## GRAND POLITICAL DEMONSTRATION.

Congressman Page Morris Given An Enthusiastic Reception In Brainerd.

First And Splendid Appearance Of The McKinley and Roosevelt Rough Rider Club.

A Magnificent Audience Listens To The Masterly Arguments Of The Speaker.

The magnificent demonstration last night in honor of Congressman Page Morris indicates very clearly that General Apathy is not in command of the republican forces in Brainerd and vicinity. On the other hand it clearly shows that the people here are alive to the dangers of Bryanism that threatens the country, and will turn out en masse on election day and administer such a defeat to the foe of good government as will once for all bury it in oblivion.

Mr. Morris certainly should have been pleased at his reception for it was a magnificent one.

It was the first appearance of the McKinley and Roosevelt Rough Rider Club, and they presented a splendid appearance as led by Dr. McKelley's City band they escorted the distinguished speaker from the hotel to Gardner Hall, where an audience filling every nook and corner of the great hall was assembled. Every seat was filled and in the early evening one could hardly force his way in, and many stood during the entire speech, which occupied two hours in delivery.

The stage was occupied by a group of prominent republicans, Chairman Frazer, of the county committee, presiding. He introduced the speaker in a few well chosen words.

Mr. Morris at once proceeded to attack the enemy bip and thigh. He began on the financial question and reviewed the promises and prophecies made by Mr. Bryan and his friends to one supporters, and how every one had been false, and then he showed how every promise made by the republicans had been fulfilled, and the unprecedented prosperity resulting therefrom. The trust question was next discussed. He distinguished between good and bad trusts, and made clear to the audience the fact that democratic opposition to trust was all talk. That all legislation against them was of republican origin, and the whole question would have been settled by the republican congress by the constitutional amendment which was lost by democratic opposition. The question of imperialism was next considered, and the speaker rightly thought that a party that could not manage home affairs was not to be trusted with the management of the affairs of other. Other issues were presented with a clearness and force that carried conviction.

The speaker was quite hoarse, but he presented his arguments in a forcible manner that carried conviction. He was frequently interrupted by enthusiastic applause, and was given an ovation when he finished. His speech will certainly be of great benefit here.

## SUDDEN WEALTH

Acquired by Attorney P. J. Murphy, Of This City, It Reliably Informed.

Attorney P. J. Murphy, of this city, is nothing if not lucky. From a comparatively poor man, making his living by the practice of his profession, in one short day he transformed into a person of comparative wealth, by one of those inexplicable visitations of luck to which some mortals are born. At least this is the case, if the information he has just received is true.

Last week Mr. Murphy received a letter from an old acquaintance, Sam Gebo, who is at Roslyn, Washington, asking him if he still held certificate No. 57228 for 3000 shares in the Anno Dale gold mine, which he, Gebo, had sold him in 1891, and informing him if he did so he was a rich man, as the stock had risen to \$15 a share, which would make Mr. Murphy's certificate worth \$30,000.

Mr. Murphy at first thought it was a "hoax," but finally recalled that in 1891, nine years ago, Gebo had sold him and his brother-in-law, A. A. Bradbury, at Frazer City, where they both lived, the certificate above referred to at two cents a share, or \$40, and had thrown off his Gebo's commission, which made the certificate cost Mr. Murphy \$28. But where the certificate was Mr. Murphy could not remember, although he knew he considered it worthless and had not sold it. At last it occurred to him it might be among some papers that he had packed away at his brother's home in Fernham, and he wrote to his brother for it, and was delighted to receive it by mail on Monday. He also wrote to his sister, Mrs. Bradbury, who now lives at Roslyn for confirmation of the report, and also received a letter from her, saying the news conveyed by Gebo was true. That her husband, who is now county auditor at Roslyn, still held his certificate, and that he had been offered \$25,000 for it. That a new vein of wonderfully rich ore had been discovered, and the certificates would probably be many times more valuable.

