CIVIL WAR AGAIN.
 The "new crop" of rebels in the Southern States can no longer suppress their anxiety to show to an admiring world that they are capable, and crazy for the chance, to perform what their fathers failed to accomplish in the war—i. e. the vanquishment of the men of the North, the secession of the Southern States, and the establishment of a government of their own, run upon a slavery basis, and conducted by as very a set of hell-devils as was ever let loose. The spirit we discovered, in a smoldering condition, during a three years' residence in the Southern States, and of which we spoke upon our return on many occasions in private conversation, has burst out exactly as we saw it must, in several of the Southern States, culminating a few days ago in New Orleans, by the overthrow of the State government, and the usurpation of the same by the "new crop" of rebels, composed of traitors ten-fold worse than the most despicable of the rebels of 1860-4. Gov. Kellogg, and all the other State officials of Louisiana, have been run out of their positions, seeking protection in the U. S. Custom House, sixty innocent police and other officials, have been slain in the streets of New Orleans, negroes are being Ku-Kluxed by wholesale in various Southern States, the Government is being insulted and scoffed at on every hand, and did the new crop of rebels possess the arms and other munitions of war, thousands of helpless blacks, and residents there from the North, would be to-day under the knife, and be massacred in a manner that would double-discount the most hellish incidents of Indian history.—We are entirely prepared for the worst that has, or may come over the wires, from the damnable South, because while sojourning in those States we saw that a worse rebellion, and acts that would chill the heart of a rock, on the part of the new crop of intensified, double-distilled rebels growing up, must and would come. The items from thence of this summer are but the faint shadow of what is on the road to our doors—mark our word for it—and unless the Government take the bull by the horns, and bring the heel of its power down early, and once for all, the history of this country will within five years to come, be stained with blackened deeds, compared with which the worst incidents of our past history will be white as snow.

FORT RIPLEY RESERVATION.—The Attorney General has entered suit against General S. C. Jones for the balance of \$179,902 due the Government for the sale of the Fort Ripley military reservation in this State.—The sale was made some sixteen years ago, and embraced a tract of 60,000 acres, and the above sum is the balance that remained after paying the expense of survey, advertisement, &c. Owing to the excitement about the sale of the Fort Snelling reservation by Secretary Floyd, this sale was not confirmed by the War Department, and has it been confirmed to this day. It is a curious illustration of the way the Department does business, that the Government should bring suit when it has not confirmed the sale yet, and is not entitled to one cent unless the sale be recognized. This land is very valuable. The purchasers are anxious to have the matter settled. Gen. Jones is ready to pay the balance over as soon as the Government shall approve the sale.

CERTIFICATES OF STANDING.—Parents may expect their children attending school to receive each month a certificate of standing from their teacher, whereby parents may know how their little ones are progressing.

WHAT IT TEACHES.
 The corruption in office that has in several instances been brought to light the past year or two, in State and National positions, teaches the one great lesson upon the precepts of which rests the safety of our Republican institutions—the lesson of rotation in office. That the individuals of any one party are more honest than the individuals of another party, is a nonsensical idea, opportunities being equal. All corruptions in public affairs, with scarcely an exception, are dug out of places filled, term after term, by the same person. And with too long a lease of power, we trust no man, for no man is perfect; no man is infallible. The only safety the people have; the only strong barrier against corruption and rottenness, is a change, or a rotation in every important position within their gift.—A faithful officer should, properly, as an acknowledgment of gratitude from the people to their servants, be complimented by a second term, but no more; at any rate, until she position has been conferred upon and held by another. This precaution taken, corruption and swindling would very soon be comparatively unheard of in positions of trust, and the spirit and intent of the Constitution, the Declaration, and of the Founders of this Government, will be carried out—and the Republic stand like a rock till the end of time.

The Judicial Convention.
 Pursuant to call, the Judicial Convention for the Eleventh District convened at By's Hall on Thursday the 17th inst., in this city, the various counties in the new "Eleventh" being fully represented, excepting Beltrami and Traverse.
 Judge E. F. Parker of Duluth, was elected temporary chairman, who made some well timed remarks, on taking the seat, and W. W. Hartley temporary Secretary of the Convention.
 The chairman appointed as committee on credentials Messrs. Esnig, of Duluth, Constock, of Moorhead, and Steel of Brainerd.
 The committee made their report of the members entitled to seats, which was adopted, and the committee discharged.
 The temporary organization, of the Convention was declared to be the permanent organization.
 On motion, nominations were made in order.
 Judge Reynolds, in a few remarks presented the name of the present acting Judge—O. P. Stearns, of Duluth, for election by the Convention.
 J. W. Steel, Esq., presented the name Captain C. B. Sleeper, of Brainerd, in a neat little speech.
 At this juncture, a communication was received, from Capt. C. B. Sleeper, declining to be a candidate, as follows:

