

TERRIBLE LOSS OF LIFE

Eighty people killed and one hundred and fifty injured.

WRECK NEAR SENECA, MICH.

Double-headed Emigrant Train and an Eastbound Passenger on the Washburn Road met at Full Speed. Disobedience of Orders the Cause of the Terrible Disaster. The Weather Bitterly Cold and Suffering in Great.

Detroit, Nov. 28.—Eighty persons were killed and 150 injured, of whom 25 are serious, in the most disastrous railroad wreck in the history of Michigan railroading. Fifty of the 80 dead were killed outright. Two heavily loaded passenger trains on the Washburn railroad collided head-on at full speed one mile west of Seneca, the second station west of Adrian. The west-bound train of two cars loaded with immigrants and five other coaches was smashed and hurled into the air, loss of life and fearful injuries to a majority of its passengers. The westbound train, the Continental limited, suffered in scarcely less degree. The track in the vicinity of the wreck is strewn with dead and dying. Many physicians from Detroit have gone to the scene. No. 4, the Continental limited, had engine No. 609, Engineer Strong, Conductor G. J. Martin, No. 13, double-headed train, had engine No. 181, Engineer Purcell, Conductor Charles Trull, No. 4. It is believed, disassembled orders in not waiting at Seneca for No. 13, thereby causing the wreck.

The track at the point where the collision occurred is straight and at first the officials could not understand how the accident could have happened. No. 13, which ordinarily is due to leave Detroit at 2:30 o'clock, was two hours late, leaving at 4:30. The two trains met at Seneca, according to schedule, but No. 4 had orders to meet No. 13 at Seneca. The blame therefore placed on the conductor or engineer of No. 4. Had this train been held at Seneca the accident would not have occurred. Train No. 4 was due at Seneca at 5:45, according to the schedule in the timetables, but apparently orders to wait were disobeyed and the probabilities are that

The reason will never be known, as the train crews undoubtedly met instant death. Advice from the wreck state that the country for miles around was lighted up by the burning cars and that the flames could not be quenched because of lack of proper apparatus. Men and women were picked up along the track by the farmers before the medical tent was from Adrian arrived on the scene. In some instances the bodies were managed beyond all recognition. The bodies which the rescuers managed to pull from the burning ruins of the limited train cars were so badly burned that their identity will never be ascertained.

Train No. 13 was a regular train carrying two cars of immigrants going west and was behind time. This train was composed of seven coaches, pulled by two engines. Reports differ as to the number of coaches carrying immigrants. One says there were but two, and another says there were five, or six coaches carrying this class of tourists. The eastbound train was made up of an engine, baggage car, combination coach and sleeper. The trains came together one mile east of Seneca under a full head of steam. All but the two rear coaches on the west-bound train were demolished and the coach on the other was telescoped. Five of the cars of train No. 13 caught fire and burned. Engine No. 181 of train 13 exploded and engine 609 on No. 4 turned over into a ditch. Two firemen and one engineer on No. 13 were killed and the engineer and fireman on No. 4 jumped and escaped. Burgess Hasten to the scene, as soon as the news of the disaster reached Division Superintendent Burns of Detroit the wires were kept cutting special trains from Adrian, Paris and Montpelier to the scene of the wreck. A special train from Detroit carrying 33 passengers and surgeons started for Seneca and was given the right of way. When it reached the scene of the wreck the work was at once commenced of securing the wounded. A special train from Detroit had all the doctors and physicians in the city had been at work for an hour, but the doctors related the work of rescue. The wounded were placed on special trains heading for Detroit. Adrian the injured were carried in ambulances, trays and delivery wagons to the hospitals until they were killed and private residences in the neighborhood were placed in service.

The responsibility for the accident is laid on the crew of No. 4. It is said that this train was meeting order with the regular westbound train, No. 13. The trains were to have met at Seneca, but No. 4 ran by and struck the westbound train a mile east. It is estimated that upwards of 500 persons were on the two trains.

THE SCHEME WORKED MOST ADMIRABLY.

As Indians at Mills Lacs Are Paid Off Monday—Vaccination Is Required.

NO MORE SMALL-POX THERE.

Indian Agent Michelet and His Men Return from Vineland—This Morning. Indian Agent Simon Michelet returned Wednesday from Vineland, accompanied by his chief clerk and others. They had been to Vineland to pay off the Mills Lacs lake Indians. These Indians are very much scattered and it takes some little time to get them all paid off, but Agent Michelet states that there was a very good showing made on the first day. Of the 923 Indians located, 641 were paid off. Many of the others live nearly a hundred miles away, and as they do not get more than about \$5.00 apiece it does not hardly pay them to drive so far. He intends to make some other points around the lake to pay the balance of the Indians in a short time. Of the number that has been paid off every Indian with all their families has been vaccinated. Particular effort was made to have all the Indians vaccinated, and before all are paid off none will escape. The recent little unpleasantness with small-pox at Mills Lacs has prompted the officials to be very cautious, and every care is being taken to prevent a further spread of the disease this winter.

Indian Agent Michelet and his men left for the White Earth reservation this afternoon.

ANOTHER INSTALLMENT.

Consignment of Australian-London Mail Boat Pushed to New York. Chicago, Nov. 28.—Four hundred and eighty sacks of Australian London mail is being trucked across the continent in time to reach New York for the steamer leaving Saturday for Queensland. The mail left San Francisco Monday and is due at Council Bluffs, Ia., at 2:40 p. m. and will be taken to Chicago by the Burlington and Quincy railway. In case the mail is not received at Chicago, a special Chicago, Burlington and Quincy train will be in readiness for the mail to be taken to New York. The mail is being trucked across the continent in time to reach New York for the steamer leaving Saturday for Queensland. The mail left San Francisco Monday and is due at Council Bluffs, Ia., at 2:40 p. m. and will be taken to Chicago by the Burlington and Quincy railway. In case the mail is not received at Chicago, a special Chicago, Burlington and Quincy train will be in readiness for the mail to be taken to New York.