Mr. Murphy, of course, is highly delighted at his wonderful luck, but says he will be satisfied with the money first mentioned and will realize as soon as possible. The many friends of Mr. Murphy are pleased at his good fortune.

The 16th Annual Entertainment and Ball of the N. P. Library Association will be held at Gardner Hall on Friday evening, Oct. 20th. ## JOINT PROPOSAL

Prince Ching and Li Hung Chang Submit a Plan for Concluding Peace.

Said It Will Require Considerable Alteration Before Proving Acceptable.

Washington Officials Receive a Message From Conger but Keep It Secret.

LONDON, Oct. 18.—A representative of the Associated Press hears that Prince Ching and Li Hung Chang have finally succeeded in drawing up a joint proposition for a settlement. This has been received by the powers. Beyond the fact that it is likely to require considerable alteration before proving acceptable is a certain basis for negotiation regarding the actual terms. The Chinese minister here, Sir Chi-Chen-Loh-Hung-Jeh, professes ignorance of such proposal but it can be definitely said that it is now engaging the attention of the British foreign office.

**SUBMITTED BY CONGER.**

WASHINGTON, Oct. 18.—Minister Conger has been heard from at the state department for the first time in several days. He communicated by cable the substance of certain propositions advanced by Prince Ching and Li Hung Chang as a basis for the conduct of negotiations for a settlement of Chinese affairs. The Chinese government already had prepared the way for this by a preliminary action holding up the punishment of Chinese officials guilty of complicity in the Boxer uprising and, while the text of Mr. Conger's message is not made public, it is believed that the late Chinese ambassador to some of the propositions contained in the French note, being in the nature of counter-propositions and proceeding upon the theory that what has been done in the matter of punishment is sufficient to meet the demands of the powers.

In that respect, Minister Wu called at the state department by appointment and had a long conference with Secretary Hay. The secretary previously had spent an hour with the president at the White House, presumably in consideration of Mr. Conger's communication, and it is believed that Minister Wu was called to the department to throw light upon some of the detailed propositions.

There is reason to believe that the government will take favorable action on the latest proposition of the French government. This contention is based upon the opening of peace negotiations on those points which the powers are agreed upon, leaving to the ministers at Peking the details of working out a further agreement on those points which the powers made reservations upon. The issue of reparations being in the French note delivered on Oct. 4, together with the repeal of the other powers. About

The most serious obstacle which stands in the way of immediate peace negotiations is the absence of the imperial family from Peking and the possibility that this creates a full approval given to the work of the Chinese plenipotentiaries. While the latter claim to have full credentials, yet the powers have looked upon the presence of the emperor at Peking as an almost indispensable requisite toward giving them the necessary complete efficacy. In this connection the presence of the emperor might have a significance considerably beyond anything thus far brought out in the way of really re-establishing his imperial authority and freeing it from the intrigues and autocratic influences which have for the past two years practically nullified his rule.

**TO BEGIN AT ONCE.**

French Government Opposed to Delay in Starting Peace Negotiations.

WASHINGTON, Oct. 18.—The French charge d'affaires, M. Thellier, called at the state department and had a conference with Secretary Hay. It is understood that he presented a memorandum proposing that the peace negotiations be begun immediately in accordance with the favorable action of the powers on the recent note of the French government. M. Thellier also made known the satisfactory character of the answers received from the several governments and pointed out the desirability of having definite talks at once to carry out the several points on which the powers have been brought to agreement.

Great Rejoicing Throughout the Anthracite Region Over the Settlement.

## REJOICING AT PITTSVILLE.

News of the Settlement at Wilkeson as well as the Lehigh Valley Coal company was according to the demands of the Mine Workers' convention. Although Mr. Mitchell has in no way indicated what he will do it is almost certain that a number of the coal companies have posted notices according to the demands of the men the strike will be officially declared off at those collieries. A meeting of mine workers will be held here soon to arrange for a demonstration next week, probably on Monday, in celebration of the strike's victory.