DEAN SIR,—Be kind enough to announce to the convention over which you preside, that I am not a candidate for nomination to your convention.
 I desire to avail myself of this opportunity to thank those friends who have kindly tendered their aid in the event of my being a candidate for Judge, and to assure them, one and all, that I shall gratefully cherish their good opinion of me in whatever relation they may hereafter be placed.
 I have the honor to be very truly Yours, &c.,
 C. B. SLEEPER.
 On motion of J. W. Steel, Judge O. P. Stearns was then nominated by acclamation, and it was made unanimous amid great applause.
 On motion a committee of three (Gatchell, Steel and Cary) was appointed to wait on Judge Stearns and Captain Sleeper and request their presence in the convention.
 Meantime the Chairman was instructed to appoint a republican Judicial District Central Committee for the Eleventh District. The following gentlemen were appointed as such committee:
 R. Reynolds, of Becker. Chairman;
 W. W. Hartley, of Crow Wing, D. W. Cash, of St. Louis, E. G. Comstock, of Clay, and P. A. Gatchell, of Wadena.
 At this point the committee returned, accompanied by Messrs. Stearns and Sleeper, who were both received with applause. Judge Stearns was informed of his nomination and introduced to the convention by the Chairman. Mr. Stearns came forward and addressed the convention, thanking them cordially for the honor conferred, and accepting the nomination. The Judge's remarks were somewhat extended, touching upon the duties and responsibilities of a Judge, and upon other well timed points, closing with remarks of high regard for Mr. Sleeper, who was next loudly called for.
 (Here the chairman arose and presumed that "unless Mr. Stearns had been nominated, Mr. Sleeper, certainly would have been—applause.)
 Mr. Sleeper made a short address of thanks for the consideration he had received at the hands of the convention.
 The convention then adjourned, peace and harmony prevailing.

C. A. Ruffee Nominated.
 We are pleased to receive news from the Sauk Rapids Legislative Convention, for this 30th District, to the effect that C. A. Ruffee, our Crow Wing candidate, was nominated on the fourth ballot, for Representative to the Legislature, to be supported by the Republicans of the District at the coming election.
 While there were several good names presented to the Convention, yet we are sure the name of no better man, in all respects came before that body for the honor sought. The Convention has certainly done credit to themselves and honor to the party in selecting Mr. Ruffee as the Republican standard bearer for this district, and we venture the assertion that he will be elected by the largest majority ever given any man in the District. And, further, that after election, he will honor us, as we never have been honored in the halls of the Legislature, and be a most useful and emphatically impartial Representative of the whole District.
 Mr. Ruffee is a most worthy gentleman, of very extensive acquaintance, great popularity large influence among the leading men of the State, and is just the man who can and will do us great good in all our local interests throughout the District; and we hope now that a man is before the people, so eminently qualified to decently and creditably represent the respectable and intelligent people of the Thirtieth District, that all will take an interest in insuring his election by an overwhelming majority. Do not let local jealousies, and corrupt local rings again cut off our nose to spite our face. And if there is yet a spark of honor and decency remaining in politics let it be apparent hereafter. Because it is time the people stood up for their rights, and best good, and elect to office representative and honorable men, and hurl from their necks the yoke that corrupt politicians are striving to bind them in. Such conduct in the politics of this District as has been indulged in for the past two years, and the results thereof, if further permitted by the people, is enough to damn the name of politics and a Republic beyond redemption. But we have faith that this fall the people will show that their wishes and their best interests is the law.

BUSINESS.
 Coming down town the other morning, with an axe on our shoulder, we met a man with a mattress on his back, and still another with a saw and buck, and noticed two or three men hustling along with rapid gait hither and thither across the square. The sight of so much life and business astonished us, and we stopped the wood Sawyer and interrogated him as to why all this remarkable business was going on this morning. He said, "a man wash gone to town this morning, already; and he say to Northern Pacific Railroad wash goin' to be built to der Plack Hills rad away, already, dish fall, sure mit der ra'road." We remarked "So-o?" "Yaw! sure!" remarked the Teuton. "Dot man he vore a great pig hat, unt baper collar, unt wash a big man on der ra'road, und dot man know his pishness about what he talks, unt when he talk mit der beoples at der tepo, der wash great oxidement about der folks at der ra'road; und dot man he say he vhill make five hundred mans in ter machine shops rat away, und puld der Brainerd Branch an' der switch down to der Poom Lake, und make a pig, pig mills down der ra'road, und make five hundred more mans down in der mills, und Brainerd him be a pig, pig town, rat off, all der while, already." This news seeming to be so entirely reliable, and, without more than probable, we sought our office by way of the back alley, lest we should meet some man who would contradict the rumor, and ruin our prospects for giving our readers a red-hot item of news. And now, as for ourself, we feel sure that all this will be done and more; for didn't the wood Sawyer hear a man say so? and no gentleman would say such a thing unless it was so—especially if he wore "pig hat and a baper collar." So, all laborers and mechanics should promptly raise their wages to a Black Hills' standard, potatoes should go up to twenty cents a pound, gold; and real estate be doubled every day for a month, and every man get right on the rampage, and stay on it, whether the rumor proves true or not—but no gentleman would say so unless it was so. Even so.

Another Richmond in the Field.
 Mr. C. A. Tuttle, of Two Rivers, Morrison County, announces his name for the House, in this Legislative district. Mr. T. runs independently, and is of Democratic proclivities.
 Every decade has its rage. This one seems to be devoted to hauling preachers out of their holes and placing them on the gridiron of persecution. Instance, Beecher, Chaffee Glendinning, and a dozen others who are now on it—the gridiron.
 The struggle over the civil rights bill in Congress has fired the Southern heart against the measure, and against the black race. Hideous outrages are of daily occurrence throughout the South. The Government is asked to put a stop to the lawless proceedings, which it promises to do at once.
 The Sauk Rapids Courier is about to be removed to Little Falls, where it will be published in the future. We are glad to welcome Mrs. Wood and her spicy Courier to a near neighborhood, but promise that if her and our chickens ever get mixed, it won't be our fault. We shall do our part to prevent such a calamity.
 MILLINERY.—Miss Jennie Dee is now below purchasing a magnificent stock of fall and winter millinery goods, which she will have on exhibition and sale at her store, West Front Street, in a few days. The ladies of Brainerd are cordially invited to call and see the sights in millinery goods.