KITCHENER'S HARD TASK.

Sentry Commands in the Field Will Be Made to Run Down. London, Nov. 28.—A dispatch to the Times from Pretoria says there are 70 recognized commands and bands of Boers ranging in strength from 50 to 600 men in the field, of which 21 are in the Transvaal, 31 in the Orange River Colony and 18 in Cape Colony. The task of running them down must necessarily be slow, but it is sure and there is no ground for impatience. Lord Kitchener's striking arm at present amounts to only 45,000 men and the more men he is enabled to put in the field the sooner the end will come.

APPRECIATED M'KINLEY.

Chinese People Will Erect a Monument to Him at Shanghai. Washington, Nov. 28.—The state department has received a report from the consular agent at Shanghai stating that the guilds of silk, tea and cotton goods dealers, have contributed of their own initiative to a fund to erect a monument to Shanghai to the late President McKinley and announce that they are doing this to show their appreciation of the man and of his attitude toward China. It is said that never before has such action been taken by the Chinese people on behalf of any Chinese person.

Munsey Buys a Paper. New York, Nov. 27.—Frank A. Munsey has purchased a controlling interest in the New York Lucy Donahue, daughter of William Donahue of Merrifield. The buying was very brief in the matter as the father of the girl had decided that the young boy had done nothing intentionally. On motion of County Attorney Alderman the case was dismissed.

WANTED—Position as housekeeper in respectable family, by a young widow, with baby. Call on trouble. Address box No. 1082.

AGAINST NEW INDIAN POLICY

Jerry J. Writes to the Minneapolis Journal Regarding Probable Action of Western Representatives.

Opposition to the new Indian policy favored by President Roosevelt, Secretary Hitchcock and Indian Commissioner Jones is threatened from representatives of western states in which Indian reservations are located, says Jerry J. in the Minneapolis Journal. Members who have been informed of the change say that it is impracticable, as the Indians cannot be made self-supporting in the way indicated by Commissioner Jones. They say the Indians must be supported for years to come and that to allot lands and thrust the Indian upon his own resources will prove a burden on the states in which they are now living. Many of them will become public charges and the states will not feel called upon to support them when the national government should assume the responsibility. It is not altogether improbable that these opponents will be able to secure legislation that they will be robbed of considerable patronage which is dear to their hearts and helps to build up political organizations.

New Form of Practice Adopted.

Capt. O. E. Lee, of Stillwater, inspector of small arms practice, N. G. S. M., spent Wednesday in the city with Capt. Adair of company F. A new and novel form of rifle practice has been adopted recently by the regiment and Capt. Lee's mission here at this time was to make arrangements for the establishment of this system. He made all arrangements for an indoor range for rifle practice and as soon as the boys are sure that they will have a hall, the other arrangements will be made for some practice during the winter. The ammunition used is provided so that it will be in accord with the conveniences of an indoor practice. It is inexpensive and the targets are so constructed, short distances being considered, that the men will get as good practice as though they were on a regular range.

The matter of furnishing a hall for the company in this city is still in the hands of the purchasing committee. Chairman Wright at the last meeting of the city council stated that they would be ready to report at the next meeting, which is on Monday evening next. It is thought that Alderman Gardner's proposition will not be accepted as the price asked for the hall is too high. The hall in the Koop building on the corner of Laurel and Seventh streets may be rented for the purpose.

WILL BE TAKEN OFF.

The North-Coast Limited Trains Will Be Taken Off the First of Next Week.

The Northern Pacific will discontinue the North-Coast Limited trains, but will maintain a double daily service through to Seattle and Portland as at present. The last North-Coast Limited train to leave for Portland will be next Sunday, and the last train of this class to leave Portland will be Dec. 4. During the season, the North-Coast Limited trains have enjoyed a phenomenal business, the receipts being greater than for almost any similar train in the United States.

LINDBERG WAS DISCHARGED.

The Young Man Arrested Charged With the Abduction of Lucy Donahue Is Released.

Wednesday afternoon there was a hearing in the case of the state against Emil Lindberg, the young man charged with the abduction of young Lucy Donahue, daughter of William Donahue of Merrifield. The hearing was very brief in the matter as the father of the girl had decided that the young boy had done nothing intentionally. On motion of County Attorney Alderman the case was dismissed.

WHAT TRAINING SCHOOLS COST.

Figures Have Been Compiled by the Superintendent of Public Instruction. Figures have been compiled by the superintendent of schools, showing the attendance at the summer schools' last summer for six weeks. The total enrollment at the state university summer school was 921, of whom 256 held first grade certificates, 312 second grade and 45 third grade. There were 886 high school graduates, 166 graduates of normal schools, and 108 college graduates. The cost of the school was \$74,851.11. The other 47 training schools had an enrollment of 4,231, and an average attendance of 3,218. There were 238 who held first grade certificates, 1,888 second grade, and 702 third grade. High school graduates numbered 682, normal school graduates 28. The total cost was \$24,608.81. These schools held for four weeks, while the university training school was in session six weeks. Seven teachers' institutes, in session one week each, had an enrollment of 271, and cost \$692.01. For Sale—80 acres of good land 1 mile east of the city limits of Brainerd. Address P. O. Box, Britt, Iowa. Cals & Buns buy potatoes. Call on them before selling.

A. E. MOBERG'S THANKSGIVING SALE.

A. E. MOBERG, Clothing and Shoes.

Dry Goods, Clothing and Shoes. 616-618 Front Street, Brainerd.

