There are fresh accounts of the great
revival of Mohammedanism in central
Africa, says the Manchester Guardian.
A Turkish Journal announces with
pride that both the sultan of Wadai
and the sultan Bahah of Bornu have
acknowledged Abdu Hamid as their
suzerain and have raised the Ottoman
flag in their territories. Some weeks
ago it was said that the Sultan Bahah
had been defeated by the French in
the country in the south Lake Chad
area and had been put to flight. There is as
yet no confirmation of this news, and
it is very difficult to discover what is
really taking place in the heart of
Africa. But the capture of the Ottoman
flag has been reported from other
quarters and there are widespread re-
ports of the activity of the Sultan
Senoussi and his "holy war" against
the infidel. Secret embassies are said
to have been sent out to Tripoli and
even to Constantinople to arrange a
plan of campaign with the sultan's
ports.

Doctors Think Stetits Is Sane Enough
to Be Released to His Wife's Care.
William Stetits, once chess cham-
pion of the world, was discharged
today from Dr. J. J. Kindred's
River Crest sanitarium, near Astoria,
N. Y., where he had been undergoing
treatment for several weeks, says the
New York Sun. From the standpoint
of a specialist, the former champion
still is insane, but Dr. Kindred said
there was nothing alarming in his
symptoms. The question of an abso-
lute cure could only be solved by time
and proper treatment. His case had
been diagnosed as one of paranoia,
which in February last Mr. Stetits was
committed to the state insane asylum
on Ward's island, and later, through
the intervention of friends, he was
transferred to the River Crest sanita-
rium, where he was comfortably quar-
tered in a cottage across. After his
transfer to that institution he practi-
cally had the freedom of the grounds.
He maintained that he was perfectly
rational.

The physicians admit that to the or-
dinary observer Stetits will appear
sane. Under expert scrutiny, however,
he develops certain peculiarities that
indicate the particular form of insanity
from which he is suffering. He is given
to morbid suspicions, at other times
a fear of suffocation. His case had
been diagnosed as one of paranoia,

FOR MINE OF TARS.

Milwaukee Machinery to Be Used to
Develop the Development.
Milwaukee will furnish the machinery
for a mine that is spoken of in the
title and was owned by Hamilton the
Great.

This is the mine of Tars, and it was
there that the Romans sent Christian
Jays to work in the pits, which were
narrow, gravelly pits, then, now
rich in copper. It was there that
Hamilton arranged as the ruler of the
Carthaginians.

The property is said to be owned by
a rich corporation, which recently ac-
quired title to it, and it is the intention
to operate it under modern plans, and
the Chicago Inter Ocean. The B. P.
Allis company has signed contracts
with the Equator who are at the
head of the Lake Titico company for a
plant of machinery that will require
the expenditure of a large sum of
money.

A Milwaukee manufacturer said re-
cently that at the present time there
is not a civilized country in the world
that is not using Milwaukee machin-
ery, either in mining or agriculture; at
least two of the largest firms in the
city doing an almost exclusively for-
eign business, much of it in South
American states, Japan, China, Russia
and Africa. Milwaukee is no longer
foreign to the world.

TO LIVE AS CHRIST WOULD.

Twenty-two members of the Wash-
ington Avenue Church of Christ at Ken-
nosha, Wis., have declared their intention of
conducting their daily affairs as Jesus
would do.
The declaration was made the other
night after the regular church ser-
vice, but it had been in contemplation
for several weeks, says the Cleveland
Plain Dealer. The pastor, Rev. H. C.
Caywood, was not informed of the
plan until a few days ago, so he pre-
pared to hold special services along
those lines.
The subject for the evening was
"The Shalton Ideal" and Rev. Mr.
Caywood made an address on "His
Steps." A Shalton pledge had been
prepared, and after the services 22
members of the church signed it. The

NOTICE OF Forfeited Real Estate Tax Judgment Sale

Seventh 7/11th day of May, 1900.

Forfeited in a Real Estate Tax Judgment of the District Court in the County of Crow Wing, State of Minnesota, entered the 1st day of March A. D. 1899, in compliance with the following payment of Taxes and Interest upon Real Estate as provided for in Chapter 205, General Laws 1898, in the County of Crow Wing, State of Minnesota, which appears to have become delinquent on the 1st Monday of January, 1899, or any prior year, and has not been satisfied by payment, redemption, or sale of the real estate so taxed, purchaser, and of the Statute in such case made and provided, I hereby, immediately after the Tax Judgment has been rendered, and in compliance with the 1st Monday of January, 1900, which begins on the 1st Monday, being the

FROM OUR COUNTY CORRESPONDENTS.

EAGLE LAKE SETTLEMENT.

Mr. Frank English is again in our midst.

Harriet Andrews has gone to Brainerd on a business trip.

A certain young lady did not look very happy in church last Sunday. Wonder why?