THE ASHLAND (Wis.) Press comes to us with a very lengthy, but, withal, fair and interesting correspondence, on the Northern Pacific country, written by some one who understands well how to wrestle a "Faber No. 2." The regular "other party" candidate for the House in this Legislative District, is one C. H. Chaddbourne, of Sherburne county. C. A. Ruffee, Esq., we predict, can most easily get away with that man, yooost so easy like nodding.
Good for Everybody.—We are pleased to learn that the nomination of our friend and co-struggler, E. B. Chambers, Esq., of the *Glyndon Gazette*, for the Legislature, is now admitted out there as a foregone conclusion. This cheers us; because this upper country needs representative men, instead of puffy men or basswood sticks, as has heretofore been too common. Chambers will make a red hot legislator, and if the people of that District will try him once they will want him again—our word for it. Editors are never frauds, and always have more in their heads than—than anybody would suppose, you see.
Big Taxes.—Yesterday morning, Mr. Mike Smith, who has charge of the great Northern Pacific Tree Nursery out in Dakota, at Goose Creek, brought into our office a lot of potatoes as a sample of what he has produced in that line out in that most wonderfully fertile region. Part of them are early roses, and part of another kind, name not known. He planted them the 29th of May, and their size is uniform and ponderous beyond belief almost. From one potato, cut into thirty-two pieces, that he planted, he raised six bushels of the finest and largest we ever saw. The nursery is doing splendidly, and Mr. Smith is now engaged in fixing his millions of young trees in shape to get through the winter.

Green White Wine Vinegar, warranted to keep Pickles a year, at CANTWELL'S.

Give Us the Name.
 We ask, is the most respectful manner at our command, and with the greatest humility, in fact, that the Party now in opposition to the Republican party, give us its name. We have watched things like a hawk for the past year, to get a clue to it—a correct knowledge of the name—but even now we must confess our ignorance of the name of the "other party." Has it any? Isn't it worth a name, or what is the matter? Call it something, boys, and then let us know what it is. We are fearfully perplexed at times, because we don't know the name of the "other party." Better call it a "loan," than nothing.
JOHN ROSS many friends along the N. P., in the construction of which his was the "master mind," will no doubt be pleased to hear that he passed through here last week bound for Ottawa, Ont., with the charter of a new line of Railroad in his pocket, starting from Fort Garry, and in a future issue we will state where it is to terminate. Mr. Ross speaks in the most enthusiastic terms of the Fort Garry and Saskatchewan country, and seems to be quite positive that he will commence work on his new road early in the spring.
SARGANT F. W. BRYANT, Co. "G," 20th Infantry, who has been stationed at Fort Ripley, for five years, has served out his full time, which expired yesterday. The accomplished Sargeant, will spend the coming winter in Washington, New York and Europe, and return in the Spring to the Northern Pacific country to embark in some civil calling. Sargeant Bryant is an educated and refined young gentleman, a good writer, and will make a valuable member of any community, and we wish him abundant success in the pursuits of a business life. We hope he may "turn into" a Northern Pacific journalist; as he is well fitted and calculated for the profession.
 We see by a New Brunswick paper that the noted "John Smith" is dead. This is cheering news; he was seventy-five years old, and unless he left too many thousand junior John Smiths, there will be reasonable ground for hope that in the course of three or four centuries, humanity will be given a rest on the ever present name of John Smith. We await with anxiety now, to announce the demise of the original John Brown and Peleg Jones, who have always been co-workers of John Smith in the endeavor to crowd all other names out of existence. But against their combined onslaughts, the name of Hans Lunkenheimer and Tim. Murphy has stood as an insurmountable barrier and protector of all the rest of us, as against their encroachments; otherwise we should by this time have all been John Smiths, John Browns and Peleg Joneses.
GOOD FOR EVERYBODY.—We are pleased to learn that the nomination of our friend and co-struggler, E. B. Chambers, Esq., of the *Glyndon Gazette*, for the Legislature, is now admitted out there as a foregone conclusion. This cheers us; because this upper country needs representative men, instead of puffy men or basswood sticks, as has heretofore been too common. Chambers will make a red hot legislator, and if the people of that District will try him once they will want him again—our word for it. Editors are never frauds, and always have more in their heads than—than anybody would suppose, you see.

EDITORIAL NOTES.
 A good year for candidates this. The first frost of the season visited us on Monday night.
 A cold mine was recently discovered in the vicinity of Brainerd.
 Ir. Cox, of St. Peter, declines to run for Congress, let them try Box, of Washaw, a clatter.
 EDNA DEAN PROCTOR has sued Moulton for libel, in which the damages are laid at \$100,000.
 The "Pioneer" is not a Democratic paper; it is an independent paper, opposed to the Republican party.
 For a first class—1 of a time, we respectfully refer an anxious world to the local politics of Otter Tail County.
 KING will be elected, Straight will be elected, and Dunnell will be elected. Waite, Coxey & Co., are out of luck this time.
 The St. Paul Dispatch intimates that Col. King will make a straight shoot for Bluff Aleck's place in the U. S. Senate, the coming winter.
 The fear that "daughters will marry niggers" is again having a little "run." If the daughters are colored daughters, we see no cause for alarm.
 "PA, I want a sled! for there's a whole lot of slippery on the sidewalk," said a Brainerd four year old on Tuesday morning, upon discovering the frost.
 It is just 5,685 years last Friday evening, since this world was made. The Divine Architect made it then, and man has raised h—l on it ever since.
 GEN. SIBLEY is mentioned as Mr. King's probable opponent, in this Congressional district. The Col. can polish him off, and not half try. By all means, trot out Sibley.
 DONNELLY, we suspicion, wants to abbreviate his name to Cox, in Second District politics. Cox is about to withdraw his name—having evidently got into the wrong box.
 The "Danbury News Man" is traveling in Europe. He has about written himself to death. His letters home are so "dry" that his subscribers are using them for kindling.
 THE Audubon Journal will re-appear to-day, with Justus Emmeluth at the helm, as editor and publisher. We hope "Just" will make a success of his venture. He deserves to, anyway.
 THE Ashland (Wis.) Press comes to us with a very lengthy, but, withal, fair and interesting correspondence, on the Northern Pacific country, written by some one who understands well how to wrestle a "Faber No. 2."