HONORS PETER NELSON

His Danish Friends Make the Event of His Fiftieth Birthday Anniversary A Joyous One. Seldom in the history of the city has there been such a gathering of Danes as congregated Tuesday night at Peabody hall, the event being the commemoration of the fiftieth birthday anniversary of Mr. Peter Nelson, and it must have made his heart glad as he received the congratulations of his many friends. Fully 160 friends of Mr. Nelson were present and the night was made pleasant with various means of joyous entertainment. Not only did the guests come laden with good-will and hearty congratulations but Peter was remembered in a more practical way. A large amount of silverware costing large sums of money, was presented to him by the guests.

The presentation speech was made by Mr. K. H. Olson, and Mr. Nelson responded in a happy vein. The happy crowd danced the hours away to the tune of pleasant strains and Mr. Nelson's heart was young again. A delicious repast was served nearly one hundred gathering around the board at one time. Mr. Nelson has the best wishes of all his many friends in the city who are so full of the same nationality, as well as his Danish brethren.

ATTORNEY MURPHY MUCH WANTED MAN.

It is charged that he has committed a grave and serious crime.

LEFT THE CITY A WEEK AGO.

Minneapolis Authorities are Also Interested in the Unfortunate Matter.

Residents of the city of Brainerd will be surprised and shocked to learn of the disappearance of Attorney Patrick J. Murphy and with this some ugly rumors have been broadcast throughout the city connecting Mr. Murphy with some crooked work which has come to light within the past few days.

It seems from claims made by different parties interested in Mr. Murphy that he was guilty of some very crooked business in connection with his loaning business in this city and that a large number of citizens have been wronged to some extent ranging about the \$1000 mark.

It is claimed that the means employed by Mr. Murphy and which charge he will be confronted with if brought back to the city, will be forged. T. J. Tyler is perhaps the heaviest individual in the manufacture of this country. Mr. Murphy is claimed to have done some crooked work and in both instances Mr. Tyler is the loser. A mortgage was given March 27, 1901, given by August Lockwood to D. P. Tyler is one of the instruments. This instrument was security for the sum of \$200.

It is claimed at the register's office that the mortgage deed shows car marks of a rank forged throughout. Lockwood did give one mortgage on a quarter-section of land and secured a loan of \$300. It is claimed that Murphy made an almost exact duplicate of the mortgage deed, forging the name not only of August Lockwood, but also the name of Miss Leonora Peabody, deputy register of deeds. In some manner, it is claimed, Murphy secured the seal in the office of the register of deeds and it was properly executed. This was turned over to Mr. Tyler and he got \$300 on this deal, as in all Mr. Tyler paid him \$500 as a loan to Lockwood, but Lockwood received but \$200 of the money. The same kind of instrument is claimed to have been forged, Joseph E. Myers being the purporting signer of the mortgage deed.

The office and furnishings with all the books etc. in Mr. Murphy's possession when he left the city have been attached by the sheriff and are now in his possession. Besides the mortgage deeds which are claimed by the officers at the court house to be forged, there are numerous other evidences of crooked work as claimed in the register of deeds office. Some satisfaction of mortgages have been filed which are claimed to be forgeries. It is further claimed that the work has been carried on throughout the city, not forgeries exact, but borrowed money etc. which will run into the thousands.

The most recent discovery and perhaps the largest amount of money realized by falsification is in connection with a loan which Mr. Murphy had negotiated for M. N. Swartz of this city from Barnes Bros. of Minneapolis. The amount of the loan was \$2500. Mr. Murphy carried the deal through all right when he went to Minneapolis a week ago Saturday he turned over the papers to Barnes Bros. and it is claimed received a check from them for \$2500 made payable to M. E. Swartz at their bank in Columbia Block.

There was a very interesting meeting of Rusworth Encampment, I. O. O. F. No. 19, Monday and several candidates were initiated. The Golden Rule and Royal Purple degrees being worked.

At the business session the following officers were elected: C. P. A. H. Bennett, S. W. H. G. Vallentyne, H. P. H. T. Skinner, J. W. Fred Allison, Secretary—Bernie Peterson, Fin. Sec.—N. M. Grant, Treasurer—N. M. Payne.

Today late Foley's Honey and Tar positively prevents pneumonia, or other serious results from colds. It may be too late to-morrow. H. P. Dunn & Co., & McFadden Drug Co.

MRS. ANN PEGG'S DEATH CHRONICLED.

Well and Favorably Known in Brainerd. Being a Resident Here For Years.

NEWS RECEIVED ON MONDAY

Was a Resident of the City in the Early Days and Left Only Recently.

Word was received in the city on Monday by Mrs. Robina L. George of Bradford, A., announcing the death of Mrs. Ann Pegg, a former well known resident of this city.

Mrs. Pegg's death is thought to have been due to old age and general infirmities, although no particulars of the seemingly sudden ending were reported in the dispatch. Until five years ago she was a resident of this city. She moved at that time with her daughter, Mrs. A. Bardeley, Pennsylvania. Her son-in-law, Mr. Bardeley, was master mechanic for the Northern Pacific in this city and she was also very well known here.

The deceased had many friends in this city and the news of her death will be a surprise. She was a loving, kind and devoted woman and all who knew her learned to love her. The many friends of the family extend sympathy.

H. F. Pegg, of this city, and Chas. Pegg, of West Superior, are sons of the deceased. It is understood that the remains will be shipped to this city for interment.

Spreads Like Wildfire. When things are "the best" they become "the best selling." Albin Hava, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled for 20 years." You know why? Most diseases begin in disordered stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the system, brings out skin eruptions, etc. It builds up the entire system. Price 50c per bottle and 10c per bottle. Sold by McFadden Drug Co. & H. P. Dunn & Co.

EDWARD FINN SERIOUSLY HURT.