The demt paper are on the run.  
MCKINLEY's electoral vote will be greater than in 1896.

The miner's strike has been settled. Another democratic argument gone.

The possessors of the full dinner pail have as much contempt for Mr. Bryan, as he has for the full dinner pail.

REMEMBER, that in 1892 you voted for a change, and had no change in your pockets afterwards, save as an exchange.

COL. HALSTED can congratulate himself on the handsome endorsement he received on Friday evening last in his candidacy for mayor.

REPUBLICAN success means good government, not only a national affair, but in state, county and city as well. Remember this fact when casting your ballot on Nov. 6th.

DESPAIRING of success the followers of Bryan are now taking their revenge by lawlessly assaulting republican speakers. Such methods only add to the republican majorities.

The official county, state and presidential ballots have been studied elsewhere in this house. Study them well in order to quickly and intelligently mark your ballot on election day.

MR. BRYAN's determination not to be a candidate for a second term is by no means unreasonable. However, it will not prevent him from running for a first term again in 1904.

PAUL MORRIS has made the best representative in congress the Sixth district ever had, and his record will bear out the statement. The people are not ready to change for an unknown quantity.

BRYAN county city tickets have never been placed in nomination than the ones the republicans this year ask the people of Crow Wing county and city of Brainerd to support. That's the reason both will be elected.

That Truism is a clown and a "jerk" is not the only reason should be defeated. His refusal to repay the money he owes the police relief fund, borrowed while mayor in a questionable way, is a more potent reason.

The public debt shows a decrease of \$6,122,438 during the last month—another evidence that this is not a Democratic administration.

The Owatonna Journal has commenced the publication of a daily edition. The Journal as a weekly, was one of the best papers in the state under the able editorship of J. Frank Dean, and the daily bids fair to attain the same rank.

The Anderson tax case was re-argued before the supreme court on Tuesday. The court is said to have been evenly divided on the question before, not including Justice Brown, who did not hear the case when first argued. The decision now depends on his views.

If a man can be elected congressman in this district with the loose, not to say positive, dishonest, fairness methods of Henry Truismen, we are greatly mistaken in the people living in the district. A man who is dishonest in his private life will be more so in public life.

If the republicans of Minnesota register and vote McKinley will carry the state by a huge majority, and Van Sant will be elected governor. The first duty of every republican is to register and to call the attention of all other republicans to the propriety of so doing. Register and then vote, and republican success will follow all along the line.

The Globe claims Lind will carry the state and bases its claim on reports from the chairman of democratic county committees. The report from Chairman Cullen says Lind will carry this county, when it is conceded all around that Van Sant will have a larger majority than Eastis who had over 100. The republicans confidently expect to give Van Sant 400 majority, while two years ago they did not expect Eastis to carry the county. If the reports from other counties are equally reliable, Lind is a badly beaten candidate.

The people of this district will see that the republican legislative ticket is elected this year. The candidates are both gentlemen who understand the needs of their constituents and they will be in a position to shape legislation favorable to the counties they represent, a fact which should be kept in mind by the voters. No gentleman in Minnesota holds a wider or more favorable state acquaintance than Mr. Ferris, and his record during the several terms he has served the people in the same capacity will bear the closest investigation. His colleague, Joel Smith, has been identified with the growth and advancement of Crow Wing county and northern Minnesota for many years, and will make a valuable member of the lower house of the state legislature.

We do not copy this editorial rating of Theodore Roosevelt. He is a good deal of a man and a year or two ago nearly everybody in this nation was applauding him to the skies as his conduct deserved. Although he is the unwilling candidate for vice president on the wrong ticket, he is still the same man who cleared out the New York police department, who put new life into the navy, who went as an ordinary lieutenant colonel into the thick of the fight with Spain, and who piloted the administration particularly in Alger, by his courageous letter in regard to the needs of the army after the fight was done. While he is rightfully in error in regards to the average loyalty of democrats, there is no question about his own loyalty. —Wholesale Weekly Dem.

