## ON TO BUFFALO

IS NOW THE CRY

The "Hiking Third" May Attend the Pan-American Exposition in a Body.

WILL COMPANY "F" BE IN IT?

The Officers and Men of the Regiment of One Accord on the Question.

There is a strong probability now that the Third Regiment, which was in camp in this city for several days, will attend the Pan-American exposition at Buffalo as a regiment.

When the regiment was in camp in this city, Van Duzee called the officers together and the matter was pretty thoroughly discussed and the men of the regiment were also advised. All felt that it would be an excellent scheme and officers and men were of one accord. The matter has been discussed some among the members of Company F of this city. Captain Adair will canvass the situation thoroughly and if it is found that the matter is of one accord, he will be glad to see the men of the regiment in mind and that something definite one way or the other would transpire in a few days.

The following from the Duluth News-Tribune would indicate that it is almost a sure thing: "The plan of attending the Pan-American exposition as a regiment has been talked of quietly for some time, but matters are now getting in such shape that something definite will be given out within a week or ten days. On the practice march, which ended last Friday, the officers of the Third got together and discussed the proposed trip with much earnestness. The subject was also given to the men and they all declared themselves heartily in favor of the scheme. If the arrangements, as planned by the officers, can be carried out, the regiment will spend but one week on the trip. They will leave here on Saturday night and return the following Sunday.

The time selected is the last week of August, or the first week of September. It is figured that the trip can be made at a cost per man not to exceed \$20, and at that rate there would be no difficulty in getting 40 men from each company to make the journey. The expenses per man would be about half of what they would be for one person.

A regular camp will be established on the outskirts of the city, the same as at an encampment. Guard lines, etc., will be fixed and the regiment will be under military rule. The time spoken of comes about the date that Governor Van Sant will make his second trip to Buffalo, and it is known that he would like to have the "Hiking Third" accompany him.

The regiment has been animated with a spirit of good feeling since the advent of the practice march, and the boys intend to make the crack infantry company of the state. The Duluth soldiers and musicians are very willing to take the trip, but if they were not enough to make a showing it would be no easy matter to fill up the ranks with soldiers other than regular members of the regiment. This will not be allowed, however. The Third is the first to suggest going down to the exposition as a regiment, although a couple of the companies have planned to attend."

## WHAT ABOUT THE FOURTH.

Several Citizens Are Said To Be Interested in Having a Celebration This Year.

There is some talk of calling a meeting of the citizens of Brainerd to make some arrangements for the proper celebration of the Fourth of July. There is a feeling among some that there should be something out of the ordinary this year, and although the time is short it is thought that something can be done.

## LARGE SALE OF LOGS.

Pine Tree Lumber Company, of Little Falls, Heartily Interested. Some Flattering Offers.

Lower Mississippi saw mill men are in hard luck this year, as the low stage of water in Wisconsin streams have made the delivery of logs very slow. The mill owners have had to seek a supply on the upper Mississippi, and they are making very flattering offers, says the Transcript. George T. Lindsey, of Des Moines, Iowa, was in the city and closed a deal with the Pine Tree company for the purchase of the 12,000,000 feet of logs out on Stillwater last winter by the camp in charge of H. A. Connor. These logs will be driven down the river to the St. Paul boom, and then rafted to Davenport and Moline, Lindsey & Phelps company will saw part of the logs at Davenport, and Diment, Gould & Co. will saw the balance at Moline, Ill.

A sale of Pine Tree logs was recently made to the W. S. Hill Lumber company in Minneapolis, and about 3,000,000 feet of these logs are being passed through the boom here. Other sales have also been made.

## MAY BE GOOD PAYING.

A Case Being Argued in the Supreme Court which May Materially Change Things.

A case is being argued in the supreme court which may change the Crookston district from a mere honorary position to one of the best paying offices in the state, says the Crookston Journal.

It is the case of E. H. Carver et al., vs. the Crookston Lumber company, appellant.

Carver used to foreclose a lien on 1,200,000 feet of logs cut for the Crookston Lumber company in the Crookston district. To prove the amount of lumber in the logs the scale bills of the Minneapolis surveyor general were submitted in evidence.

Halvor Steenerson, attorney for the lumber company, objected on the ground that the logs having been cut in the Crookston district, the bills of the surveyor from the Minneapolis district were not admissible in evidence in the Seventh district. The court admitted the bills, and this is one of the grounds on which Mr. Steenerson appealed to the supreme court.

It has been the practice of the Minneapolis lumbermen to provide in all their contracts that the logs should be scaled by the surveyor general of the Second district. This has deprived the surveyor general of the Crookston or Seventh district of practically all revenue. If Mr. Steenerson's contention that logs out in the Crookston district must be scaled there is sustained by the supreme court, the office of surveyor general for that district will be worth about \$4,000 per year. A. D. Stephens is now the surveyor general for the Crookston district.

## AMENITY BASE BALL.

The Game Sunday Will Be a Good One. The Factors in Play the Lawyers.

The base ball game on Sunday afternoon at Swartz driving park will in all probability attract a great many people. The home team will be materially strengthened for the occasion and Manager Lagerquist is confident that the fans will get their money's worth. A few new players are expected in the city before that time and it is said that one or two of them are crack players.

## STRING OF "FLATS" HIT.

"Someone Has Blundered" and There Was Be a Seance on the Carpet as a Result.

Wednesday about 10 p. m. there was a bump and a crash in the Northern Pacific yards that startled the natives and for a few minutes the air seemed blue. The noise was caused by the colliding of a switch engine and a string of flat cars used for hauling logs.

It was engine No. 181 and the night switching crew was engaged in pulling up a line of engines from the west side. The engineer, of course, thought that the switch ahead was all right, but it was not, and before he knew it he had run smack into a string of moving flat cars. In front of the depot, and the cylinder box of his engine was badly mangled. The engine will have to be laid up for repairs. No one was hurt.

FOR CRIMINAL LIBEL

SUPERIOR IS AGITATED OVER THE ARREST OF MAYOR PARKER.
PREFERRER BY ALDERMAN The action of the Superior Court in permitting the arrest of Mayor and several members of the Council-Parson Accuses One of the Letter of Bad Faith in Introducing a Resolution of Inquiry.

Duluth, June 10.—Superior is agitated over the arrest of Mayor P. B. Parker, on a charge of criminal libel preferred by Alderman J. W. Barry, a member of the city council and a saloonkeeper. Mayor Parker was arrested by the sheriff and immediately taken to court where he was released on \$500 bonds for his appearance in court when wanted. The mayor and several members of the city council, representing the opposing political factions, have been vanced for some time. About two weeks ago they succeeded in passing a resolution through the council requiring the mayor to give a list of all the gambling and disorderly houses in the city. Tuesday night he answered the resolution, refusing to do so, and the city council, led by Alderman Barry, the introducer, had not presented it in good faith, but was introduced because the mayor had closed a derogatory report near his saloon. Mayor Parker charged Barry with despicable business from the house and said that he introduced the resolution the night after he had refused to allow it to reopen simply as a retaliatory measure.