FOR PAINS IN THE BACK, rheumatism, coughing, spitting, itch, measles, "spinal affection," or scrofula, just rub Moulton's last "Statement" on the parts affected, and it will either kill or cure—you bet.
 Has any man in this community ever had a "paroxysmal" kiss, and if so, what came of it? If any such instance is on record here, we desire to interview the recorder, and will give a liberal premium. We desire that Brainerd shall not be behind in anything—not even a "paroxysmal" kiss.
 Our State Fair this year was thus Superior in its display of pumpkins and things; short by half in its receipts, compared to last year. Reason—too much pumpkin, and not enough horse-race. Pumpkins are too "old" to compete with fast horses; as is now proved. The Society must reverse things next year.
 Our "City of the Pines" was this week honored by a greater number of distinguished visitors than usual, because of the assembling of the Judicial Convention here. There has been too many for us to mention all, so we shall mention none, except Judge E. F. Parker, one of the editors of that able paper, the Duluth Minnesotan, who made us a pleasant call.
 We are in receipt of a fine lithograph picture of General Custer, given as a premium to every subscriber to the *Bismarck Tribune*. We never saw Custer, but the picture gives evidence that the original is a dare devil, brilliant, or sort of "red-hot" army officer, whose "boys" would follow into the jaws of death if necessary, and call it a good thing. Custer is a *Cus*, and the *Tribune* is enterprising.
FREDRICK COOPER, of St. Cloud, accompanied by Mr. Simpson, both of whom are "internally" affected, spent yesterday with us. We mean to say, they are both *Western* Revenue officers, and were here to see if our "drinks" were properly stamped.—Finding that we used, as usual, nothing but the right "stamp," as a beverage, they let us all severely alone, and retired to the basswood shades of St. Cloud again. Come up, occasionally, boys, and see how it is yourself,—always glad to welcome you, you know.
 We received eight letters, containing eight circulars, by the same mail, from Minneapolis, announcing that Dr. O'Leary was to lecture at the Opera House there, before mixed audiences on the subjects of "Lean people, nervous people, hot head, cold feet, sour stomach," etc., etc.
 The sender of these circulars has called our especial attention to "sour stomach" and "cold feet," by marking around them. We can assure the Doctor that printer's fare never induces either sour stomach or gout; if he has anything to prevent a hole, or vacuum, in the stomach, we'll take three boxes of it, however. As for "cold feet" our wife never complains, and as long as she can stand it, we can.
PERSONAL.—We had the pleasure of a call from Mr. N. F. Knappen, yesterday, who stopped over a day in our beautiful city, on his way below from Bismarck, just to get a few life-giving sniffs of the pine aroma which does much about in these immediate parts, like Mr. Knappen is a printer, a "good boy," and was the correspondent with Custer's expedition to the Black Hills, for the *Chicago* and the *Bismarck Tribune*. He will return with Custer to the Hills in the spring, and go to work on the claim he staked out, and when he gets all the big chunks of gold rolled out of it, it will be to us what's left—which will probably net us about three million, or so; and when we get it, we shall build a first class poor-house for those who didn't happen to be there, and then go on a "bust"—of course.
Messrs. FERRIS & HANS are putting up as addition to their place of business, on Laurel Street, which is designed for a refreshment hall. These gentlemen will make a specialty of serving systems in every imaginable style, when they get ready for business, and will also furnish any other delicacies the season may demand. They are good fellows, and deserve to prosper.
 Just call at Marshall & Campbell's and examine their Goods and Prices.
A LARGE Invoice of Swedish Cakes, just received at

Summer-Tide.
There are blossoms in the garden street and fair;
There's a sense of wondrous fragrance in the air;
And the meadow-grass is waving,
The fields breathe a-swaying,
And the daisies lift their white heads every-where.

The point is to keep it where the plant is, which in a sandy soil, being loam and porous, is difficult. If not taken up by the plant in a given time, it is in the ground water, and will be lost. It is folly then to put it down as once by the plow, which is aiding its disappearance. Neither will it do to apply in the fall, particularly if done early, and leave there till spring, when the crop is sown. Some of the strength will wash down, and set beyond the reach of the roots; the latter growth will have but little left to benefit it. If a heavy coat of manure is given, there will be more growth, also more loam. The point is to apply it when the grain is sown, mixing manure, seed and soil with the harrow, a light harrow being preferable.

To seed to grass or clover the same rule holds. It will not do so well apply the manure in the fall, either with the wheat crop sown, or for land then prepared and sown in the spring. Timothy may be sown with the wheat if put in early, or better in the spring if the manure can be applied. The best land sown in the spring, but cover the seed in a sandy soil. The seedling started, it can be kept growing by yearly applications of top-dressing till a good sod is established. Sheep will help do this. The sod turned down light, not exceeding four inches—thinner if the manure had been better—crops of grain can be raised, with or without additional manure. But the year following manure must be added whether grain is sown or the land put to grass or clover, light plowing continued so as to keep the fertility of the surface. It must be kept there as much as possible always in a sandy soil. The principle is so obvious to be misunderstood. And so is an excellent material for this, being well distributed through the surface soil, and held there longer by the particles than in its decomposition. For this reason also manure has an advantage, letting loose gradually its substance.