Miss Bertha Lambert, of Emily, was a caller in our settlement one day last week.

The first rain of the season visited us Saturday and Sunday. Rather a cold rain but well all the same.

Mr. Cook will have to put a ball on some of his workmen, if he does not want to lose them in the woods.

Mr. John Steen placed an order with Andrews & Lambert for a large order of summer supplies, one day last week.

Burt Lehnness, the genial deputy government scaler, bid us adieu on Saturday, having finished his winter's work.

John Kennedy has gone to logging again. He says on short hauls there is money in gophering logs on the bare ground.

Messrs. Dean, Zverre and Kennedy have gone to the city to make their final settlement on their joint logging interests.

The balmy summer breeze that have been blowing the granger's whiskers of this vicinity got pretty badly frosted the 8th inst.

A. E. Andrews has made quite an improvement at his place by cutting all brush and trimming up the trees between his house and the road.

Miss Wal Andrews has a bad attack of winter cholera. It seems a difficult disease to check this spring and is quite prevalent in the neighborhood.

Mr. Chas. Andrews has taken a household in sec. 23, 33, 38. This last entry makes almost continuous settlement between Eagle Lake and Lake Emily.

M. D. Butterfield has rented A. Nield's farm for the season of 1900. He evidently thinks there is more in raising potatoes and other vegetables than there is in raising wild scalps.

Mrs. May Blake has taken over herself a farm of 100 acres over in section 28, 127, 38. Now boys brace up, and turn out and give the lady a day or two's work, and get her house and barn up.

Geo. Starwalt, of Emily, has a nice double house up ready for occupancy. Glad to see the new settlers come, and they are of the right sort too, as they all seem to have plenty of push and energy.

It would be a good idea if this community would get together and practice singing a lot more than they do. There seems to be some good voices here, but we require practice in a body to make music.

I see one of my neighbors is wearing a game warden badge beneath his coat. Hope he will have better success in corralling law breakers than those gentlemen did that wore up this way a few days ago.

Mr. Burt Coriis has homesteaded in our vicinity, and has the walls of a good clock house up ready for the roof. He has selected one of the prettiest locations for his house that could be found in the whole neighborhood.

Everybody is casting fish herabouts these days. All we have to do to get them to bite is to take a club and walk into the shoal water and knock over what you need for a dinner, such as black suckers and picklers.

The evangelist, Rev. Mr. Chord, had the honor of holding the first church service in our new school house on Sunday, April 8th. His sermon was short, but very appropriate, also very appropriate to the neighborhood.

It is currently reported that M. D. Butterfield has purchased a cow and intends to get a maiden to milk and do the other necessary work pertaining to the dairy. Probably he has come to the conclusion that it is not good to be alone.

It is not safe for a bald-headed man to be seen up the way, just at present, as there is a two hundred dollar reward out for a noted deer slayer that is adorned with the crown of redskins, hence the arrangement.

KATRINE GLEANDUS.

Jess Peterson lost a stack of hay by fire last week.

A. J. Ersh, Sr., has rented his farm for the season.

E. Elmore is going to Deerwood to assist his brother in building a house.

There will be a surprise party at the house of Mrs. Sarah Marok on Wednesday evening.

E. C. Finckler has been re-engaged by Mr. J. Marston to cook for his wagon as it goes down the river.

There was a delightful party at D. Archibald's last Saturday, for the benefit of the young folks. The house was full to overflowing and all enjoyed themselves hugely.

G. A. Hunt, while riding by Loon Lake, says he discovered a den of red foxes. He is sure of it because he saw the young there. They say that after awhile people will see snakes and other queer things. Be careful Mr. H.

OAK LAKE NEWS.

D. W. Wayt bought a \$75 horse Monday.

Mrs. Martha Forter is on the sick list this week.

John Jackson sold a \$24 beef cutter in Brainerd last week.

Fine weather for seeding and farmers are getting in their grain at a lively rate.

Somebody seems bent on burning up all the young timber in the country by setting marsh and brush fires.

One of our young men went to Garrison Sunday to see his best girl and at this writing has not returned.

The town board was in session Tuesday and appointed P. A. Stenlund town clerk in place of Stanford Cameron, resigned.

Nearly all of our wild goose farmers have flown, and their places are rapidly filling up with an energetic, thoroughgoing class of people.

Mrs. Alice Cameron will start this week with her family for Montana, where she expects to reside in the future. We understand that Judge Holland has recently come in possession of her farm.

We thought for some time Tuesday that a volcano had broken out in our town, but on investigation found that it was smoke coming out of Mr. Aspholm's large charcoal pit, which he had recently fired.

A large number of people spent a very pleasant evening recently at Joseph Friedman's dancing to the music of John Bruus. When John's music box starts up everybody young and old dances.