The Legislative Ticket.  
The Little Falls Transcript says: The republican candidates for the legislature are this year Hon. A. F. Ferris and Joel Smith, both of Crow Wing county. Ferris is well known throughout both counties, as he has served three terms, and has now a position in the legislature second to none in standing and influence. His record is excellent and it is for the best interests of the district to re-elect him.

Joel Smith is one of the old settlers of Crow Wing county, and has long been prominent in business and politics in that community. He is well qualified for serving his district in the legislature, and will prove a valuable member.

As the district is republican by several hundred majority, and the party is united and harmonious, there is practically no question of the result. The party has made strong nominations, and the candidates are energetic campaigners. The candidates are firm friends of the district in the legislature, and the district certainly wants men in the house that will stay by the republican candidate for United States senator.

### QUITS THE CALAMITY HOWLERS.

Fred Keyes, the eminent Minneapolis Architect, and Well Known Here, Gets on the G. O. P. Band Wagon.

Among the hundreds of notable conversions that are occurring daily among the Democrats to the sound principles of the G. O. P., we publish the following concerning Fred Keyes, the noted Minneapolis architect, who is well known in this city: The Tribune is pleased to record this morning's statement from two of the best known citizens of Minneapolis announcing their change from Democracy to Republicanism.

One of the men-in-question is James E. Egan, who was elected county surveyor in 1890 as a Democrat, and who was the party candidate for the same position two years ago. Mr. Egan is a surveyor of well known standing in business circles, and is highly respected by all who know him.

The other conversion to be recorded is that of Fred Keyes, probably the best known architect in the Northwest, who designed the magnificent court house and city hall building, the white marble home of The Tribune, the Minneapolis public library, and many other substantial and graceful structures.

Both men openly declare that their turnover is complete. They say they intend voting the Republican ticket from top to bottom. Mr. Keyes, however, makes the statement that he has not become a Republican. He has simply quit the Democratic party until it returns to first principles. He finds that he is a free trader and in sympathy with the present Democratic party upon no other question before the country today.

"You can say that in my opinion the people of this country will establish impartialism when they want it, and that the country will not be made an empire until the people want an empire," said Mr. Keyes. "All talk along that line is mere nonsense. We have got the Philippine islands, and we have got to keep them. We can't let go, for fact, and I am not one in favor of quitting in any event."

"The great question is not a party issue, or should not be, and with those two features cut out I am willing to admit that so far as the financial question is concerned I want no change."

"Business in my line has been 100—yes, more than 100—per cent better than it was before President McKinley's election. I am satisfied with what we now have, and I want it continued as long as possible."

"In my judgment, President McKinley has conducted the affairs of this nation with the most consummate skill and judgment through the most critical period of its latter day existence, and I am desirous of seeing him re-elected. He has been safe, conservative and cautious and he has never gone into any proposition without first giving it the most careful consideration."

He concludes the talk with Spain in a most admirable manner, and what he has done with regard to the Philippines has been for the best interests of the country.

"We cannot afford to risk the election of a man like Bryan to the presidency. The business and judgment of the country lie against him, and his elevation would be disastrous to the people. For these reasons I shall this year, for the first time in my life, vote for a Republican president, and I shall follow that with a vote for the republican ticket straight down the line."

Compliments Morris.  
Congressman Morris is a representative of the people who commands the respect of public men in Washington. Senator Carter in his St. Cloud speech spoke of Judge Morris as follows:

"You have from this district in the lower house of congress one of the brightest, most intelligent, high-minded, spirited, high-toned gentlemen in public life today in the person of Page Morris. Lay all politics aside and consult the interests of your state and nation and keep that splendidly equipped man in his present place."