Caught Between a Car and a Building at the Northern Pacific Shops Saturday Afternoon.

Saturday afternoon about 5 o'clock and a switch engine flying through the Northern Pacific yards at a breakneck speed gave the signal of disaster to some unfortunate workmen employed for the company. It seems that Edward Finn who works at the shops in this city was working near a car which was standing near the boiler house. As the engine came along to take the car out and is some man Finn was caught between the car and the building and in this precarious condition was badly squeezed.

The engine of the switch engine heard the cries and stopped at once but not before Mr. Finn was seriously and badly hurt. He was taken to the N. P. Sanitarium where an examination was held. It was found that one or two of his ribs were broken and he sustained other injuries about the body. While his wounds are thought to be quite serious it is not thought that they will be fatal.

Seymour Webb, Merin, N. Y., writes: "I had been troubled with my kidneys for twenty-five years and had tried several physicians but received no relief until I bought a bottle of Foley's Kidney Cure. After using two bottles I was absolutely cured. I earnestly recommend Foley's Kidney Cure. Take only Foley's. H. P. Dunn & Co., & McFadden Drug Co.

ELECTED OFFICERS.

A Meeting of Rusworth Encampment I. O. O. F. Held Monday in their Hall in Columbia Block.

MRS. MINNIE PISK PASSES AWAY.

The First Season Comes at an Early Hour Sunday Morning—She Took A Relapse.

Mrs. Minnie Pisk, whose home was at 210 Front street west, died at 9:30 o'clock Sunday morning after a lingering illness lasting over six weeks. Some time ago she was taken sick with diphtheria and from this contagion she seemed so have fully recovered, but started to work again so soon it is thought and took a relapse until her life ebbed out. She has been a resident of this city for many years and it will be remembered that her husband, Frank Pisk, was killed by being run over by a wagon some three or four years ago.

The funeral services were held this afternoon from her late home, Rev. S. W. Hoyer officiating. Interment was made in Evergreen cemetery.

ASTOUNDING DISCOVERY. From Cooperstown, Minn., comes word of a wonderful discovery of a pleasant tasting liquid that when used for coughs, croup, whooping cough, etc., writes Mrs. S. H. Halsey, "for three generations of our family we have used Dr. Halsey's New Discovery for Consumption and never found its equal for Coughs and Colds." It is a wonderful discovery when used for dispelling lung diseases.

Dr. Halsey's New Discovery for Consumption and Coughs and Colds. It is a wonderful discovery when used for dispelling lung diseases.

HIRAM LEAKE KILLED.

His Engine Hurled Down an Embankment and Several Cars with Merchandise are Demolished.

A Northern Pacific engine and caboose running at a high speed, struck some freight cars about two miles east of the depot at Minneapolis at about 8:30 Sunday morning. The cars were demolished and the engine hurled from the track down a fifteen-foot embankment. Coal from the tender was piled into the caboose and instantly killed the engineer. Fred Turner, injured the fireman and Fred Turner, the dead engineer came here recently from Staples, (Minn.) division of the Northern Pacific. He was about fifty, unmarried and a native of Michigan. How the freight cars got out on the main line is unknown, but it is supposed that they broke loose from other cars on a siding during the severe wind-storm, and the grade may have carried them down to the main line.

RECOMMENDS IT TO TRAVELERS. G. H. Haver, Minn., O., Engineer L. E. & W. R. H., writes: "I have been troubled a great deal with back-ache. I used and returned to Fry Foley's Kidney Cure, and one bottle entirely relieved me. I gladly recommend it to any one, especially my friends among the teamsters, who are usually so afflicted." H. P. Dunn & Co., & McFadden Drug Co.

DECEASED WAS IN HER SEVENTEENTH YEAR and was particularly popular among her friends in the city. She had been sick for three or four weeks, and until recently it was thought that she would recover, but she was taken with a relapse from which she never recovered.

The funeral services were held Tuesday afternoon at the First Baptist church in this city. Rev. S. W. Hoyer officiating. Interment took place in Evergreen cemetery.

Great Lax of an Effort. "For two years all efforts to cure Eczema in the palms of my hand failed," writes Editor H. N. Lester, of Syracuse, Kan., "when I was wholly cured by Euzelen's Anker Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25c at McFadden Drug Co. & H. P. Dunn & Co.

BROUGHT GOOD PRICE.

M. J. Reilly Sells His Property on Sixth Street to Fred Dreiser for Blacksmith purposes.

Fred Dreiser has purchased of M. J. Reilly the lot and building on Sixth street which was formerly occupied by A. G. Koopman, for blacksmith purposes, and already the firm of Dreiser & McNaughton have taken possession of the building and are doing business there.

This property is about the centre of the block and brought a very good price. Mr. Reilly receiving \$1200 for the same. The building was worth about \$2000 to lot brought \$1000.

Adolph Blumer, Grand Monarch, Ia., writes: "I have used Foley's Honey and Tar in my family and think it is the best cough cure on the market. It would not be without it in my home as there is nothing so good for coughs and colds." H. P. Dunn & Co., & McFadden Drug Co.

Going out of the clothing business and selling the stock at actual cost price. Come and examine prices. HENRY I. COHEN. Screen Doors, 85 cts at Hoffman.

We carry a line of good, warm shoes for men, women and children. Prices are right. LINNEMAN & OARLSON. I sell Footwear only and will sell you goods cheap, quality considered, than you can buy them elsewhere in Brainerd. Call at the Big 2 and see. R. F. WALTERS, 6th St.

NEW DISEASE AMONG CATTLE.

Has Developed Which It is Claimed is Contagious and for Which No Cure Has Been Found.