In this way the land can be worked right along profitably, and improved all the while, with but little of the fertility lost that is applied. A heavy dressing will do more in the long run. Hence light and frequent applications is the true theory. I find it also the practice in sections I have visited where the land is leechy. Parts of Steuben county, New York, are of this character, where I first got my ideas of the benefit of such soil. But the attention to the land must not be remitted, else it will soon go back to its original state, when trees or root-rotting alone can retain a footing. It is, however, easy to keep up the land after the start is well made. All that is necessary is to cultivate shallow, and to plow and harrow the surface. The advantage of such land is, besides its perfect drainage, that it can be worked early, thus getting the benefit of the winter moisture, and of an early growth, so as to shade the ground, and thus protect it from the hot sun and the drying winds, which otherwise would have the best of it. Its moisture, it being less capable of withstanding drought than other land.

FARM AND HOUSEHOLD.
How to Tell When a Mare is With Foal.—For the benefit of M. D. I will give my rule for telling whether a mare is with foal: Take a rope, strap or string and measure around the girth where the harness goes on the back and the belly-band buckles up; then measure again, just forward of the hind legs around the body; if larger around in the latter place than in the former, you may safely conclude she is with foal. —Harpur's Weekly.

In this way the land can be worked right along profitably, and improved all the while, with but little of the fertility lost that is applied. A heavy dressing will do more in the long run. Hence light and frequent applications is the true theory. I find it also the practice in sections I have visited where the land is leechy. Parts of Steuben county, New York, are of this character, where I first got my ideas of the benefit of such soil. But the attention to the land must not be remitted, else it will soon go back to its original state, when trees or root-rotting alone can retain a footing. It is, however, easy to keep up the land after the start is well made. All that is necessary is to cultivate shallow, and to plow and harrow the surface. The advantage of such land is, besides its perfect drainage, that it can be worked early, thus getting the benefit of the winter moisture, and of an early growth, so as to shade the ground, and thus protect it from the hot sun and the drying winds, which otherwise would have the best of it. Its moisture, it being less capable of withstanding drought than other land.

Treatment and Care of Cows.
Water.—At least have a supply of pure water in the yard, for water—better if it could be in the stable and cow-house—ought to go out of doors except in pleasant weather for exercise. Many farmers lose more dollars yearly than it would cost to dig a well in a yard, by driving their cattle, during the inclement weather of winter, to some ice-bound brook or frog-pond to drink the filthy water. The cows come back to the barn chilled, and the milk it requires a good feed of hay, and considerable time to restore the natural warmth of the animal; and this amount of food is lost. The importance of pure water has been proved by Prof. Law, in some extensive investigations, where the effects of foul and stagnant water could be traced through the entire system of the cow, through the milk and butter; and he is of the opinion that diseases of the human family might frequently be traced to the use of impure milk. In the instance referred to, the organisms found in the stagnant water were found in the milk, and the blood and milk of the cow, and the disease, ferocious condition of her system. This investigation, made by a careful observer, proves conclusively that the germ of disease, and of a milk-spreading ferment, can be introduced into the udder, and spread, by simply allowing the cow to drink impure water. Similar facts have been noticed at these factories, where the milk of a few cows drinking impure water had tainted the day's make of cheese.

Comfort of the Cows.—Study to render the cows as comfortable as possible; among which are regular bathing for feeding and milking; warm well-ventilated stable; a liberal amount of bedding for them to lie upon; and last, but not least, perfectly kind treatment. On no condition should kicking, whipping or loud scolding be indulged in—this last being sufficient. Mr. Harris Lewis says that in the falling of for several days of twenty-five per cent. of the amount of milk usually given by the cow.

Stables.—It is a lamentable fact that so little attention is paid to the condition of the buildings in which we keep our cows. Ventilation is something that is frequently entirely overlooked, no matter how the farmer's intention and negligence of the farmer from his ignorance of its necessity. Warm, ill ventilated stables will save food, but at the expense of the health of the cow and the quality of the butter. Better the cold, open barn, than the close, poorly ventilated stable; but there is no need of either. A little study and application will generally enable us to remedy both.

Colic always come from one cause—some part of the body being cooler than natural for a time. If a person will keep his feet warm always and long after himself or herself to be chilled, he or she will never take a cold in a lifetime, and this can only be accomplished by due care to warm clothing and avoidance of draft and exposure.
The following lotion is superior for a shampooing liquid, for removing dandruff and as a useful and pleasant application for the face. It is, of course, moderately stimulating, and in those cases in which the hair follicles are not destroyed, and have become merely inactive, it is likely to prove efficacious: Acetic acid, one drachm; cologne water, one ounce; water, in all to make six ounces.

Gold Fern.—It is certain that no one who has used where feet are habitually cold. If the blood is generally distributed to every part of the body, there is equal warmth in every part and general good health. Any one whose feet are the least inclined to be cold should, when they get up in the morning, put their feet in a basin of cold water for a few minutes, rubbing them vigorously; wipe dry and hold them to the fire, if convenient, in cold weather, until every part of your foot feels as dry as your hand, then put on the socks or stockings. On going to bed at night draw on your stockings, and hold your foot to the fire for ten or fifteen minutes until perfectly dry, and get into bed immediately.