On Resolving Policy.  
There must be no selfish policy in the Philippines. We will fulfill in the Philippines the obligations imposed by the treaty of peace, by international law, by the nation's sense of honor, and by the rights of the people, and we will do so in the most judicious and equitable manner. The interests and conditions of the Philippine people themselves, to the entire satisfaction, blocks the way to peace and a stable government. The interests of the people are not elsewhere. They may point here, but they cannot justify the position to restore order in the islands and establish a just and prosperous government, in which the inhabitants shall have the largest participation, and where they are capable. The organized forces which have been misled into rebellion have been dispersed by our faithful soldiers and sailors, and the people of the islands delivered from anarchy and oppression, from the American severity as the symbol and pledge of peace, justice, religious freedom, education, the security of life and property, and the welfare and prosperity of their several communities.—William McKinley.

### THE POLITICAL TREAT OF THE SEASON.

Senator Nelson Will Speak in Brainerd, Tuesday, October 30th.

The Eminent Minnesota One of The Best Political Orators In The Country.

A Great Demonstration Will Be Made In His Honor—Speaks At Gardner Hall.

Senator Knute Nelson, the eminent representative of Minnesota in the national senate, will address the people of this city at Gardner Hall on Tuesday evening, Oct. 30th. Senator Nelson is one of the best political speakers in the country. He is not a fiery orator like Davis'

Dallas and others, but he is so convincing and logical, and has such a fund of information on all political questions, that when he treats a question he seems to exhaust the subject and carries absolute conviction to his hearers. His plain and homely logic is unanswerable. He is also most pleasing in his appearance and manners and all who fall to attend and hear him will miss the greatest treat of the season. Everybody turn out and give the distinguished gentleman a hearty welcome.

### POPULIST CITY CONVENTION.

Only One Nomination Made—No Other Sacrifices Could Be Found.

The populists held their city convention at the court house on Wednesday evening. W. H. Everest was elected temporary chairman, and J. M. Hayes secretary, and the organization was afterward made permanent. Sixteen delegates were in attendance, the third ward being entirely unrepresented.

The organization being perfected nominations for mayor were called for, and T. M. Reilly was called in nomination. A. Olson moved to endorse Halsted, but the chair arbitrarily refused to listen to him, and a vote was taken on Mr. Reilly, who was rejected by a vote of 12 to 2.

The majority was then passed, and two nominations were made for municipal judge, J. H. Warner and W. H. Everest. A motion was made that Mr. Everest be nominated by acclamation, and notwithstanding there was another nomination this action was taken and Mr. Everest was declared the nominee. The positions of special judge, treasurer and assessor were passed for the democrats. A motion was made by Alderman Fogelstrom and supported by Alderman Johnson to endorse F. A. Farrar, and this action would have been taken had not the chair refused to entertain the motion.

Nominations for judges were ratified by the convention as follows: 1st ward, J. C. Jamieson; 2nd ward, J. W. Koop; 4th ward, F. G. Fogelstrom and Solomon Johnson; 5th ward, J. K. Pearce and John Koop. Frank Brant's nomination for member of the board of education in the 4th ward was endorsed.

On motion, J. M. Hayes, Andrew Peterson and A. Olson were appointed a committee to confer with the democrats and fill vacancies.

P. G. Fogelstrom was elected city chairman, and W. H. Everest secretary. A committee of three was also appointed to raise fund to pay the arena for publishing the call.

Your vote on the legislative ticket should be cast for the gentlemen who are pledged to the reelection of Hon. Knute Nelson to the United States senate. Put an X mark after the names of A. F. Ferris and Joel Smith when you deposit your ballot on November 6.

You voted for prosperity and got it. Will you now vote against it? O'Lake Park Creamery butter is the finest in the land, at E. C. Bane's.