Farmers are alarmed over a new disease which has developed among cattle near Sauk Centre, and which generally proves fatal. Dr. N. D. Brinichal, veterinary of the state board of health, has just completed an investigation and pronounces the disease to be similar to haemorrhagic septicaemia. It is a contagious nature and no cure has as yet been found. A half-dozen of the finest cows on the Alexander Dried Dairy farm have died. The animals, seemingly well at night, are found dead in the morning. Dr. Brinichal says the disease is of so contagious a nature that even pasture lands where a diseased animal has fed is dangerous to other cattle. He advises the burning of all dead animals.

The disease, or something similar to it, was found in Tennessee in 1899, and no other cases were reported until August, 1900, when an outbreak occurred at Newport, near St. Paul. Last year from eight different sections of Minnesota similar cases were reported.

Sparks from a freight locomotive set fire to the main yard just south of Long Prairie Thursday evening. Considerable hay was destroyed, and the fire had not been confined by roads and streams great damage would have resulted.

A thousand things by it done far better than things do. We refer to the Handy Medicine Co. made by the Madison Medicine Co. 85c at McFadden Drug Co.

The Brainerd Dispatch.

Published at Foley next Monday.

Official Paper of Crow Wing County.

Entered as Second-Class Matter, June 15, 1895, under Post Office No. 117, at Brainerd, Minn., authorized second-class mail.

Second-class postage paid at Brainerd, Minn., and at additional mailing offices.

Legal Rates for Local Notices: - For the first insertion, ten cents per line for one week; for each subsequent insertion, five cents per line.

For advertising in this paper, apply to the publisher, J. H. WELLS, Brainerd, Minn.

FRIDAY, NOVEMBER 26, 1901.

Gov. VAN SANT'S backbones are not yet recognized by some of the knackers.

The Duluth News-Tribune says political harmony is an unrecognized quantity in Hennepin county.

It had been generally supposed that it was a minus quantity.

Exports of corn of the Hubbard County Enterprise, has just issued an industrial edition of that paper which is certainly a credit to the town in which it is published.

It is the finest specimen of typographical art in the way of a country newspaper that has yet reached our table.

Gov. VAN SANT certainly has the people of Minnesota with him in his large farm of 300 acres, the consideration being \$5,000.

W. J. Gray & Co. secured a verdict of \$500 against the village of New Paysonville, balance due for the construction of a water tank.

The jury has been secured to try Solomon Williams at Walker, who shot and killed James H. Morris at Vermilion Brook last May.

It has been found at Northfield that the city waterworks plant will pay all running expenses and half the interest on the bonds this year.

Frank Vance, of Howaring River, has invited President Roosevelt to his place on a moose hunt next year.

He says the president has practically promised to come.

M. W. Kivv of West Superior died suddenly at Cass Lake Tuesday evening. He came there from Superior to take charge of the yards of the Great Northern.

Freud Spoor, 74 years of age, has been received at the county jail at St. Cloud from Clear Lake.

He is charged by his daughter with assaulting her with a club.

John B. Dickerson, a Great Northern switchman, of Willmar, was arrested on the charge of selling wheat that had leaked from a broken car.

He pleaded guilty and was fined \$10 and costs.

The jury in the big Kreuser damage suit at Fergus Falls, returned a verdict for \$3,676. George Kreuser was employed by the Great Northern and a car fell on him. He sued for \$15,000.

The St. Perkins Theatrical company has been released from quarantine at Lovorne. To assist the company in again starting upon the road, the people have arranged to give them a benefit.

At Sauk Center recently the Grad-Tin Club, a society of women, established a "rest room," which is drawing more trade to this city than anything ever tried before. The object is to furnish comfortable quarters for country people.

The suit of the village of Lanesboro against the waterworks extension contractors for \$15,000 for breach of contract has been transferred by stipulation to the United States circuit court at Winona. It will be tried Dec. 3.

Miss Mable Stoddard, 10 years old, of Manly, Minn., is dead at the Hotel Red Wing. She was overcome by gas which she blew out, not knowing better. She was on her way to Minneapolis, near which city she was to teach school.

S. S. Chase, for a number of years city engineer of St. Cloud, left this morning for Brainerd where he will open an engineering office. His St. Cloud friends will wish him success in his new field, and if his competency is any criterion they know he will succeed and build up a good business. His family will remain at St. Cloud and he will continue to make this city his home. - St. Cloud Journal-Press.

Neighborhood Gossip.

There are fifteen cases of smallpox at Hawley.

A term of the district court will be convened at Foley next Monday.

Nine graduates received their diplomas at the Mankato Normal last Monday.

John Dehn, of Hinckley, who was arrested for setting a fire, was acquitted.

Judge Searle will convene a special term of the district court at Sauk Centre next month.

The Red Men of St. Cloud had a big time Monday night when a large class was initiated.

Vern Rath of Minneapolis, aged 16, accidentally shot himself at Alden last June, having broken out.

Mrs. Mary Ellen Haecorn died at Cass Lake, of consumption and was taken to Anoka for burial.

The county attorney found at Winona has held that the smallpox bills against that city are illegal.

At Two Harbors two cases of smallpox, the first in the county since last June, have broken out.

The first car of corn in the history of Battle Lake was shipped to the Twin cities last of the week.

Snak thieves entered the Catholic cathedral at St. Cloud and robbed the poor box of small change to the amount of \$10.

Dr. H. A. Pinault, of St. Wendell town, Stearns county, has sold his large farm of 300 acres, the consideration being \$5,000.

W. J. Gray & Co. secured a verdict of \$500 against the village of New Paysonville, balance due for the construction of a water tank.

The jury has been secured to try Solomon Williams at Walker, who shot and killed James H. Morris at Vermilion Brook last May.

His family will remain at St. Cloud and he will continue to make this city his home. - St. Cloud Journal-Press.