A CORRESPONDENT of the Scientific American recommends turpentine as a cure for lockjaw. He says: "Let anyone who has an attack of lockjaw take a small quantity of turpentine, warm it and pour on the wound, no matter where the wound is, and relief will follow in less than an hour. Nothing better can be applied to a severe case or burn than cold turpentine; it will give certain relief almost instantaneously. Turpentine is also a sovereign remedy for cramp. Saturate a piece of flannel with it and place on the throat, chest, and in very severe cases three or four drops on a lump of sugar may be taken frequently. Every family should have a bottle on hand. The remedy is simple and easy tested. In all serious cases an application should be made under careful supervision."
It is now estimated that about \$500,000 worth of sugar was lost during the flood in Louisiana.

Receipts for Dr. Sage's Catarrh Remedy and Dr. Pileo's Golden Medical Discovery.
Something over a year since, a part of the population of Berlin, Prussia, and other cities, were afflicted with Catarrh, Ringworm, and other diseases, which were cured by the use of Dr. Pileo's Golden Medical Discovery. The people were left in ignorance of the source of the cure, and the receipt for making Dr. Sage's Catarrh Remedy and Dr. Pileo's Golden Medical Discovery. The people were left in ignorance of the source of the cure, and the receipt for making Dr. Sage's Catarrh Remedy and Dr. Pileo's Golden Medical Discovery.

An Old Settler, one of our leading citizens, reading on Brady's that had a son approaching manhood, who for some two months had been out in Colorado seeking his fortune—about ten days ago "Chasley" for that is his name, wrote to him that he was going to be a settler. Now this very much astonished him, as he had authentic intelligence of his death last November, and had mourned as none but parents can mourn for their lost boy. But this letter was genuine, there could be no doubt about it, and the very next day he was going on his way before his exile, and he came with his initials, and purchased of Griggs, Watson & Day, the then existing firm. The writing was his and the signature—no one who had ever seen the peculiar joining of the "n" to the "c" could for a moment dispute. On Sunday night last the parents went to bed, anticipating his arrival on Monday (yesterday). At midnight or near morning the mother states that she was violently pulled out of bed, and looking up, saw the pale face of Chasley in the rising moonlight. "My dear boy," she cried, "where have you been, and why did you leave your home? She asked her husband, and the boy was searched, but no boy was there.

To Prevent Wax or Pipes from Bursting.
The following plan for the prevention of the bursting of water pipes during the winter weather has been invented in England. It is well known that when water freezes it expands, and that the force exerted is so enormous that no pipe can resist it. This invention is intended to give the water a chance to expand without bursting the pipe. It accomplishes this by securing in the inside of the pipe a rubber tube, which is tightly made for the purpose of such a diameter that the space inside it is a little more than equal to the increase in volume of the ice. The rubber tube is always kept full of air, so that when the water freezes it finds the necessary space for expanding, and by compressing the air tube it displaces the ice and takes its place. The ice melts the tube again expands, becomes filled with air, and is ready for another frost and so on for any number of times without requiring attention.

California's Biggest Nugget.—How much we owe to California! Her precious metals have enriched thousands of our fellow citizens, and have proved the main stay of America in times of distress. Her miners have given employment to myriads of mechanics and laborers. She is the land of promise to the fortunate hunter. But the Golden State has lately sent us a new treasure. Her last nugget is Dr. Walker's California Vinograd Bitters. The health-giving, stomachic, and tonic qualities are a more precious boon than gold. In all affections of the liver and stomach, rheumatism and intermittent fevers, and pulmonary diseases, it may be relied upon. As a blood purifier and invigorant it is unequalled, purifying the circulation and infusing new vigor into the debilitated frame. It conquers that most unyielding of all complaints—dyspepsia, and we know of no other remedy that can accomplish this. Its entire freedom from alcoholic spirit, which retards and neutralizes the effect of any medicine, is a unique feature. It forms the basis of many of the patent medicines, and it doubly enhances its value to the sick. The papers of the United States vie with one another in doing honor to Dr. Walker. We, too, add our voice, and say all honor to the man whose science and skill have enabled him to draw forth the vegetable kingdom such a blessing for humanity.

WALKER'S CALIFORNIA VINOGRADE BITTERS.
Dr. Walker's California Vinograd Bitters is a most valuable and healthful beverage. It is a tonic and stomachic, and is especially adapted for the cure of all ailments of the liver and stomach. It is also a blood purifier and invigorant, and is equally adapted for the cure of all ailments of the blood and nervous system. It forms the basis of many of the patent medicines, and it doubly enhances its value to the sick. The papers of the United States vie with one another in doing honor to Dr. Walker. We, too, add our voice, and say all honor to the man whose science and skill have enabled him to draw forth the vegetable kingdom such a blessing for humanity.

California's Biggest Nugget.—How much we owe to California! Her precious metals have enriched thousands of our fellow citizens, and have proved the main stay of America in times of distress. Her miners have given employment to myriads of mechanics and laborers. She is the land of promise to the fortunate hunter. But the Golden State has lately sent us a new treasure. Her last nugget is Dr. Walker's California Vinograd Bitters. The health-giving, stomachic, and tonic qualities are a more precious boon than gold. In all affections of the liver and stomach, rheumatism and intermittent fevers, and pulmonary diseases, it may be relied upon. As a blood purifier and invigorant it is unequalled, purifying the circulation and infusing new vigor into the debilitated frame. It conquers that most unyielding of all complaints—dyspepsia, and we know of no other remedy that can accomplish this. Its entire freedom from alcoholic spirit, which retards and neutralizes the effect of any medicine, is a unique feature. It forms the basis of many of the patent medicines, and it doubly enhances its value to the sick. The papers of the United States vie with one another in doing honor to Dr. Walker. We, too, add our voice, and say all honor to the man whose science and skill have enabled him to draw forth the vegetable kingdom such a blessing for humanity.