# AN EXPLANATION THAT DOES NOT EXPLAIN

**B. F. Nelson, Chairman of the State Prison Managing Board, Devises Accuracy of Reports Made by Warden Reeve to Auditor Dunn.**

## RAISING A QUESTION OF VERACITY BETWEEN DEMOCRATIC OFFICIALS

**Nelson Claims That Deficit Will Be Only \$22,000, and Calculates 'a Small Margin of Profit' on \$375,000 of Outstanding Accounts.**

From the St. Paul Dispatch, Sept. 18, 1910.

## What Democratic "Reform" Cost Minnesota in One Year

Expense of Grain Inspection in 1900 over 1898.....	\$30,000
7,000,000 pounds of Sial bought at 3 cents a pound above market price.....	210,000
Operating Expenses of Twine Plant, excess for 1900 above those of 1899.....	341,000
Estimated Increase in Cost of Maintenance of other State Institutions.....	40,000
Estimated Cost of Lind's California Junket, including Wine Supper to Officers of the Thirtieth Regiment.....	3,000
Reward for Man Killed by State Game Warden.....	300
Interest for five years on \$500 "Borrowed" by Gen. Poppe from Mankato Library Board at 8 per cent.....	200
<b>Total.....</b>	<b>\$624,500</b>

There will be a final accounting next November and the people will repudiate such extravagance and mismanagement by electing the entire Republican ticket.

After the vicious hammering they have been receiving for the past eight or ten days on the management of the twine plant, the Democratic managers have at last entered into an explanation of the frightful conditions prevailing at the prison, as furnished by State Auditor Dunn in his address at Minn. The explanation comes in the form of a letter from B. F. Nelson, chairman of the board of prison managers, and in the nature of a denial of the charges made by Warden Reeve, the Auditor Dunn in an official way. It is observed that Nelson, who is the auditor Dunn in an official way, has written a letter to the proper officer of the state prison department, Mr. Dunn. Nelson's statement that there will be a final accounting next November, and that the people will repudiate such extravagance and mismanagement by electing the entire Republican ticket, is a statement that is not only a denial of the charges made by Warden Reeve, but also a denial of the charges made by the Auditor Dunn in an official way. Nelson's statement that there will be a final accounting next November, and that the people will repudiate such extravagance and mismanagement by electing the entire Republican ticket, is a statement that is not only a denial of the charges made by Warden Reeve, but also a denial of the charges made by the Auditor Dunn in an official way.

Reports from Minn. P. I. are to the effect that the farm trust has completely dissolved, its stock going to the ground. This was the result of the auction and sale of its stock from time on to be practically untraceable and that the fact that there were no real buyers, and the fact that the price of the stock was so low that it was almost impossible to find buyers. The price of the stock was so low that it was almost impossible to find buyers. The price of the stock was so low that it was almost impossible to find buyers.

## DR. JOHNSON QUITS

**REDEEMS HIS 1896 PLEDGE**  
Dr. Johnson Quits to Rejoice

Dr. Christian Johnson of Willmar, who was one of the brightest and most enthusiastic supporters of Bryan in the Sixth district four years ago, has recently returned to his home in Willmar, and while he considers this a disappointing result, he has no regrets over the experience as an eye-witness. He is satisfied that the Bryan campaign was a failure, and that the Bryan administration was a failure. He is satisfied that the Bryan campaign was a failure, and that the Bryan administration was a failure.

The Democratic proposition is to destroy what the Republican party has accomplished.

No, the American people never retreat. And if we don't retreat, we would not begin to move at the request of those who sympathize with the nation's foes.

No imperial design link in the American mind. They are alien to American sentiment, thought and purpose.

The American people use political parties for their purpose, political parties do not use the American people for their title ends.

FROM OUR COUNTY CORRESPONDENTS.

KATHINE. Interesting Local News of the Surrounding Country.

See that you are registered. The board meets Tuesday at G. A. Hunt's.

Rev. Patrick has been assigned to the Deerwood and Bay Lake circuits. Professor Wilson and wife, Mrs. Cole and sister, and Mrs. Crowell, of Brainerd, were visitors at our Sunday school.