Sheriff Martin Loe, of Winona, has returned from West Superior, where he went for V. Andruszewski, who is wanted on the charge of the larceny of several sewing machines. The man, under arrest was the wrong person.

The district court jury that heard the case of W. J. Gray & Co., of Minneapolis, against the village of New Paysonville, at St. Cloud returned a verdict for the plaintiff for the full amount asked. The action was brought to recover \$500, with interest for two years, for a certain water tank that formed part of the waterworks system.

Charles L. Pillsbury, of Minneapolis, engineer for New Ulm electric light plant, has submitted his plans, and they comprise a complete revision of the entire city plant, which was built with this end in view two years ago. The city issued bonds to the amount of \$50,000 for the building of the plant, and it is now thought that sum will be inadequate.

Sirensences were being taken by the city authorities of Moorhead looking to the stringent enforcement of ordinances for Sunday closing and other nuisances tolerated. The Corn Omas case is an instance of the crusade against violation of this character. The usual pickings from migrating harvest hands have not been as good as in previous years, account of the notorious sharks having been denied the privilege of plying their trade.

Articles of incorporation have been filed with the register of deeds at Crookston for a new company to be purpose of which are stated to be buying, owning, improving, selling and dealing in lands and negotiating loans. The commencement of the corporation is Dec. 1, 1901, and the period of its continuance is thirty years. The amount of capital stock is \$50,000, and the limit of liabilities \$150,000. The officers are George Purvis, president; Robert H. Purvis, manager; and Magnus Lundberg, secretary and treasurer, these three forming the board of directors.

FOR FOUR NEW SHIPS.

Naval Construction Board Completes its Recommendations.

Washington, Nov. 25.—The naval board of construction has completed its recommendations called for by congress relative to two new battle ships and two armored cruisers. The recommendations are to build four ships of two classes of 14,500 tons each and two armored cruisers of 14,500 tons each. The battleships are to be heavily armored and carry following armament: Four 12-inch guns, 20 10-inch guns, 12 8-inch guns, four 6-inch guns, 12 3-inch guns, 20 14-pounders and a large number of auxiliary machine guns. The armored cruisers are to have an armament including three 8-inch guns, 12 6-inch guns, 20 14-pounders and the usual complement of small guns in the secondary battery. Neither the battleships nor cruisers have super-torpedo turrets. The torpedoes are entirely eliminated from the plans.

LIKE AMERICAN GOODS.

Cotton Fabric Successfully Introduced into the Turkish Market.

Washington, Nov. 25.—It takes pleasure in reporting the success attendant upon the first export shipment of the introducing American cotton fabrics into this market for the first time. The Turkish market has been undisturbed since the Ottoman Empire was established at Constantinople, Turkey, in a report to the state department.

Consul Norton says that during a week a jobber exposed for sale 50 pieces of 40 yards each of American cable, which he sold promptly to local retailers at Harport at \$2.25 per piece. Owing to its superior strength and weight great satisfaction has been expressed by the consumers, and these, the consul says, prefer it to the best grade of Manchester goods reaching the Turkish market. The price of the latter article is 10 cents per yard, while the American product sold for 7 1/2 cents per yard.

MUST PROCEED SLOWLY.

Senator Quarles Discusses the Indian Question With the President.

Washington, Nov. 25.—Senator Quarles of Wisconsin, who is chairman of the committee on Indian affairs and who made a tour of the Indian reservations last summer with Indian Commissioner Jones, during the day talked to the president about the Indian question generally. He agrees with Commissioner Jones in the belief that to make the Indian self-supporting should be the first object of government and that its attainment would solve the problem. Progress in that regard, he says, must proceed slowly. In a general way he thinks the first step must be the breaking up of tribal relations, the allotment of the land in severalty and the collection of the Indian youth to public schools. The Indian practically should become a citizen.

Supplies for Colombia Liberate.

Antwerp, Nov. 25.—The British steamer "Harrish," which was detained at the Victoria docks, London, by officers of the commission of the navy here, has carried a large cargo of supplies of war intended for the Colombian Liberals, including 4,000 cases of cartridges and 1,000 cases of rifles, machine guns and munitions.

ATTORNEY GENERAL TALKS.

He Has Returned From His Hunting Trip And Will Wrestle With the Railway Trust Problem.

W. B. Douglas, attorney general of Minnesota, has returned from his hunting trip, and has morning breakfast on his armor and tackled the problem of the railway trust.

Mr. Douglas is in hearty accord with Governor Van Sant and will lend his utmost efforts to thwart the schemes of the combine. He is still of the opinion that the combination does not violate the letter of the law, though in plain opposition to the spirit of the act.

This does not mean that the trust cannot be crushed. As already intimated, there are several remedies, some of which Mr. Douglas suggests. There is a proceeding under the Sherman anti-trust law, and under the interstate commerce law, with other remedies hardly to be discussed at this time. Mr. Douglas lays out the following statement last evening:

"I had not seen a newspaper for two weeks, and knew nothing of the agitation until yesterday. I was at the shore trying to get out for two days, but the heavy storms prevented the boats from landing. I have not had time to consider the matter thoroughly, and speak only in a general way.

"I shall earnestly co-operate with Governor Van Sant in fighting any consolidation which is in violation of law, and will do anything in my power to encourage further legislation of a practical nature, either state or national, which is calculated to preserve competition.

"The organization of this great New Jersey corporation for the controlling interest in the stock of rival railway companies—two of which cross and recross Minnesota—is a clear violation of the spirit, although not the letter of the act of 1881, the validity of which was sustained by the supreme court of the United States in the Presidential case.

"I am not in a position to discuss remedies, but am under the impression that interference by the federal government, under the Sherman anti-trust act and the interstate commerce act, is likely to bring about good results.