Geost says they have a new school teacher up that way from Minnesota. What is the matter with the Crow Wing county teachers? Surely we have no less than good looking ones here as can be found any where in the state.

ERBOR ETCHINGS.

Mrs. Mahlum has returned from Iowa.

Old Mrs. Thompson is on the sick list.

Wm. Petral has sold his team of Bronchos.

We hear that Mrs. Petral has sent the sheep to Mr. Mahlum.

has such a record for absolutely curing female bladder troubles as Lydie E. Pinkham's Vegetable Compound. Mothers that are advertised to cure every-thing cannot be expected for anything.

Lydie E. Pinkham's Vegetable Compound will not cure every case of bladder troubles in women and children, but it will cure every case of bladder troubles in women.

This is a fact indisputable and can be verified by more than a million women.

If you are sick don't experiment, take the medicine that has the record of the largest number of cures.

PAINS and ACHES

THE IRRECONCILABLES.

Send Democrat Paul Watkins in Present Campaign. (Wash. Comment.)

The political position of the Gold Democrats is indicated by the action of a group of these Democrats who met in the world's political at a recent meeting in Washington. They were organized as a party as early as last year, they say they do, for in their political or practical they express their abhorrence of all the leading features of the Bryanite crusade of four years ago, including the assaults made by the Chicago platform of 1896 on individual freedom, the right of private contract, the independence and integrity of the federal judiciary, the authority of the president to enforce the laws and to assume the responsibility of the radically wrong and fundamental demand for the free, unaided and independent passage of silver and gold by the United States at the rate of 16 to 1, and his reputation, at the instigation of Republican and Populist allies, of the Democratic doctrine of tariff for revenue.

There can be no compromise with those who propose to subject Mr. Bryan to any other candidate on the Chicago platform.

It is not to be supposed that these Gold Democrats are indifferent to the cause of the 'little one'.

They had everything to condemn and nothing to approve in the acts of an administration responsible for the most stupendous achievements in progress and progress that the world has ever known.

This is the way they look at it.

Their attitude is in fact a direct result of the fact that the Gold Democrats are not indifferent to the cause of the 'little one'.

They had everything to condemn and nothing to approve in the acts of an administration responsible for the most stupendous achievements in progress and progress that the world has ever known.

This is the way they look at it.

One—One would think that the superior creature who goes together at Indianapolis could find it in their hearts to say something decent about an Indian, and an administration which has just placed upon the federal statute books a law permanently establishing the gold standard in the United States.

Account of which these same Gold Democrats were wild with anxiety in the dark days of 1896.

Commence gratitude for a great service rendered in branding off the masses of cheap dollars would seem to call for some manifestation of appreciation and approval on the part of those who have awake eight days ago because of this identical measure, and who have been shouting more or less about it ever since.

But, there is nothing good in Republican politics good in Bryanism; and there you are. It looks as though the country would have to depend for absolute safety and certain salvation upon a political remnant that will not vote itself out of one percent of the total vote next November.

Labels on Cans.

This is to be a great railroad building year in the United States last year than in any year since 1893, there is every indication that the present year will witness even greater activity. In the aggregate there are nearly 50,000 miles of projected road, grouped by sections as follows:

New England States, 14,000 miles; Middle States, 12,000 miles; Atlantic States, 9,750 miles; Gulf and Mississippi Valley States, 6,750 miles; Central Western States, 12,000 miles; North Western States, 4,100 miles; South Western States, 11,500 miles; Pacific States, 6,875 miles; Total, 55,841 miles.

In 1899 4,588 miles of track were laid in the United States on 846 lines, and in Canada, 196 on twenty-one lines, and in Mexico, 264 on two lines.

Their gradual building and equipment of nearly 60,000 miles of new railroad line in a single year will involve an outlay of capital amounting to about two billions of dollars. All of this great sum will go to swell the aggregate of money paid out for labor and the products of labor. Add to this the increased demand for labor involved in the operation of 60,000 miles of new railroad, and the sum total of increased employment and increased wage payments amounts still further up into the billions. It is the golden era of well-paid labor.

Starting of the Wage.
Bryan says that the United States is at the parting of the ways. That was true in 1896. In November of that year the nation chose its road and is not in the least disposed to regret the decision.—Pontiac (Ill.) Sentinel.

How to Prosper.
Bryan had nothing to say about fifty and what led the connection between the price of wheat and the price of silver. Prosperity has knocked out a large part of the stock in trade. Jersey City (N. J.) Journal.

Johnnie's Responsibility.

Johnnie's father was leaving home on business. Just before starting he said to the child:

"Johnnie, while I'm away I want you to take good care of mother. I love her in your charge."

That night when Johnnie knelt at his mother's knee, saying his evening prayer, he said:

"Please, Lord, bless grandma and take care of her. Don't let her and take care of her. But you couldn't trouble about mother, because I'm going to take care of her."