Hon. Geo. J. Mallory, of Duluth, will address the people of Bay Lake from the standpoint of a republican at the North Bay school house, Wednesday, Oct. 24th.

Only four candidates out for county commissioner from "this neck of the woods," and plenty of timber left. Perhaps good use could be made of that crusher after all. To many independents destroy harmony.

We are informed that the county has invested \$750 in an crusher. Don't know what part of the county they intend to take it, but we feel perfectly safe, so long as the ingernant can't reach us until they fix the roads.

The Oak Lawn correspondent mourning the loss of items published in the Dispatch, suggests that "perhaps they are in China." One trip over the east road through Oak Lawn in Brainerd, would impress any person with the same thoughts.

The social event of the week was the Hunt-Archibald anniversary celebrated this year at G. A. Hunt's, being the birthday of Mr. and Mrs. Archibald and Mrs. Hunt. Mr. Archibald and Mrs. Hunt are the same age. Two tables were spread in the dining room with covers for 30 guests, with fruit and cut flowers as decorations.

A general invitation was extended to these gatherings, and though the circle of friends has grown larger, each succeeding mile post has left its impressions, and at past 55 many thoughts come to remind us that the scenes are shifting and as we adjust our specs we may read down between the lines ("Final Exit").

Mr. and Mrs. Ford made a trip to the county seat on Wednesday.

W. T. Tebbrock, of Duluth, is spending a couple of weeks visiting Mrs. Tebbrock's parents and shooting partridges.

Rev. Justin Parish arrived in Deerwood Saturday and started in his work on Sunday, preaching at 10 o'clock in the afternoon at Deerwood in the evening to a full house. Mr. Parish's brother from Canada is spending a few days with him.

A great mistake was made with regard to delegates who attended the populist convention at Brainerd. One of the delegates, who is a pretty young man, who is a delegate, was a delegate. Wm. A. Coffin said he was one of the four delegates and that none of the four delegates mentioned were delegates to the convention, and whoever made that report was a fool.

Miss Lillian Blowers, who has been staying at Ernest Andrews lately, was taken home sick the night of the 18th inst.

Report says that George Fletcher has lost one of his homes. Hope the rumor is unfounded, as the loss of a good home to a new settler is a very serious thing.

Bob Clark, Free Donor's chairman, took some poor unfortunate to Brainerd one-day last week, with a wound on his foot, and with the business end of a gun with one of his thumbs.

Nels Gaudier has arrived with his family and earthly possessions and is a full fledged resident of this beautiful part of Minnesota. Success to you, Nels. Write to your friends and induce them to come also.

The first tidal wave of the campaign has reached us, as the campaigner and buttons are in evidence almost every corner, and also the peace of mind. The only thing that is hard to find is a Bryan button.

Miss Kinn of Minneapolis, has arrived in our neighborhood and will teach the Eagle Lake school this coming winter. I suppose some of our county correspondents will again cry out "what's the matter with our employ-ment office?" but when home talent cannot be got what is the school board to do but send abroad.

Exports of Agricultural Products: There is a world of thought for farmers in the record of wheat and wheat flour for the past three years under the Republican administration as compared with what it was when the Democrats were in control. Good seasons brought the bountiful crops of wheat, but good times, created by the protective tariff advanced prices at home, increased the consumption and thus enabled the farmer to sell his surplus abroad for higher prices. The record of exports of wheat and flour in value is as follows: Four Years Three Years. Total value, \$41,700,012 \$23,800,419. It is apparent that the farmers are receiving \$17,900,000 more for their wheat and its product which are sold abroad than when times were dull in this country.

Nebraska Land Values: Money is being loaned on land near Nebraska City, Neb., at 5 per cent on a valuation of more than \$10 per acre. Four years ago under Democratic policy the same land was being purchased at \$10 per acre. Good crops and property brought by protection and a sound financial policy did it.