"It may be that litigation instituted by the state looking to the cancellation of some unused railway franchises may be of slight assistance. Other proceedings, at law which I feel it inopportune to discuss, may also be of value.

"At this moment I feel like calling attention to a suggestion I have repeatedly made, that congress should pass an act proposing for adoption by the constitutional majority of the various states, an amendment to the federal constitution among other things authorizing the taxation of monopolies on perhaps both an income and a property basis, and at an increasing rate. I predict that the vigorous exercise of this power by congress with the constitutional aid of the various states, will make the Sherman monopoly unpopular in any form."

Minneapolis Journal.

ASTHMA CURE FREE!

Asthma Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthma, which brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. G. W. Wells, of Villa Lodge, Ill., says: "Four trial bottles of Asthma Cure secured in good condition. I cannot tell you how thankful I am for the good result. From it, I was a slave chained with painful coughs and sneezes for ten years. I supposed never being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overpromised, but, to my surprise, the trial acted like a charm. Send me a full-sized bottle."

Rev. Dr. Morris Wechsler, Editor of the Cong. Dist. News, New York, Jan. 4, 1901.

Dr. Tapp Broos, Manchester Co., Gentlemen: Your Asthma Cure is the most readily for Asthma and Hay Fever and its sympathetic ailments. It relieves which combats with Asthma. Its relief is noticeable and wonderful.

THINKS BROTHER IS THE MAN DROWNED

Man Drowned Near Park Rapids Thought to Be Brother of William Rogers.

ANSWERS DESCRIPTION EXACTLY

Authorities at Park Rapids Also of Opinion That Conclusions Are Right.

Monday The Daily Dispatch contained a small item referring to the drowning of James Rogers at Little Man Trap lake, not far from Park Rapids, and last night William Rogers, who was employed on the circulation department of The Dispatch a few months ago, but who recently took a position at Edstrom's laundry, noticed the little reference to the affair and at once commenced an investigation, he being of the opinion that the Rogers referred to was none other than his own brother.

When he called at The Dispatch office and the account of the drowning and description of the man who had drowned was read his conclusions began to be realized and Mr. Rogers more firmly than before believed that the man who was drowned was none other than his brother. When the realization dawned upon him, the information that the boat was an indirect manner, Mr. Rogers was not only affected. The account of the drowning in the Hubbard County Enterprise was as follows:

Nick Eschenz brought the news in late last evening that a man had been drowned at Little Man Trap lake a few hours before.

It seems that James Rogers at the close of the day's work about 5:30 p. m., attempted to cross the lake on his way back to camp No. 5 of the H. C. Akley Lumber Co. It was growing dark at the time. When some way across parties on the opposite bank noticed Rogers get down through the ice. Before assistance could reach him he was drowned. Up to the time Mr. Eschenz started for town the body had not been found.

"Inquiry made at the office of the Akley Lumber Co. threw very little light on who the man was. Mr. Sauerley said that he should judge him to be about 40 years of age and that he came here from Minneapolis. Efforts have been made by wire to reach some of his folks. If he has any but they have not been successful. He was unmarried as far as known."

Mr. Rogers at once called up Park Rapids by telephone and as he was quite well acquainted there he thought that perhaps those who knew that James Rogers was a brother of his would recognize the features of the dead man in this connection. They of course did not realize this fact until Mr. Rogers called them up. Then it was that a gentleman who had been introduced by William Rogers to his brother James, realized that the man might possibly be Mr. Rogers' brother. The description of the age and the fact that the man was unmarried are almost conclusive evidence that he was none other than the James Rogers referred to. James Rogers, brother of William Rogers of this city, had gone up to that country sometime ago to work on the new road being built by Walker & Akley. He is a carpenter by trade and had been working there for some little time. Another reason which made Mr. Rogers suspicious was the fact that his brother had expected to come down to Brainerd recently, the last of week, but did not show up.

There is a gentleman in the city who saw the man after he was taken from the water Friday and he knew both the dead man and his brother in this city. He is positive that the conclusions were rightly dispensed. Mr. Rogers has telephoned the authorities at Park Rapids and he expects to learn more of the details before night either by letter or wire. It is an extremely sad case and Mr. Rogers has the sympathy of his many friends in this city.

Reliable and Gentle.

"A pill's a pill," says the saw. But there are pills and pills. You need a pill which is certain, thorough and gentle. Minnie's grippe. Dewitt's Little Early Bitters fill the bill. Purely vegetable. Do not force but cause the bowels to act. Strengthen and invigorate. Small and easy to take. H. P. Dunn & Co.

New line of trunks at D. M. Clark & Co.

ACTIONS AGAINST T. R. FOEY.

In the United States Court at Duluth for the First District.

Alleged Unlawful Appropriation of Pine Timber.

The United States has begun two new actions against the T. R. Foey company of Aitkin, Minn., for alleged unlawful appropriation of pine timber cut on government lands, making four in all, says the Duluth Herald.

The third and fourth complaints were filed in United States circuit court by Frederick N. Dickson, assistant district United States attorney. The third complaint alleges that between Jan. 1 and April 1, 1889, the defendant company did unlawfully cut and remove from government lands in section 22, 49-24, Itaska county, 423 white pine trees containing 200,000 feet. The government alleges that the logs were floated down the Mississippi river to Guttenberg, Iowa, where they were converted into lumber and disposed of by the defendant. The government asks judgment for \$4625 and costs of the suit. This is being the cost of the white pine at \$15 per thousand feet.

The fourth complaint alleges that the defendant between Sept. 1, 1898 and Jan. 1, 1900, cut and removed from government lands in sections 19, 23 and 24, 49-22, white pine trees amounting to 340, containing 271,078 feet of lumber, and 181 Norway pine trees containing 57,175 feet. It is alleged that the logs were taken to the booms on the Mississippi and Run rivers and taken to Guttenberg, Iowa, where they were made into lumber for the benefit of the defendant. In this complaint the government asks judgment for \$4667.50.