Walker's California Vinograd Bitters
Grateful Thousands proclaim Walker's Bitters the most wonderful in the world that ever sustained the sinking system.

Walker's California Vinograd Bitters
No Person can take these Bitters according to direction, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Walker's California Vinograd Bitters
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great river throughout the United States, especially those of the Mississippi, Ohio, Miss and Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our country during the Summer and Autumn, and remarkably so during seasons of unusual heat and drouth, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S CALIFORNIA VINOGRADE BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Walker's California Vinograd Bitters
Fortify the body against disease by purifying the fluids with WALKER'S BITTERS. No epidemic can take hold of a system thus fore-armed.

Walker's California Vinograd Bitters
Dyspepsia or Indigestion, flatulence, Pain in the Shoulders, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other ailments, symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Walker's California Vinograd Bitters
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Sorel Neck, Goiter, Scrofulous Inflammations, Indolent Abscesses, Mercurial Sores, Old Sores, Eruptions of the Skin, Sore Eyes, &c. In these, as in all other constitutional diseases, WALKER'S CALIFORNIA VINOGRADE BITTERS have shown their great remedial powers in the most obstinate and intricate cases.

Walker's California Vinograd Bitters
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases cannot be cured by any other means.

Walker's California Vinograd Bitters
Mechanical Diseases—Persons engaged in Palms and Minerals, such as Plumbers, Typographers, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S CALIFORNIA VINOGRADE BITTERS occasionally.

Walker's California Vinograd Bitters
For Skin Diseases, Eruptions, Tetor, Salt-Rheum, Blisters, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scourf, Disorders of the Skin, Humors, and Diseases of the Skin of whatever name or nature, are readily dug up and carried out of the system in a short time by the use of these Bitters.

Walker's California Vinograd Bitters
Pin-Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no trifling, no no-alumina will free the system from worms like these Bitters.

Walker's California Vinograd Bitters
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Walker's California Vinograd Bitters
Cleanse the System and Blood when Afflicted with any of the following. Always find your impurities lurking through the skin in Pimples, Eruptions, or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is full of your feelings will tell you why. If the blood be pure, and the health of the system will follow.

Brainerd Tribune.
 The Republican Legislative District Convention met pursuant to call, at Sauk Rapids, on the 15th inst., and in absence of W. H. Houlton, chairman of the District Committee, was called to order by Dr. H. McMahon, one of the committee.

A temporary organization was effected by electing J. Carpenter, Chairman, and John Hazlehurst, Secretary.

Messrs. Coykendall, Joshua Briggs, Hill, Caley and Ezra Smith were appointed a committee on credentials, and reported the following gentlemen entitled to a voice in the convention: Benton—J. Carpenter Ezra Smith, G. Dame.—3.

MORRISON—E. G. Hill, G. W. Harvey, John Dockin, (John Hazlehurst, substitute), John Shay, (J. Taylor, substitute).—4

SIERRBURNE—J. O. Cater, Capt. Briggs, R. B. McArthur.—3.

Crow Wing—H. G. Coykendall, Mitt Askew A. P. McKay, M. C. Russell, (B. K. Knowlton, substitute).—4.

Mills Lacs—I. S. Mudgett, (John H. Allen, substitute), T. H. Caley.—2.

On motion the temporary officers were elected as permanent.

Mr. Coykendall moved that the convention proceed to formal ballot, which was carried, and the names of Messrs. C. A. Ruffee, of Crow Wing; C. B. Buckman, of Morrison, and J. H. Allen, of Mills Lacs, were presented to the convention for nomination.

Five ballots were had, as follows: First and second ballots, Ruffee 7, Buckman 5, Allen 4. Third ballot, Ruffee 8, Buckman 5, Allen 3. Fourth ballot, Ruffee 8, Buckman 5, Allen 3. At this juncture Buckman's name was withdrawn, and the fifth ballot resulted in Mr. Ruffee receiving 10, and Allen 6 votes, making Mr. Ruffee the nominee of the convention. The convention was harmonious throughout, and its choice was announced amid hearty applause.

The Person of Jesus Christ.
 We have been favored, through the kindness of a friend, with the following description of the person of Our Saviour, which he was permitted to copy from a copy of the original document, brought to the United States by a noted Professor who had been traveling and studying in the Holy Land:

A description of the Person of Jesus Christ, as it was found in an ancient manuscript, sent by Publius Lattius, President, to the Senate of Rome:

"There lives, at this time, in Judea, a man of singular character, whose name is Jesus Christ. The barbarians esteem him as a prophet, and his followers adore him as the immediate offspring of the immortal God. He is endowed with such unparalleled virtue as to call back the dead from their graves, and to heal every kind of disease with a word or a touch. His person is tall and elegantly shaped, his aspect amiable and reverent, his hair flows in those beautiful shades which no colors can match, falling in graceful curls below his ears, agreeably touching upon his shoulders and parting upon the crown of his head. His dress is of the sect of the Nazarites. His forehead is smooth and large, his cheek without either spot or blemish, his nose and mouth are formed with exquisite symmetry, his beard is thick and suitable to the hair of his head, reaching a little below his chin, and parting in the middle like a fold. His eyes are bright clear and serene. He rebukes with mildness and invites with the most tender and persuasive language. His whole address, whether in word or deed, being elegant, grave and strictly characteristic of so exalted a being. No man has seen him laugh, but the whole world has seen him weep frequently, and so persuasive are his tears that the whole multitude cannot withhold their tears from joining in sympathy with him. He is very moderate, temperate and wise. In short, whatever this phenomenon may turn out to be in the end, he seems at present, to be a man of excellent and divine perfection, every way surpassing the children of men."

