OUR NEW OFFICE.

We returned last Saturday from a trip of a week's duration, in which time we selected from the St. Paul Type Foundry a completely new newspaper and job office.

OFFICE OF STATE AUDITOR.

This is one of the offices to be filled in the next election, and who will be the nominee of the Republican party, seems to be the question.

THE Wabasha Herald reports the failure of the banking house of N. T. Webb & Co., who have made an assignment to James G. Lawrence and E. M. Bidsley.

COMPLIMENTS TO BRAINERD.

The Duluth Tribune, of a recent date, pays the following truthful and handsome compliment to our flourishing young city, and likewise speaks well of the Brainerd Tribune and its manager.

It is now very evident that Brainerd is to be one of the best towns in Minnesota. Indeed, we are inclined to think that, next to Duluth, its growth has been more rapid than any other town in the State.

The Tribune then proceeds to copy from our paper several articles of a local character, among which was one relative to the Headquarters Hotel.

When a mere boy, thirty-two years ago - we well remember Mr. Lytle at Logansport, Ind., where for a long time he held one of the most prominent and responsible offices in the county.

Nothing has been done as yet toward giving the United States a representation among the scientific expeditions now being prepared to observe the transit of Venus in 1874.

THE Rochester Post notices the arrival at that place of the surveying party engaged in running the line of the Davenport and St. Paul Railroad.

THE Otter Tail City Record says a depot will soon be built at Motion Station, on the N. P. R., and that Mr. Wegmuth is to put up a large hotel.

THE Danbury, Ct. News says: "A young lady in a neighboring town has taken up dentistry for a living."

It is reported that the Committee of Ways and Means of the House of Representatives has decided to recommend that the duties on raw wool be reduced to an average of 30 per cent.

Washington's "Farewell Address" contains these words of wise counsel: "Promote as an object of primary importance institutions for the general diffusion of knowledge."

Fraunce will have hereafter but one executioner, who will be stationed at Paris. Hereofore every large town has had one, but the government thinks it necessary to "cut down" its expenses.

The unsuspecting widow of a Michigan farmer applied recently for a divorce, as her husband had been dead four years and she wanted to marry again.

The death of one of the jurors in the case of Mayor Hall necessitates the commencement of the trial again.

It is affirmed as probable that of the ninety millions of insurance in Chicago at the time of the fire, about sixty will be paid. This is doing pretty well.

"BACK-LOG STUDIES."

In this unique series of papers now appearing in Scribner's Monthly, Mr. Warner, author of "My Summer in the Garden," is doing his best work.

The Duluth Herald says the Dyke, on counting the discount on the bonds sold to realize the money to pay for it, and the cost in the suits instituted against its construction by Superior City, stands that city about \$50,000.

A movement is being made by Bishop Whipple to erect a new Divinity Hall at Fairbairn. Hon. H. T. Wells, of Minneapolis heads the subscription list with \$5,000.

Mr. Child three years old, son of Mr. M. Goodsell, of Glenwood Prairie, Otsego county, fell so into immersion both arms into a kettle containing some kind of boiling fluid, a few days ago.

A Norwegian named Hanson, residing at Hokab, and a "section boss" on the Southern Minnesota Railroad, attempted to commit suicide near the village on Thursday evening last.

THE Town elections in New York State show immense Republican gains. -Thiers, on the 13th, gave final notice to England of the renunciation by France of the commercial treaty between the two nations.

A young woman delegate in the recent Ohio convention of women suffragists, plainly said: "For my own part, I love men, individually and collectively, better than women: and so, I am sure, does every one of my sex, if they, like me, would utter their real sentiments."

Col. Stevens in the Farmers' Union says it won't do to be too sure that the potato bug is a thing of the past. In clearing off the banking around some buildings a few days ago he came across a full fledged one, who, upon being placed under a stove, became as lively as if upon a tender green hill of potatoes in July.

Among the warmest friends of the one-term principle are the convicts at Sing Sing.