The Children's Friend.

You'll have a cold this winter. Maybe you have one now. Your children will suffer too. For coughs, croup, bronchitis, grip and other winter complaints the Minute Cough Cure never fails. Act promptly. It is very pleasant to the taste and perfectly harmless. C. G. George, Winchester, Ky., writes: "Our little girl was attacked with croup late one night and was so hoarse she could hardly speak. We gave her a few doses of Minute Cough Cure. It relieved her immediately and she went to sleep. When she awoke next morning there was no sign of hoarseness or croup." H. P. Dunn & Co.

Joyal Prends Gully.

Adelaide Joyal, who shot and almost killed his wife at St. Cloud, changed his plea in district court yesterday from guilty to guilty.

Will Defend McDonald.

Judge Fleming retained in very important case at the term of Court held in field at Walker.

Buried by Malice Lead.

Cleveland, Nov. 19.—An explosion of molten metal at the Central blast furnace buried Stephen Timbo, a Slav, beneath the burning mass. His body has not been recovered and he is believed to be dead. James Davis, a negro fellow workman, is at the hospital fatally burned. Two other workmen in the vicinity escaped unhurt.

May Return to Canada.

Ottawa, Oct. 19.—Cables are passing between the imperial and republican governments in regard to cutting another contingent of troops from Canada for service in South Africa. The only thing that Canada is likely to do in this matter is to affect any facilities that Great Britain may desire for recruiting in Canada.

To Prevent Spread of Tuberculosis.

Washington, Nov. 19.—The army in the Philippines is taking precautions against the spread of tuberculosis. Copies of a circular recently printed by the headquarters of the division of the Philippines absolutely prohibit the practice of spitting on the floors or walls of buildings under military control.

JUDGE FLEMING INVESTS IN REALTY

Buys Over Twenty-Three Hundred Acres of Crow Wing County Real Estate

IN NORTHERN PART OF COUNTY

The Judge also Makes Another Purchase Near the Town of Garrison

Judge W. A. Fleming has just completed a deal for a very large tract of land in the northern part of Crow Wing county, lying in township 128, range 28, which takes in something like 2300 acres.

It is one of the finest tracts of land in the county and a good price was paid for the land, although the judge paid cash.

The land will probably be kept by the buyer, who will either keep it for speculation or make some improvements on the same. It was bought through the J. L. Smith agency of this city.

This piece of property in connection with the Coffel farm near Garrison bought recently by Mr. Fleming will add greatly to his landed interests in the county.

HOWELL LEAD GUILTY.

The St. Cloud Treading Machine Declines to Enter This Plea in District Court This Morning.

When the district court convened at St. Cloud this morning L. R. Howell, the young man who was indicted by the grand jury on the charge of embezzling money from the St. Cloud Grocery company, appeared in court and entered a plea of guilty. Sentence was not passed.

The action of Mr. Howell at the time caused some little surprise as it was thought that he stood a very good show of being acquitted. Only last night several of the traveling men of that place raised quite a sum of money to defray the expense of putting up a defense.

LOCATES IN BRAINERD.

Sam Chute, Civil Engineer, formerly of St. Cloud, Has Decided to Open An Office Here.

Civil Engineer Samuel Chute arrived in the city Monday afternoon from St. Cloud. Some time ago Mr. Chute came to this city to look the ground over with a view to locating here. He decided that Brainerd was about the place he would like to settle down in, as there appeared to be particularly flattering inducements for a town in his line.

He was formerly city engineer of St. Cloud and lived there for years. He will be out for business here as soon as he can find an office.

UNION SAM HAS THE EARTH HESSEL HAS THE TROUSERS TO WORK IT.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure CATARRH of the bladder with salts, gams, inhalers and drugs in vain. Their powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have recommended. The only cure that cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the remedy known to scientists that instantly reaches the afflicted parts. This wonderful remedy is known as "Squibler's Guaranteed Catarrh Cure" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfected use.

"Squibler's" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for the annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or Colds in the Head.

Catarrh when neglected often leads to Consumption. "Squibler's" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition and you will receive special advice from the discoverer of this wonderful remedy. Regarding your case without cost to you beyond the regular price of "Squibler's" the Guaranteed Catarrh Cure.

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept., Edwin B. Giles & Company, 2500 and 2502 Market Street, Philadelphia.

REFORMATORY IMPROVEMENTS.

State Board of Control Provides for Some Improvements at the Institution at St. Cloud.

The state board of control, besides improving the water supply at the St. Cloud Reformatory, will enlarge the stone cutting shop to twice its present size, says the Pioneer Press. The building is a large circular structure with a large central derrick for hoisting and placing the stone. It now has room for forty-one men. When the shops are enlarged it will have accommodations for eighty of the 169 men at the reformatory.

The work will be done by the men in the reformatory. The building was built of lumber but the remodelled structure will be entirely of stone cut and trimmed by the men. The only cost to the state will be for an extension of the roof.

R. E. Lee and Judge Gould returned yesterday from a meeting of the board at St. Cloud. They located the new well which is to supply water for the reformatory. The well will be about 300 feet out of the reformatory. It is expected that an ample supply of water will be found within fifty feet of the surface.

The board will advertise for bids on two two-cylinder portable gasoline engines which will operate the pumps at the well. A six-inch main will carry the water to the reformatory.

TO CURE A COUGH.

Stop coughing, as it irritates the lungs and gives them no chance to heal. Foey's Honey and Tar cures every cough at once. It is a relief all soreness. Take one box of Foey's Honey and Tar at once. H. P. Dunn & Co., & McFadden Drug Co.