GINGER ALE—Mr. T. M. Trudell, the "Pop Man," has introduced into his business a new feature in the production of that celebrated and delicious beverage, Ginger Ale. It is healthful as it is good, and Mr. T. proposes to place the price so low, for the balance of this season, that all families can afford to indulge in lots of it, as *other folks*.

FRESH OYSTERS—very best brand—at KOMEY'S.

For best blue-juicy and red-top Hay, apply to Wm. Wick, at Union Hall, Brainerd.

The very highest price in cash paid for Ginseng, Sanga Root, Black Root, and Sweet Flag, by S. V. R. Sherwood at the Drug Store.

Over-the-Saloon.—Mr. L. C. Currier, the Laurel street grocer, has added a first class oyster department to his store, where he will serve up fresh oysters at any hour and in every style. His oysters are the best brand, and aside from "dishing them up" in all the luscious forms, he sells them by the can or case at the lowest possible price for first class goods. Go for 'em!

For best fine of Provisions, go to Lamont & Wilson's.

One and One.
 Two little girls are better than one,
 Two little boys can double the fun,
 Two little birds can build a fine nest,
 Two little arms can love a mother best,
 Two little ponds must go to a span;
 Two little pockets has my little man,
 Two little eyes to open and close,
 Two little ears and one little nose,
 Two little elbows, dimpled and sweet,
 Two little shoes, on two little feet,
 Two little lips and one little chin,
 Two little cheeks with a rose shut in;
 Two little shoulders, clubby and strong,
 Two little legs running all day long,
 Two little prayers does my dearest say,
 Twice does he kneel by my side each day,
 Two little hands, soft and brown,
 Two little eyelids cast weakly down—
 And two little angels guard him in bed,
 "One at the foot, and one at the head."
 —St. Nicholas for September.

Mr. WHITTAKER, the contractor for the Pembina and Fort Garry Railway, arrived here yesterday morning, and after purchasing grading implements, etc., took passage on the Selkirk for the fields of his labor. Work upon the bed will commence immediately, to be finished in the spring. This is reliable.—*(Moorhead Star.*

The Tribune editorial corps has been reinforced by a new "arrival"—Weight, twelve pounds.

\$10 to \$1000 Invested in Wall Street leads to a fortune. Pamphlet with explanations and statistics of Railroads, Stocks, Bonds, etc., with other valuable information, mailed on receipt of 30 cts. Address ALFRED FRANKS & CO., Bankers and Brokers, 12 Wall Street, N. Y. 3-30-3m.

 STATE OF MINNESOTA,
 11th JUDICIAL DISTRICT, COUNTY OF CROW WING, DISTRICT COURT.
 Elmer H. Bly, Plaintiff, vs. Thos. Shaw, Defendant.
 The State of Minnesota, to the above named defendant:
 You, Thos. Shaw, are hereby summoned and required to answer the Complaint in this action, which is on file in the office of the Clerk of the Court for said County of Crow Wing, and to serve a copy of your answer to the said Complaint on the subscribers at their office in Brainerd within twenty days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said Complaint within the time aforesaid, the plaintiff in this action will take judgment against you for the sum of one hundred and fifty dollars and interest on that sum from January 13th, 1874, together with the costs and disbursements of this action.
 Dated July 24th, A. D. 1874.

 Brainerd, Minn.

MORTGAGE FORECLOSURE.
 WHEREAS, DEFAULT HAS BEEN MADE in the payment of the money secured to be paid by mortgage made by Patrick H. Trudell, of Brainerd, Crow Wing county, Minnesota, to Thos. C. Carvell, of the same place, and which mortgage was recorded in the office of the Register of Deeds of Crow Wing county, on the 15th day of September, A. D. 1873, at 7 o'clock P. M., in Book A of mortgages, on pages 663, 664, 665:
 The amount claimed to be due on said mortgage at the date of this notice, is the sum of Four hundred Dollars and 25-100 Dollars, and fifty dollars attorney's fees claimed in said mortgage; and the interest on such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in said mortgage, at public auction, at the front door of the Sheriff's office at the Jail in said county, on Saturday, the 15th day of September, A. D. 1874, at 10 o'clock A. M., on that day, to the highest bidder.
 The premises as described in said mortgage are as follows: "all that tract or parcel of land lying and being in a County of Crow Wing and State of Minnesota, described as follows, to wit: Lot No. sixteen (16), in Block No. forty-seven (47), in the town—now city—of Brainerd, according to the recorded plat thereof on file in the office of the Register of Deeds of Crow Wing county, Minnesota."
 Dated August 6th, 1874.

Tax Judgment Sale.
 STATE OF MINNESOTA,
 COUNTY OF AITKIN, ss.
 Pursuant to a real estate Tax judgment of the District Court, in the County of Crow Wing, State of Minnesota, entered the 21st day of August, 1874, in proceedings for enforcing payment of taxes upon real estate, in the County of Aitkin, remaining delinquent on the 1st day of June, 1874, and of the statutes in such case made and provided, I shall on the Tenth (10th) day of October, 1874, at ten o'clock, in the forenoon, at the office of the County Auditor, in the town of Aitkin, and County of Aitkin, sell the lands which are charged with taxes in said judgment, and on which such taxes shall not have been previously paid.
 G. E. HOOK,
 Deputy County Auditor
 County of Aitkin.

Over-the-Saloon.—Mr. L. C. Currier, the Laurel street grocer, has added a first class oyster department to his store, where he will serve up fresh oysters at any hour and in every style. His oysters are the best brand, and aside from "dishing them up" in all the luscious forms, he sells them by the can or case at the lowest possible price for first class goods. Go for 'em!

For best fine of Provisions, go to Lamont & Wilson's.
